

## ARE KNOWN AS THE FARMER'S FRIEND

### DODD'S KIDNEY PILLS DOING GREAT WORK IN THE PRAIRIES.

Michael Anderson joins the throng who are shouting their praises — They cured his Gravel and Rheumatism.

Fine Valley, Man., Oct. 31 (Special).—Michael Anderson, a well-known farmer living near here is added to the number of those who have sent the cry echoing over the Prairies, "Dodd's Kidney Pills are the farmer's friend." And truly Mr. Anderson has reason to praise the great Canadian Kidney remedy. Listen to his experience: "A strain and a bad cold started my troubles," says Mr. Anderson, "and for twelve long years I was a victim of Kidney trouble, Rheumatism and Gravel. Doctors attended me and I tried many medicines, but they did not cure me. Dodd's Kidney Pills cured me in less than one month."

It is easy to do anything when you know how. Mr. Anderson went right to the root of his trouble. He cured his Kidneys by using Dodd's Kidney Pills and with the root gone the other diseases disappeared. Dodd's Kidney Pills always make healthy kidneys and with healthy kidneys, you can't have Rheumatism or Gravel.

### WOMAN DISGUISED AS MONK. Entered a Convent to Be Near Former Sweetheart.

The St. Petersburg correspondent of the Paris Journal states that a woman of great beauty, the Countess Kluzinska, has just been arrested after passing 18 years as a man in the monastery of Solowestsk, where she was known as Brother Arsene.

The countess, who is now about 40 years of age, was the heroine of a much-discussed love affair. A duel fought between her lover and her husband ended fatally for the latter, and the lover, conscience-stricken, retired to the monastery of Solowestsk. The countess, unable to bear the separation, adopted the stratagem mentioned above in order to be near her lover. She gained access to the convent, and for 18 years has lived there unsuspected.

### CUT TREES WITH WIRE.

Very novel is the method of cutting down tree that has been devised by a Berlin inventor, it consists in the use of a fine steel wire, which is looped about the tree and sawed back and forth by an electric motor. The heat generated in sufficient to burn a thin kerf through the wood. A tree twenty inches in diameter can be felled in six minutes. The charred butt of the tree may easily be marked with chalk and the charred layer is so thin that it does not hide any decay or other defects in the wood.

### SCANDAL IN INDIAN ARMY.

#### Officer Was Dismissed and Colonel Resigned.

A bad case of ragging has occurred in one of the Indian cavalry regiments.

Acting under pressure from the India Office the Indian Government has developed the habit of appointing Babu doctors to native regiments in India. These doctors are drawn from the classes and races which are abominated by the fighting hillmen recruited for the frontier regiments.

One of these doctors was appointed to a regiment of lancers. A subaltern in the regiment on returning from leave in England, found on his first night at mess that a native doctor had been appointed to the regiment and enjoyed, therefore, all the right of a brother officer. The subaltern is alleged to have followed the doctor after mess and entered his room, where he severely ragged him, smashed up the native gentleman's furniture, and assaulted the medico himself. Without a court-martial or enquiry the subaltern was dismissed from the service. The commanding officer has been required to resign, by which he loses £55 a year of his pension.

The fault of the commanding officer seems to have been that he had up before him the subaltern and doctor and induced them to shake hands. The commanding officer's career thus ends after 29 years in the service. The second in command is severely censured for agreeing to the action of his commanding officer in arranging the scandal, and for not reporting it to his military superiors at Simla. The case has made a great stir in Indian army circles.

### WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Mothers having once used Baby's Own Tablets for their little ones would not be without them. These Tablets are a never failing remedy for the little ills such as constipation, colic, worms, colds, etc., that afflict so many little ones. And then, too, they can be given with absolute safety to the youngest child for they are sold under the guarantee of a Government analyst to contain no opiate or other harmful drug. Concerning them Mrs. Chas. Whately, Peterboro, Ont., writes: "I have used Baby's Own Tablets for my little girl and have found them to be of great value. Others to whom I have recommended the Tablets say they would not be without them." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### STRENGTH.

"Is the baby strong?"  
"Well, rather! You know what a tremendous voice he has!"  
"Yes."  
"Well, he lifts it five or six times an hour."

### Kidney's Wrong?

If they are you are in danger. When through weakness or disease the kidneys fail to filter the impurities from the blood, trouble comes at once. Backache, Rheumatism, Sciatica, Gravel, Diabetes, Gall Stones and the deadly Bright's Disease are some of the results of neglected kidneys. Dr. Morse's Indian Root Pills contain a most effective diuretic which strengthens and stimulates the kidneys so that they do their work thoroughly and well. Try

### SNAKE ON HIS BED.

When on a visit to a farmer at Lake Charn, a young man named Hogan, of Melbourne, Australia, had an exciting experience with a snake. After he had been in bed for about two hours he felt something moving over the bed-clothes. Thinking that it was a mouse or a rat, he shook it off. He then jumped out of bed, and on lighting a candle discovered a snake under the bed. Hogan and the reptile both made for the door, and reached it at the same moment. The snake turned on the man, stuck its fangs into one of his legs, and inflicted a bite on his right ankle. Hogan received medical treatment, and is now not any the worse of his exciting adventure.

### CONTEMPT FOR MONEY.

The Princess of Monaco is noted for her contempt for money. On one occasion, after a burglary had been committed in her apartments, she astounded a magistrate by stating that she never counted her money, and did not know which of her jewels had been stolen, as she never troubled to find out how many she had. "But," said the magistrate in surprise, "how do you manage your financial affairs?" "Oh," replied the princess, "when I go shopping I just fill a bag with money, and buy what I want. That is the end of it."

### BRITAIN'S SUPREMACY.

Owens More Than Half of the World's Merchant Ships.

Lloyd's report gives further evidence of the overwhelming supremacy of the British mercantile marine. Lloyd's has now on its register 10,302 vessels (of 80½ million tons gross), and as will be seen by the following table, Great Britain owns nearly double the number in the possession of the rest of the world put together:—

British . . . . . 6,680 . . . . . 13,061,166  
Foreign . . . . . 3,622 . . . . . 7,474,321

The contrast is even more striking when it is remembered that many of the foreign vessels were originally worked by English owners, and were sold to foreigners in order that larger and more up-to-date vessels might be secured in their place.

During the twelve months ended June last 540 new vessels were registered. The gross tonnage amounted to 529,946 tons. Of the total, 612,825 tons or 63 per cent. were built for the United Kingdom.

### HIS VARIABLE LUCK.

"Don't talk to me about manufacturing. If you make any money at that sort of thing it's all luck."  
"How do you know?"  
"I've tried it. You know I once won the pot in a lottery."  
"Yes."  
"Well, I lost the entire lot in a pottery."

### QUEEN VICTORIA'S WIT.

The well-known English draftsman and cartoonist, John Leech, at one time acted as a drawing master to Queen Victoria. One day, says a contributor to St. James's Budget, the queen accidentally let drop her pencil.

It fell to the ground, and both master and pupil stooped at the same moment to pick it up, when to the horror of Leech there was a collision; the master's head struck that of his royal pupil.

"Well, Mr. Leech," the queen said, brightly, before he could find words for an apology, "if we bring our heads together in this way, I ought to improve rapidly."

Thus the awkward situation was saved by her majesty's tact and sense of fun.
