

HERE IS A TALE WITH A MORAL

LITTLE EDITH HARRIS CURED OF DROPSY BY DODD'S KIDNEY PILLS.

Two doctors said she would die, but to-day she is a healthy, happy girl—Healthy Kidneys in children the guarantee of a happy, useful life.

McTaggart, Sask., Feby. 27 (Special).—That no child is too young to have Kidney Disease even in its worst form, and that Dodd's Kidney Pills will cure it in any form has been abundantly proven in the case of little Edith Harris of this place.

In May, 1903, this little girl, then two years old, was so swollen with Dropsy that her waist measure was increased from 18 inches to 34 inches. Two doctors said she must die. Dodd's Kidney Pills cured her and to-day she is as merry and healthy a child as is to be found in the neighborhood.

In a recent interview her father says: "Edith is better than ever. She has no return of dropsy since she was cured by Dodd's Kidney Pills, over seven years ago. She goes to school and is healthy. I always keep Dodd's Kidney Pills in the house."

There's a moral for parents in this story. Many a child has grown up to a life of pain and suffering because its kidneys were neglected. A life of health and usefulness is assured if the Kidneys are kept in order with Dodd's Kidney Pills.

CONGRESS OF ALL THE RACES

Representatives of All Mankind to Meet in London, England.

A most unique congress, to be known as the Universal Races Congress, is to open in London, England, on July 26. This congress, which will last for three days, will indeed be a romance of realism. All mankind will then assemble in council in the very heart of the British Empire.

The originator of this congress is Dr. Felix Adler, of Columbia University, New York. In the summer of 1906 a conference was convened at Eisenach, when it was declared that though the modern conscience had advanced in general sensitiveness and strength, it is, nevertheless, internationally weak. The modern conscience is indeed fast becoming alive to what are known as social problems in the interior of the community, yet it has not learned to apply itself with adequate power to the problems presented by racial divisions. In order to remedy this growing evil, the Universal Races Congress will be convened in London, and its prime object will be to cultivate mutual knowledge and respect between Occidental and Oriental peoples. The British Government has given this congress its moral and material support, and all the invitations to the foreign states have been despatched through the agency of the Foreign Office.

The great number of races that will be represented may be gathered from the fact that some fifty countries have promised to send delegates. There will be present over twenty-five presidents of parliaments, the majority of the members of the permanent Court of Arbitration, and of the delegates to the second Hague Conference, twelve British governors, eight British premiers, over forty colonial bishops, about one hundred professors of international law, the leading anthropologists and sociologists, the officers and majority of the council of the Inter-Parliamentary Union, and other distinguished personages. Among those who will read papers will be several prominent Hebrews.

Mr. Israel Zangwill will discourse on Jews among the nations; Dr. L. L. Zahanhaff the author of Esperanto, will discourse on international language; and Mr. Edwin D. Mead, of Boston, Director of the International School of Peace, will speak on the organization of a world association for encouraging inter-racial goodwill. Dr. Moses Gaster will represent the Royal Asiatic Society.

It is better to lose in loving than to gain by self-seeking.

THE KING'S VISIT TO INDIA.

The Durbar Will Be Held in the Old Fort at Delhi.

It is now definitely settled that the Indian coronation durbar or state levee shall be at Delhi, the ancient seat of the House of Timur, on December 12th, of this year. Thus the ceremony, which will be of overwhelming magnificence, will avoid any of the native fasts that fall due about the beginning of the new year.

Arrangements for the durbar are already in the hands of Sir J. Hewitt, who has been relieved of his duties as one of the Provincial Lieutenant-Governors to prepare for the historic event.

After the durbar ceremonies, which will last a week, the King and Queen will visit Khatiwandu, the capital of the independent native state of Nepal, lying between Bengal and Thibet. The journey to Khatiwandu is one of the most fascinating that can be made in India. There is no railroad and the royal party will have to travel by road into the Himalayas. The road, however, is good, and as the best tiger shooting in India is to be had in the Nepalez Terai, it is probable a great shoot will be arranged.

It is well known that King George is anxious to shoot an Indian rhinoceros and these creatures survive only in the Terai.

That the durbar will be in the old fort at Delhi and not on the open plain outside the city, as was that of ten years ago, is no accident, but the evidence of the great precautions of the Indian Government against any opportunity for an attempt on the royal party by disloyal natives.

No man who can be indifferent to the sorrows of men can have the love of heaven in him.

DRILLED GRAIN.
Drilled grain will yield from one-fifth to one-fourth more crop than the hand sown. The drill deposits the seed in the soil at a uniform depth and this cannot be done by hand sowing. When sown by hand many seeds fall in depressions and are covered too deeply by the harrow, while others are left on top of the ground and are not covered at all. The roller should follow the drill.

Small but Potent.—Parmelee's Vegetable Pills are small, but they are effective in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach.

Reforms come slowly because we all would rather wield the axe than bear the knife.

Children Will Go Stealing. They come home covered with snow. Half a teaspoonful of Pain-killer in hot sweetened water will prevent any ill effects. Avoid substitutes, there is but one "Pain-killer"—Perry Davis'—25c. and 50c.

"Is she well married?" "I should say so. She's been trying for years to get a divorce and can't."

Only one "BROMO QUININE". Look for the signature of E. W. GROVE. Used the World over to Cure a Cold in One Day. 25c.

Knock, and the door will be opened—for you to get out.

An Oil of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the curative qualities of certain oils as applied to the human body. It is a rare combination and it won and kept favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

SUBSTITUTION.
"See here," exclaimed the angry man, "I bought this cane here last week."

"Yes, I believe you did," rejoined the proprietor calmly. "What's wrong with it?"

"You said the handle was genuine ivory, and I find it is artificial," said the irate party.

"That may be true," replied the dealer, "but it is no fault of mine. I import all my ivory from Africa, and the only explanation I can give is that the elephant may have had false tusks."

FAMOUS BRITISH ADMIRAL.

Tells What Zam-Buk Did for Him.

Many famous persons have testified to the great value of Zam-Buk, and amongst the most recent is Admiral Rodney M. Lloyd. Writing from the Royal Naval Club, Portsmouth, England, he says:

"I have found Zam-Buk most reliable for healing cuts and abrasions; while for the relief of skin irritation it is invaluable."

Another famous user of Zam-Buk is Mr. Frank Scudamore, the famous War Correspondent, who says: "Some poisonous dye on my underclothing came in contact with a small ulcer on my leg and blood poisoning set in. Inflammation, pain and swelling followed. My medical man's treatment did not seem to do any good, as ulcer after ulcer broke out, until my left leg from knee to foot was one mass of sores. It had seventeen deep ulcers at one time. I could not put my foot to the ground, and was really in a pitiful state. A friend advised Zam-Buk, and I applied this herbal balm. It was really wonderful how it soothed the pain and aching and gave me ease. "A few boxes of Zam-Buk healed the sores, and the limb is now perfectly healthy."

Zam-Buk is a cure for piles, eczema, cold cracks or chaps, ulcers, ringworm, poison, cuts, abscesses, burns, children's rashes, abrasions, and for all skin injuries and diseases. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse imitations and substitutes.

Mrs. Prospect Park (at midnight)—"Mortimer, I think I hear a burglar down in the front hall!"

Mr. Prospect Park (philosophically)—"Henrietta, with two bicycles, Willie's wooden horse, the hat-rack, umbrella-stand, and the baby's mail-cart for him to run into, you wouldn't 'think' you heard a burglar if one was really there!"

It is easier to prevent than it is to cure. Inflammation of the lungs is the companion of neglected colds, and once it finds a lodgment in the system it is difficult to deal with. Treatment with Bickle's Anti-Consumptive Syrup will eradicate the cold and prevent inflammation from setting in. It costs little, and is as satisfactory as it is surprising in its results.

If the undergraduate takes to his heels, it is the "bulldog's" duty to follow. He may not lay hands on the man, but dogs his footsteps until midnight, when the student is compelled to "knock in" to his own college. His name is then obtained from the porter, and a heavy fine awaits him the next day.

A Naggling Cough drives sleep and comfort away. You can conquer it with Allen's Lung Balm, which relieves hard breathing, pain in the chest and irritation of the throat. Give it freely to the children.

HOIST.

"I am sorry to be critical, my dear," said Mr. Lambkin, "but this pie is not the kind that mother used to make—not by a long shot." "It's too bad, Henry," said Mrs. Lambkin, amiably. "I don't know what to do about it. Perhaps you'd better ring her up over the 'phone and tell her. She sent it over this afternoon."

A Standard Medicine.—Parmelee's Vegetable Pills, compounded of entirely vegetable substances known to have a revivifying and salutary effect upon the digestive organs, have through years of use attained so eminent a position that they rank as a standard medicine. The ailing should remember this. Simple in their composition, they can be assimilated by the weakest stomach and are certain to have a healthful and agreeable effect on the sluggish digestive organs.

WOULD ISOLATE DRUNKARDS.

The chairman at the dinner of the Bristol (England) Licensed Victuallers' Association, proposed that chronic drunkards should be segregated, made to work at an honest trade, and prevented from marrying until they are able to live like other people.

THEIR LITTLE WAY.

"Won't you sing something, Miss Smith?" said the hostess sweetly.

"I'm afraid I can't," replied her visitor.

"Oh, but you must!" joined in another visitor, "you really must. We know you have a lovely voice."

"And we are dying to hear you," said another.

With a sigh of weariness Miss Smith drew off her gloves and went slowly to the piano and began her song. The other ladies waited until she was fairly settled. Then they took up and continued their conversation where it had broken off. It is a way they have.

Many mistake soft words for tender, loving ways.
