Portugal.

From The Youth's Companion.

Portugal has been badly governed under the monarchy, not because of the monarchy, but because of the low standard of its public men. It has a constitution and a parliament, but the government for years has been in the hands of men who have looted the treasury. The elections have been a farce, for when political pressure could not force the people to select the candidates favored by the ministry, the opposition candidates have been counted out. Then, when the party in power faced a crisis which it wished to evade, it would turn the government over to the opposition.

There has been an understanding among the leaders by which the parties should take turns at the offices. What this means is indicated by the fact that the daughters of a cabinet minister not long ago were drawing fifteen thousand dollars a year as customs house inspectors, although they never entered a customs house. It is the prevalence of that sort of "graft," from the highest to the lowest, that has brought about the troubles of the country.

The leaders of the republic are college professors and theorists. In America such men would make a serious attempt to reform the government, and would have public sentiment behind them. In Portugal, if they would succeed, they must combat the traditional practices of politicians for generations. They are still further handicapped by the illiteracy of the population, among which not more than one person in five can read or write.

A Noteworthy Difference.

From The Orillia Packet.

One noteworthy difference between British and American courts, emphasized by the accounts of the Crippen trial, is the fact that in England the judge is an official who makes it his business to try to elicit the facts, rather than a referee to see fair play between two lawyers exhibiting their forensic skill. The Lord Chief Justice, we are told, continually asked questions that tended to clear up doubtful points; questions, too, that the lawyers did not want to ask, for fear it might prejudice their case. Canadian courts, as well as courts in the States, might learn a lesson from this, for in this country, as well as among our neighbors, there is a tendency to make the courts a field for legal gladiators.

The Kind Not Wanted.

The leader who makes as the principal plank in his platform the abolition of the bilingual schools will sweep the Province of Ontario at the next general election.—Kingston Standard.

Let him go ahead, if he honestly believes the abolition of bilingual schools would be in the best interests of the Province. But we don't want any leader who takes up an issue only because he thinks he will get into power on it.

Work Done on T. V. C.

The annual report of the Department of Railways and Canals, just issued, contains short accounts of the progress made on the T. V. C. and other waterways during the period from April 1st, 1909, to March 31st, 1910. Referring to Fenelon Falls and Rosedale the report says:

A great deal of work was carried on at Fenelon Falls during the past year. A new concrete walk was put in at the lock, some sodding was done, and a waterworks system for watering the grass was installed. A concrete walk was laid in front of the lockmaster's house, and the ground levelled up. The work of deepening the channel from Cameron lake to the lock was continued, and a turning basin was completed east of the railway bridge. This is 200 feet long by 175 feet wide. From the Grand Trunk railway bridge to Cameron lake, a distance of about 800 feet, there is a splendid channel. This is fifty feet wide at the railway bridge and about 200 feet at the entrance to the lake, and has a depth of nine feet. The average depth of the material dredged was about five feet. The material was used to make a breakwater on the north side, from the railway bridge to the lake, and on the south side from a point about 350 feet below to the railway bridge and the end of the west entrance. A storehouse and coal shed were built at Fenelon Falls. The abutment pier at the south end of the dam from the water's edge was rebuilt. A new platform was built over the power canal or headgates to the Lindsay Light, Heat and Power Company's plant. A new set of stoplogs was supplied here, and a new set of winches was placed in position.

At Rosedale a canal has been made across the narrow peninsula between Cameron and Balsam lakes, a lock, dam and dredging in the Gull river between its confluence with the canal and deep water in Balsam lake. The lock is the same size as those of the Ontario-Rice lake division, and the canal and river channel will be 100 feet wide on the bottom with a depth of 9 feet at normal lake levels. The distance via the new canal, between the nine foot contours in Cameron and Balsam lakes is 1.8 miles, 1.2 miles shorter than via the Gull river and the old lock. A contract for the construction of this section was entered into with the Randolph Macdonald Company, Ltd., on February 24th, 1908, and the total value of work done and materials delivered up to March 31, 1910, amounted to \$134,919.74. The principal items of work done are: 195,000 cubic yards earth, 4,000 cubic yards solid rock, and 7,740 cubic yards concrete. The lock and its entrance piers are finished, and also the excavation for the canal, and some dredging has been done in the Cameron lake channel and in the Gull river. The gates for the lock were built on the ground by this office last year. These improvements will replace the old wooden lock and dam built by Mr. Wm. Whiteside, who in 1869 entered into a contract with the provincial government for their construction. The lock was not finally completed and placed in commission until late in 1873. His contract also included the building of a swing bridge across the river at this point, which was replaced by the Dominion government in 1897 by a steel swing span erected on a concrete substructure. In 1897 the Dominion government also completed the excavation of a channel 90 feet wide by 7 feet deep in the river between the old lock and Balsam lake, which channel up to then was only about 3 1/2 feet deep.

At Norland, Elliotts Falls, Moore's Falls, Hall's Lake and other points the dams were repaired, and at Horseshoe and Kushog lakes new concrete dams have been built.

The report further states that no serious accidents occurred throughout the year and the traffic was the largest in the history of the canal. The water was kept at a steady and uniform height throughout the entire year, and there were no complaints from navigation interests, the lumbermen or power companies.

Since the end of March, 1910, the dredging in the canal at Fenelon Falls has been completed, and a cement wharf built east of the railway bridge. The matter of making alterations in the lower end of the canal, to avoid delays to traffic on the street by the opening of the swing bridge, will probably be taken up at the coming session of Parliament at Ottawa.

At Rosedale everything is about finished up except the new dam. A good part of the banks have been sodded, and it is understood further improvements of this kind will be made.

Big Poultry Raising Enterprise.

One car, containing one thousand imported, pure-bred, White Plymouth Rock fowls and chickens arrived at the Grand Trunk Railway at Beaverton station last week. This shipment comprised a selection of the finest birds procurable, especially selected for their laying qualities, and is of peculiar significance, inasmuch as it is the commencement of an educational campaign introduced by the large pork-packing and provision houses of Gunn Limited, Toronto, and Gunn, Langlois & Co., Limited, Montreal.

Statistics show that for several years past, although the Federal and Provincial Governments have tried to educate farmers to produce more poultry, still, instead of an increase, an actual decrease in production is taking place. Only last spring, dealers were forced to import eggs from Russia and China to supply the Canadian needs; and in an effort to overcome conditions of this kind, and to regain for Canada the place that she once held as an exporting country of poultry and eggs, the above-mentioned firms of Gunn, Limited, and Gunn, Langlois & Co., Limited, have joined hands in a campaign which would appear to have solved the problem.

Realizing that educational work was necessary, a demonstration station was opened in May, 1910, at Peterboro', Ont., and the services of an expert poultry man engaged, whose duty it was to hold meetings in the neighborhood, at which the benefits of proper methods and their adoption were explained. The result of such efforts was, that while the price of ordinary eggs delivered to the storekeepers ran in the neighborhood of 16c. to 17c. per doz., 20c. was paid for eggs which were marketed according to the new method.

The movement spread, and R. E. Gunn, of Dunrobin Stock Farm, at Beaverton, Ont., became interested in the work of his section; but, owing to the farmers in the township of Thorah not raising any quantity of poultry of the proper breed and type, the progress was not so marked as in the Peterboro' section. To overcome this difficulty, Mr. Gunn authorized the buying agent of the above firms to procure for him a sufficiently large quantity of high class poultry to warrant him in engaging the services of a poultry expert. Macdonald College, of Ste. Anne's, furnished the man in the person of Thomas A. Benson, who for the past month has been placing the poultry division of the Dunrobin Farm in readiness to receive the poultry, the arrival of which marks the commencement of the new era in Thorah township, and sets an example to every township in Ontario and Quebec. Already the companies have made arrangements to supply other sections, thereby creating a growing interest in the work.—Canadian Farm.

AUCTION SALE.

At the Aldous Repository, Fenelon Falls, on Saturday, November 12th, 1910, there will be offered for sale a number of horses, cattle, sheep, pigs, sleighs, buggies and household furniture. For further particulars see bills.

Rev. W. H. Chidley Drowned.

A sad drowning accident occurred at Ball Point on Saturday morning last, when Rev. W. H. Chidley, of Stouffville, was drowned while duck hunting. Mr. Chidley, who was a minister of the Christian denomination, was staying with his father, Mr. James Chidley, near Cameron, and went out early in the morning to set out decoys. Three or four hours later an empty skiff was noticed floating near the shore by Miss Mona Sadler, of Fenelon Falls, and Master Everett Reeves, of Lindsay, who were at Ball Point with their parents. Shortly afterwards Mr. Chidley's cap was found floating in the water, and Messrs. J. O'Brien, J. Coppins, R. Glover, Fred. Reeves and T. Sadler immediately commenced a search, and the body was found a short distance from the shore in about seven feet of water. It is supposed the unfortunate man fell out of the boat while arranging the decoys. His gun was found on the shore. The body was taken to the residence of his brother, Mr. Wesley Chidley, and to Newmarket on Monday for burial.

Rev. Mr. Chidley was about forty-five years of age. He leaves a wife, three daughters and one son to mourn his loss.

Personal

Among the Thanksgiving visitors to the Falls were: Misses Bessie and Annie Nic, Orillia; Miss Annie Ellis, Miss Genevieve Twomey, Mr. Jerry Twomey, Mr. E. C. Calder, Miss Cecil Swanton, Mr. G. C. Graham, Mr. Chas. Ingram, Miss Bertha Brokenshire, Miss Bertha Mackenzie, Miss Florence Bellingham, Mr. J. Y. Greenwood, Mr. S. Swanton, Mr. H. McKendry, and Mr. and Mrs. Ed. McKendry, of Toronto, Dr. M. T. McEachren, Montreal; Miss Ella Austin, Kimmount; Miss Helen Crandell, Miss K. Junkin, Mr. H. J. Lytle, Lindsay; Mr. and Mrs. F. Crosgrey, Cobourg; Mr. Arthur Jewell, Brantford; Mr. T. Minore, Huntsville; Mr. John Cook, Peterborough;

Miss Nellie Heard left on Friday for a visit to Toronto relatives.

Miss Coulter, of Hartney, Man., spent Thanksgiving with Miss Kerr.

Mrs. Thos. Poulson and son Melville and Mrs. S. Brokenshire spent Thanksgiving out of town.

Mrs. Alf. Northey spent Thanksgiving with Cannington friends.

Miss Washburn, Miss Littleton, Mrs. W. Heard, Mrs. W. H. Robson and son Donald, Miss V. Puley and Miss Dora Dickson were in Toronto over Thanksgiving.

Mrs. Redner left for Peterborough on Wednesday to see her grandchild, a young son of Mr. Thomas Redner, who is seriously ill.

Mrs. Dickson and family have returned from their summer home at Rosedale.

Mr. Wm. McArthur is home from a trip to the Northwest.

BAZAAR.

The annual bazaar held by the Parish Workers of St. James Church will take place on the afternoon and evening of December 9th, in Jordan's block, north of Robson's drug store. Fancy work suitable for Christmas gifts will be on sale, special features being a table of home made cooking, pickles, cake, etc. and a booth of home made candy. Doors open at 2 p. m. No admission fee.

GONE HUNTING.

Nearly fifty deer hunting licenses have been issued to parties in town and vicinity. Among the local nimrods who are out or going out are Messrs. Thos. Robson, Job Palmer, M. Haskill, A. Sackett Jr., C. Edwards, Geo. Calder, J. Jones, M. H. McCallum, F. Metcalfe, A. W. Spence and A. Teirs.

TEA MEETING.

A tea meeting will be held by the Ladies' Aid of the Methodist Church, Cobocook, to be given on Wednesday night, November 10th. Tea will be served in the Odd-fellows hall from 6 to 8 o'clock, after which a good entertainment will be given in the church, consisting of singing, addresses, etc. Admission, adults 25c., children 15c.

ST. ANDREW'S CHURCH.

Rev. A. Buchanan, M. D., of India, will conduct services next Sunday as follows: Rosedale Presbyterian Church, 10.30 a. m., Bury's Green, 2.30 p. m., Fenelon Falls, 7 p. m. All who can should enjoy the privilege of hearing the wonderful story the doctor has to tell. The annual thankoffering of St. Andrew's W. F. M. S. will be held in the lecture room on Monday instead of Wednesday evening. A good programme is being provided including an address by Rev. J. Buchanan, M.D., India. A cordial invitation to all.

WOMEN'S INSTITUTE.

The Women's Institute met on Friday, Oct. 28th, at the home of Mrs. L. Townley. The meeting was well attended. The subject was the "Little Kingdom of Home." Excellent papers were given by Mrs. Calder and Mrs. Dr. Gould, and a paper by Mrs. Dr. Gould on "The Early Days of Francis Willard." The District President, Mrs. Stewart, of Bobcaygeon was present and gave an address on "How to make our meetings interesting." All felt profited and hope to have their president with them again in the near future. She was accompanied by Mrs. Seymour and Mrs. Thurston, secretary of the Bobcaygeon branch. Music was given by Miss Lillian Corbett and Miss Maud Patton, and a solo by Miss Doris Townley. Mrs. D. Jewell, secretary, was appointed delegate to attend Toronto convention on November 10th and 17th. Luncheon was served at the close by the hostess in her usual good style. The next meeting will be held on Nov. 28th in the Orange Hall, and will be addressed by Dr. Margaret McAlpine of Toronto. Further notice will be given. Keep it in mind.
