

## LAY FOR WEEKS AT DEATH'S DOOR

### GUT DODD'S KIDNEY PILLS CURED MRS. THOMPSON'S DROPSY.

It Started with Backache and Grew Worse Till the Doctor Said She Must Die.

Holt, Ont., May 16. (Special).—All the countryside here is ringing with the wonderful cure of Mrs. Samuel Thompson, who lay at the point of death for weeks, swollen with Dropsy so that the doctor five different times decided to tap her, but desisted because, as her husband said, "It might be better to let her die in peace." After the doctor had given her up Dodd's Kidney Pills cured her.

Mrs. Thompson's terrible trouble started with pain in the back. She grew worse and the doctor treated her for jaundice for eight weeks. Then her feet and legs began to swell, and it was realized that Dropsy was the trouble. For seven months she suffered. The doctor said there was no hope; she must die.

As a last resort Dodd's Kidney Pills were tried. The improvement was slow, but gradually her strength came back. To-day Mrs. Thompson is a well woman. She says, and the country-side knows, she owes her life to Dodd's Kidney Pills.

If the disease is of the Kidneys, or from the Kidneys, Dodd's Kidney Pills will cure it.

### SHE KNEW THE WORST.

Mistress (hiring servant)—"How do you know your place?"  
Servant—"Oh, yes, mum! The last three girls you had told me all about it."

There can be a difference of opinion on most subjects, but there is only one opinion as to the reliability of Mother Graves' Worm Exterminator. It is safe, sure and effectual.

The transition from winter's cold to summer's heat frequently puts a strain upon the system that produces internal complications, always painful and often serious. A common form of disorder is dysentery, to which many are prone in the spring and summer. The very best medicine to use in subduing this painful ailment is Dr. J. D. Kellogg's Dysentery Cordial. It is a standard remedy, sold everywhere.

## ELECTRICITY FROM WIND.

New Use to Which Old Fashioned Wind Mills Can be Put.

The machinery of a modern windmill is just as far advanced over the crude machinery of the windmill of fifty years ago as is the works of a fine watch over the works of a dollar alarm clock. One type of wind turbine, for instance, consists of a wheel about sixteen feet in diameter mounted upon a steel tower fifty feet in height.

The entire wind wheel is of galvanized ball bearings. Its transmission gear works in an oil bath and, according to Poupier Mechanies, the best methods known to engineering have been adopted in order to eliminate friction and enable the wheel to make the best of light winds.

The result is that even in a wind having a velocity of no higher than six miles an hour the turbine generates electricity. Such a windmill as this is provided with an electric generator and switchboard and a fifty-five cell storage battery as its electrical apparatus. The wheel is always in running position, ready to make use of every puff that comes, and it steadily makes and stores current except in times of absolutely still weather.

John (the waiter)—"Well, I don't know, Miss. When the sun don't shine she's miserable, and when it does, she says it fades the carpet."

**Pills of Attested Value.**—Parlee's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

### CURED HIS RHEUMATISM.

Yarmouth, N. S., June 2, 1908.—"I have been bothered with Rheumatism for the past year and have taken a good many kinds of medicine and found no relief for it.

"One day a friend advised me to try Gin Pills, so I did, and after taking only one box of them, I felt like a new man.

"I thought I would write you a few lines to let you know how thankful I feel for the relief they gave me, and would advise all sufferers from Rheumatism to get Gin Pills."

### SPECIAL PRIVILEGE.

"It's a pity," muttered the man who unfortunately for himself had the reputation of being a good fellow among his friends, "that all men when they take a drink with others can't do as a doctor does."  
"What's that?" asked an acquaintance.  
"Why a doctor can treat a man and make him pay at the same time."

A young captain, who was drilling the awkward squad, commanded thus: "Now, my men, listen to me. When I say 'Halt!' put the foot that's on the ground beside the one that's in the air, and remain motionless."

### BANKS AS ROAD BUILDERS

Time and time again in the last two years information has come from the Canadian West indicating that the Chartered Canadian Banks are playing no small part in the development of our Western territory.

Repeatedly we have heard of the Banks going into new Districts with the first settlers—opening up and fostering business connections which have resulted in the rapid growth of the community.

Two of the latest instances of this have been shown in the establishment of Branches of the Traders Bank at Fort George, B. C., and Stewart, B. C. Fort George is half way between Prince Rupert and Edmonton on the projected line of the Grand Trunk Pacific. It is attracting attention on account of its favorable location, and present indications would point to its being one of the large cities of Northern British Columbia. Stewart, B. C. is within two miles of Portland City, the place in British Columbia where the recent wonderful Silver strike was made.

The latter town is attracting people from the Western Coast States in large numbers, and a small rush of prospectors into the district is now under way.

A man named Pusskorin, a gardener in St. Petersburg, has succeeded in producing a black rose.

Keep Minard's Liniment in the house.

"George," said she, "you have held a good many high positions at one time and another."  
"Yes," said George, who had been married long enough to know that non-committalism is the best home policy. "And I have heard it said that your success was due to the magnetism that drew towards you." "Um—I—" "Don't pretend to be bashful, now. I was just wondering if you were magnetic enough to draw the tacks from that drawing-room carpet to-morrow morning before breakfast."

"Tis a Marvellous Thing. — When the cures effected by Dr. Thomas' Electric Oil are considered, the speedy and permanent relief it has brought to the suffering wherever it has been used, it must be regarded as a marvellous thing that so potent a medicine should result from the six simple ingredients which enter into its composition. A trial will convince the most skeptical of its healing virtues.

### FAMILY FACTS.

It was little Flossie's first day at school. Her name had been registered and the teacher asked: "Have you any brothers or sisters?"

"Yes, ma'am," answered Flossie.

"Are you the oldest one of the family?"

"Oh, no, ma'am," returned Flossie. "Pa and ma's both older'n me."

Birmingham has the largest pin factory in the world, manufacturing an average of 377,000,000 a day.

## AMUSING HER.

"Yes, our little four-year-old is such a comfort, and such a help to me," said Mrs. Ritchie to a lady caller. "Why, he can take care of his baby sister as well as any nurse. He is in the next room now, playing with little Dorothy. I'll call him—Walter!"

"Yeth, ma."  
"Are you taking care of little sister?"

"Yeth ma."  
"What are you doing, Walter?"  
"Oh, I'm playin' I'm a barber, an' I'm shavin' 'er wif pa's razor."

**They Cleanse While They Cure.**—The Vegetable compounds of which Parlee's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful action. Hence they are the best remedy for indigestion available to-day. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

No opinion can help you to heaven if it makes you hate your brother man.
