

STILL ANOTHER POSTMASTER TELLS

WHY HE PINS HIS FAITH TO DODD'S KIDNEY PILLS.

Doctors failed to cure his Bright's Disease, but he found relief in the Great Canadian Kidney Remedy.

Clam Point, Shelburne Co., N. S., Jan. 30 (Special).—Joshua Nickerson, postmaster here, is among the many in this neighborhood who tell of pains relieved and disease banished by Dodd's Kidney Pills.

"I am sixty-two years old," says the postmaster, "and I'll tell you why I think so highly of Dodd's Kidney Pills. Owing to a bad cold my kidneys commenced to bother me, and the trouble developed into Backache, stiffness of the joints, and finally Bright's Disease.

"I was treated by a doctor, but that did not help me much, and it was six boxes of Dodd's Kidney Pills that brought me relief."

Everywhere you go in Canada people tell you of the great work Dodd's Kidney Pills are doing, and everyone who tells you can give the reason why. That reason simply is that there is no case of Kidney Disease Dodd's Kidney Pills cannot cure. These people have tried them and proved this true. Backache, Rheumatism, Dropsy, Diabetes, Lumbago, Heart Disease and Bright's Disease are some of the more serious troubles that Dodd's Kidney Pills always cure, simply because these are all either Kidney diseases or are caused by diseased kidneys.

CHILD LABOR IN JAPAN.

Two-fifths of the Million Factory Hands Women and Children.

According to Dr. Kuwada, a member of the Japanese House of Peers, more than two-fifths of the 1,000,000 factory hands are women and children. With no laws to fear or evade, says a writer in Success, the mill owners are employing 70,000 children under the age of 14. In the match and tobacco industries particularly the work is for the most part done by children, and of these many are under 10 years of age.

In the spinning mills these child workers are often compelled to continue at their tasks at night without receiving extra pay or chance of rest. For disobedience of shop rules they are lashed and fined, this latter imposition usually wiping out their meagre wages.

Most of the girls are recruited from the poor rural districts by agents who lure them on with fascinating tales of city life. The ignorant parents, persuaded that the city will afford their daughters greater opportunity for education and refinement, offer up their children to an existence from which few live to return, and these broken in health and morals.

A traveller, overtaking an old doctor, whose nag was much fatigued, quizzed the old gentleman upon his turn-out. "A nice horse yours, doctor! Very valuable beast that! But what makes him wag his tail so, doctor?" "Why, as you have asked me, I will tell you. It is for the same reason that your tongue wags so—a sort of natural weakness."

The pessimist could not help thinking a very sad thought. "Money," he reflected, "is nothing in itself.

THE REALM OF FICTION.

Mr. Graham threw down his newspaper with an expression of annoyance. "It's too much when the daily papers begin to print fairy-tales," he said.

"Let me see it," said Mrs. Graham. "Perhaps I could read it to the children at bedtime to-night." "It's not that kind," said her husband.
