

Reception to Miss Dickson.

The ladies of St. Andrew's Church Missionary Society tendered a reception on Wednesday afternoon to Miss Agnes Dickson, who has lately returned from Japan after an absence of seven years as missionary. Besides the pastor, Rev. C. S. Lord, there were present Rev. W. H. A. French, Rector of St James' Church, and Rev. Wm. Farncomb, chaplain of the Toronto General Hospital who took part in the service, Mr. Farncomb also giving an appropriate recitation. In addition to music by the choir, solos were sung by Mrs. J. S. Northey and Mrs. E.A. McArthur. After the service refreshments were served in the basement of the church. Many of the ladies of the Missionary Societies of the other denominations were present. It is understood Miss Dickson is to give an address at some future date on her missionary work in Japan. At the reception she exhibited a number of articles gathered during her residence in that country.

MAY MANUFACTURE RYE.

The Standard Chemical Co. mill commenced running again on Monday. There is a well founded report that alterations in this mill have been decided on, and that in about eight months from now it will be converted into a plant for the manufacture of rye. The change will necessitate partial reconstruction of the building, but a great deal of the interior machinery can be used as it is. A few more hands will be employed.

HOW TO BLACKEN BROWN BOOTS

Take a piece of washing soda the size of a walnut and dissolve it in a cupful of boiling water. When cool rub boots well with it, and set them to dry. When dry give the boots a good coat of burnishing ink, to be obtained at the currier's or leather merchant (ordinary ink will not do). When this has dried in, clean them well with a good boot polish. They will then look as good as new.

CARE OF CARPETS

Instead of using tea leaves, which are apt to stain a carpet, try the following:—Steep a newspaper in lukewarm water, then squeeze out tear in small pieces, scatter over the carpet, and it can then be swept in comfort, the damp paper collecting the dust and fluff in a surprising manner. Go over the carpet with a cloth wrung out of clean water, to which a tablespoonful of turpentine has been added, and the carpet will look fresh and new again.

A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "wireless" or railway telegraphy. Since the eight-hour law became effective, and since the Wireless companies are establishing stations throughout the country, there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chances of advancement. The National Telegraph Institute operates six official Institutes in America, under supervision of R. R. and Wireless officials, and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., or Philadelphia Pa.
