At present there is every indication of an early spring. The clover and fall wheat are looking good, which will mean a good thing for the farmers.
Every man who is working for wages should demand a larger amount for his labor, as the price of meat and flour has gone up almost beyond a laboring man's ability to purchase the plain necessities of life. Then we must consider that a great many wage earners have taxes to pay, fuel, rent, groceries, dry goods, boots and shoes and many things too numerous to mention, and he is entitled to larger wages.
Mrs. D. F. Milloy, of Oakwood, is moving back to the homestead and will keep house for her father, Mr. John Brown.

Bury's Green.

Correspondence of the Gazette.

About fifty friends and neighbors gathered at the home of Mr. James Akister last Wednesday to witness the marriage of his only daughter Minnie to Mr. Albert Billett. The ceremony was performed by the Rev. W. H. A. French. After congratulations they all sat down to a tempting spread and then all enjoyed themselves till nearly midnight, when they all returned home. The presents were numerous and useful, and expressed the good wishes of their many friends.

Otonabee Navigation Company.

The Otonabee Navigation Co.'y of Peterborough, Mr. W. H. Robertson, President, has arranged for Mr. Robert Pinchin, to take over the General Managership of the Co., and having taken over another boat making a fleet of five, they have arranged their plans for the season. The Co. purposes covering the lakes from Gore's Landing to Cobocook, and ultimately with the addition of a boat that is to be put under construction, they will cover Lake Simcoe.

Under the new arrangement a steamer will leave Gore's Landing and other Rice Lake points every morning, arriving in Peterborough in time to connect with the mid-day trains from Toronto and the western points. The boat will then proceed to Stony Lake, arriving there early in the evening, making close connections and giving ample time to make all necessary calls among the islands in both upper and lower Stony Lake.
A boat will leave Stony Lake daily about 11.30 a.m. making close connections at Peterborough with C. P. R. and Grand Trunk, and reaching Rice Lake about 7 p.m., where it will remain until the following morning.
Another boat will leave Crowe's Landing and all intermediate points for Bobcaygeon, arriving there at 12 o'clock, connecting with the C. P. R. Leaving again at 1.15, she will arrive at Burleigh Falls at 4 p.m. and other points on upper and lower Stony Lake a little later.
On the Lindsay division a splendid service has been arranged between Lindsay and Sturgeon Point, as well as Bobcaygeon, Fenelon Falls and Cobocook.

The splendid new twin screw excursion steamer Otonabee will handle the excursion business as heretofore, between Rice Lake and Lindsay, as well as intermediate points.
The following are the names of the company's steamers and their masters: Otonabee, Capt. W. H. White. Water Lily, Rice Lake and Burleigh Division, Capt. Geo. D. Frewer. Monarch, Rice Lake and Burleigh Division, Capt. Wilbur Harris. Medivale, Burleigh and Bobcaygeon Division. Manita, Lindsay, Fenelon Falls and Cobocook Division, Capt. S. R. Pearson. Steamer Carmana, under construction.

Independent: Mr. Broad had the misfortune to lose his young horse on Wednesday morning in Pigeon Lake. Mr. and Mrs. Mat Nichols and child, and Percy Nichols had the horse and sleigh away taking supplies to their camp at Ball Lake. They crossed from the boat house direct to the Big Island and then skirted along the shore, reaching their destination in safety. Percy returned with the horse, and followed his own track, but when near steamboat island on the shore opposite the boat house, the horse dropped through. No help was within reach of hearing, and do what he could, Percy was unable to get the horse out. He could get the shoulder of the animal on the ice, and then it would break or the animal slide back. He pulled out the sleigh and harness and drew the sleigh himself to the boat house, and it is well he did so, as he broke through several times on the way across and got out with the help of the shafts. The ice was honeycombed and rotten. Further down the lake between Sandy Point and Montgomery's Bay teams are still crossing.
