INVICTUS
SOME
PEOPLE
SAY
That They
Cannot
Wear
Oxfords.

They claim that they aren't comfortable because
they slip up and down at the heel.

That objection is made by those who haven't worn
Oxfords for some years, and it is no longer true.

Oxfords that we sell are shaped at the heel to
prevent all slipping.

There is no foot that
we cannot fit.

There is no taste that
we cannot please with some
shape or shade or other.

Better see our oxford
stock, get fitted and suited,
and enjoy real foot comfort
this summer.

As we said, we've got
something to please every-
body.

Can't You See?

Capitalist daily papers should con-
vince you that the present system is
so bad that it ought to be changed.
It ought not to need any Socialist ar-
gument to prove to you that some-
thing radical should be done and done
at once. Do not the crimes reported,
the suffering of men, women and es-
pecially of the little children in the
sweat shops and mills and mines, ap-
peal to something in you? Have you
no spark of good and humane feelings
for others in your soul? Can't you
see that the present system is imprac-
tical? That it is not producing the
conditions under which you wish to
live? Are you so dull of reason that
you do not see that every crime is
committed for PROFIT, and, therefore,
PROFIT is the active cause of the
crimes, and removing the cause would
remove the crimes? Do you believe
that a system that would do away
with the profits that go in billions a
year to a few, could give you less for
your industry than you are getting to-
day? If it did not go to the rich, to
whom would it go? You get only a
small part of the wealth you produce.
Do not the products of your hands
and brains pile up the millions rep-
resented by the colossal fortunes of mod-
ern times? If they do not come from
you, from whom do they come? Sure-
ly you must have brains enough to
see, if you will but think, that when
others make millions YOU LOSE WHAT
THEY GAIN. You see, it is not like
your work. Your work actually pro-
duces things; their work is only in
MANIPULATING YOU AND YOUR PRO-
DUCTS, so that they gain without pro-
ducing? Can't you see that you are
being robbed, by a system based on
profits, to the extent that others gain?
If you raise a crop, that crop is not
profit, it is your product. But the
men who manipulate it and make mil-
lions out of it—that which they gain
is profit. We know well enough, for
science has proven it, that you could
have from three to five times as much
for your crop or your labor as you
now get. Would you be injured by
getting more for your own products?
It would not be right for you to make
a profit off the products of others.
That is why the present system is
wrong. All the great fortunes, all the
thousands of kingly palaces, all the
great factories and shops and mines
and machinery and office buildings
and business blocks of the nation, are
what have been taken from you and
your fathers before you. Oh, please
THINK about it. It will not harm you
to think. I do not want to think for
you. That would do you no good.
Do your own thinking and then you
will not be deceived. I might want
to deceive you. But if you read up
you will know. Is that unfair? Is not

such action good for you? Socialism
may be wrong, it may not be a reme-
dy at all, but you can only know by
studying the matter for yourself. You
will not learn what it is from those
who are opposed to it. Read all you
will against it. We do not ask you
to refrain from doing so. But PLEASE
read, also, what is said in favor of it.
Then you will have both sides of the
question. Then you can form some
just judgment. Truth does not fear
to be attacked, if it is free also to be
heard. Somebody poisoned your mind,
as they did mine, against Socialism
before you or I knew anything about
it. I read; I studied; and I know
now why. Don't you want to know?
—Appeal to Reason.

The Sugar Trust.

To show you how private enterpri-
se robs you, let's instance the sugar in-
dustry. The present trust took over
sixteen little companies with a com-
bined capital of \$6,500,000, and then
began to water it. It took profits so
enormous that it increased its prop-
erty to something like \$100,000,000, and
paid in the meantime \$130,000,000 in
dividends, and that during the last
twenty years! In other words, it has
taken from you 100 per cent. every
year on the capital actually invest-
ed. Now this government borrows money
at 2 per cent. interest. If the public
owned and operated the sugar refining
industry, you would have saved \$260,-
000,000 on the one item of sugar alone
during the last twenty years. But you
vote to have sugar a private industry,
and you get skinned to a frazzle. And
above all this, the private owners of
the industry have paid enormous salar-
ies to their officers, to their lawyer,
to their lobbyists and others. All this
you have brought on yourselves, be-
cause you are too blind and stupid to
realize the cause of it all—the private
ownership principle. And what good
comes to you by reason of the private
ownership? You get none of the prof-
its, none of the benefits; but you pay
for them into the pockets of the rich
and corrupting classes. Will you al-
ways remain stupid? You could have
sugar to-day for two cents a pound if
it were a public monopoly, and there
would be some direct benefit to you,
which you will never receive so long
as you vote for men who do not believe
in publicly owned industries.—Ib.

The world will not have escaped
despotism until it has overthrown the
greatest despotism of all—capitalist
control of industry.

They say that when a man lies he
wiggles his big toe. Perhaps that is
the reason that shoes became fashion-
able in capitalist countries.
