

WHAT EVERY WOMAN SHOULD KNOW

DODD'S KIDNEY PILLS THE SURE CURE FOR ALL ACHES AND PAINS.

Mrs. Vaillancourt adds her experience to the great mass of proof that Dodd's Kidney Pills are woman's best friend.

Laford, Alberta, Feby. 9 (Special).—That the women of the West are finding in Dodd's Kidney Pills a sure relief from those aches and pains that only women know is becoming more evident every day, and Mrs. Agnes Vaillancourt of this place gladly gives her experience as an addition to the mass of proof that is being piled up.

"For three years I suffered intensely with Kidney Disease," Mrs. Vaillancourt states. "I had pain everywhere. I only used six boxes of Dodd's Kidney Pills and I am completely cured of all my aches and pains. I am in perfect health to-day."

Woman's health depends on her kidneys. If they are not in perfect order the impurities are not strained out of her blood and she cannot be healthy. She feels it in every part of her body and the result is that she is weary and worn and full of aches and pains. What every woman should know is that there is sure relief and perfect health for her if she uses Dodd's Kidney Pills.

LOVERS CONVEY MICROBES. The Austrian Police Stop Romantic Courtship.

A custom of country courtship dating from the immortal past has been interfered with by the police in Upper Austria in their efforts to suppress the foot-and-mouth disease which is affecting animals in that province. The microbes are, it is said, distributed by human agency.

Infected areas have been carefully shut off, but in spite of all precautions the disease is spreading rapidly. It has now occurred to the authorities that the ancient courting custom known as "Fensterin" may be responsible for the extension of the disease from one farm to another. "Fensterin" is a species of serenading indulged in by the young peasants. After the day's toil, the young man dresses in his best clothes and with great secrecy slips away from his home to the farm where the girl of his affections lives. Then, standing beneath her bedroom window, he sings old folk-tunes.

If the girl is favorably inclined to him, she appears at the window and allows the swain to kiss her hand. The police say that no other communication with the infected farms can have taken place, and have consequently forbidden "Fensterin." Disregard of the regulation will involve fines and imprisonment.

TUNING A BELL.

Thin Bits Are Shaved From Various Parts of the Metal.

"What a beautiful tone that bell has!" is often heard. There are few, however, says The Scientific American, who know how a bell receives its joyful or solemn tones. All bells, after they are cast and finished must go through a process of tuning the same as any other musical instrument before they respond with a clear, true tone. Every bell sounds five notes, which must blend together in order to produce perfect harmony. The tuning of a bell is done by means of shaving thin bits from various parts of the metal. It is as easy for an expert tuner to put a bell in tune as it is for a piano tuner to adjust his instrument to perfect chords. At first thought it would seem that a bell would be ruined should the tuner shave off too much at the last tuning, or the fifth sound, but such is not the case. He would, however, be obliged to begin over, starting again with the first tone and shaving again till it gave forth its harmonious sound at the fifth tone.

LAWS FOR BELGIAN PAINTERS

Restrictions Regarding Liquor—Employer's Responsibilities.

Belgium has just drawn up a special code of laws governing painters and the exercise of their craft which are singularly strict and exhaustive.

From the fashion in which the new laws hedge them in with enforced precautions one would think painting the most dangerous trade in the whole catalogue. In the first place no employer of painters may employ a man who drinks alcoholic beverages to the temporary extinction of his logical power, and no intoxicating liquors are to be brought into the vicinity of the workers. Employers are responsible for the care which their men take of their persons.

They must see that every painter washes his hands before eating, suspend the men whose health is not satisfactory, and discharge any one suffering from lead poisoning. A painter may not wear the same clothes on the street or in his home which he uses in his trade. He is imperatively required to arm himself with a special suit of clothes and a screened hat.

Contractors and master painters are restricted in the use of white lead to the ground lead mixed with oil, and it is stipulated that this mixture must be so handled that it does not splash or come in contact with the painter's hands.

The law strictly forbids scraping of dry painted surfaces in which white lead has been used. This will doubtless prevent much carelessness and protect the careless painter from his own indiscretion, but it is terribly restrictive and smacks of over-legislation.

A scientist says the human race is more than 18,000,000 years old—yet some specimens don't know enough yet to close the door on a zero day.

A LIGHTHOUSE WEAVER'S STORY.

From the light-house at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends an experience of Zam-Buk, which should certainly act as a true beacon light, guiding all sufferers from skin disease to a safe harbor of refuge.

Mrs. Young says: "I suffered with eczema for seven years, and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores, and caused great pain. I went to a doctor, and tried various prescriptions, but seemed to get no benefit, so tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth. Although they all did their best for me I got no relief.

"I thought I never would be cured, when I saw a report in 'The Family Herald' telling how beneficial Zam-Buk was in cases of skin disease, so I tried it.

"Well, from the use of the very first box I saw Zam-Buk was going to do me good. It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it, and within a very short time it worked a complete cure."

Not only for eczema, but for ulcers, abscesses, varicose veins, bad leg, poisoned wounds, cuts, cold sores, chapped places, piles, ringworms, children's eruptions, burns, scalds, and all skin injuries and diseases, Zam-Buk will be found unequalled. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations. Try Zam-Buk Soap, too!

Costiveness and its Cure.—When the excretory organs refuse to perform their functions properly the intestines become clogged. This is known as costiveness and if neglected gives rise to dangerous complications. Parmelee's Vegetable Pills will effect a speedy cure. At the first intimation of this ailment the sufferer should procure a packet of the pills and put himself under a course of treatment. The good effects of the pills will be almost immediately evident.

"It's remarkable how often a woman changes her mind." "Oh, not always. There's one idea every woman gets that she never changes." "What's that?" "The idea that she's pretty!"

HAD A TOUGH FOOT.

A bare-footed negro wandered into a blacksmith shop in a little southern town. While watching the smith pound the iron into shape, he unconsciously stepped on a red-hot coal. Ready-made Medicine—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Eclectic Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable, for scalds, burns, bruises, sprains it is unsurpassed, while for cuts, sores, ulcers and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

TOO FRESH.

"Will you promise to support my daughter in the style to which she is accustomed if I consent to your marriage?" demanded old Skinfint, when Dobby made his formal proposal.

"Well, I—I'll promise to be tolerably close with her, Mr. Skinfint," said Dobby; "but, you know, I'm a soft-hearted cuss, and I'm afraid she'll be able to wheedle a few things out of me that you were strong enough to refuse her."

Relief for the Depressed.—Physical and mental depression usually have their origin in a disordered state of the stomach and liver, and when these organs are deranged in their action the whole system is affected. Try Parmelee's Vegetable Pills. They revive the digestive processes, act beneficially on the nerves and restore the spirits as no other pills will. They are cheap, simple and sure, and the effects are lasting.

GOBBLES EVERYTHING.

There is a shaggy little black-and-tan insect, about an eight of an inch long, that eats everything under the sun which is not disturbed every day. It has to be surprised at its work like a burglar. In most countries ivory brushes are pretty safe from insects; in Egypt this little terror eats the ivory and eats the bristles; it eats your tooth-brush and eats your tooth-pick; it eats the wool with which you are going to mend your husband's socks—the cards as well as the wool; it eats the handles off your knives and forks; it rejects nothing but glass and china and metal.

PAINT WITHOUT OIL

A prominent manufacturer has discovered a process of painting a new kind of paint without the use of oil. He calls it POWDR PAINT. It is a dry powder, and all that is required is cold water to make a paint waterproof. It spreads and adheres as oil paint. It adheres to any surface, wood, stone or brick, and looks like oil paint, and costs about one-fourth as much. Full information and catalogue mailed on request to
