The "Stone Mill" Case.

The suit entered very nearly fifteen months ago by the Corporation against Mr. John H. Brandon, is of so much interest to a great many of our readers that we publish in full Judge Harding's decision, which was given in Chambers at Lindsay on the 4th inst., and is as follows:

"This action came on for trial before me at the sitting of the Division Court at Fenelon Falls. McLaughlin, Peel, Fulton & Stinson for the Village Corporation; G. H. Hopkins, K. C., for defendant Brandon.

"This action was commenced by special summons, issued on the 22nd day of June, 1910, for the recovery of \$99.90, being the business taxes for 1901, assessed against the Defendant, the lessee of a flouring mill, called the Stone Mill, situate in the village of Fenelon Falls. The Defendant seeks to be relieved owing to the covenant as to taxes in the demise by which the mill was let to his predecessor in Title. This covenant is in the words and figures following: 'The said Lessee covenants with the said Lessor to pay rent without taxes.' The lease is dated the 3rd day of September, 1903, and was assigned to the defendant on the 28th day of June, 1905. The business tax was first mentioned in the Act of 1904. It is necessary to the decision in this case that the meaning of the term 'without taxes' should be ascertained; and, in order to do this, it is necessary to ascertain what was being dealt with. Manifestly it was the Real Property, which for convenience I will call the Stone Mill, and the taxes on that property only. The business tax is a personal tax not in the contemplation of the parties to this action, as it was first found in the Assessment Act of 1904, after the lease was executed; and the value of the real property in which the business is carried on being the method by which the business tax is computed. And if there could be any doubt as to the character of this tax, it is set at rest by the 8th S. S. of Sect. 10 of the Assessment Act, page 113 of the Statutes of 1904, which enacts that 'Every person assessed for business assessment shall be liable for the payment of the tax thereon, and the same shall not constitute a charge upon the land occupied or used.' This conclusively settles the character of the tax, as a personal tax. There must be judgment for the Plaintiff for \$99.90 and costs. The covenant that the Lessee will repair contained in the demise of Meldrum is decisive of the claim under the counter claim, which is dismissed with costs."

Under this covenant the defendant claimed from the village the sum of \$220.00 for repairs done by him; and this claim was dismissed with costs, as the Judge found that the defendant Brandon must do these repairs at his own expense.

Civic Holiday Celebration.

Although the civic holiday celebrated on Wednesday was belated that last year in attendance and gate receipts, it compares very favorably with the average of former years, and taken altogether was very successful. The sports, both in the canal and in the park, were well contested. A number of the Cagawong camp members of Balsam Lake were present, and Sturgeon Point and Bobcaygeon camps were also represented in the sport. In the ball games the Cannington team had things pretty much its own way, defeating Bobcaygeon and Fenelon Falls, though the latter made sport in the seventh innings and piled up five runs.

Dan Finister, owned by Mr. The Cashore, won the named race in three straight heats, with Aldous's Jack second, and T. Poulson's Gouldie third. Finister was never in serious trouble, though he had very little to spare in the first heat.

LUCRATIVE POSITIONS:

It is generally conceded that, owing to the chain of seven colleges with which the Peterboro Business College is connected, its graduates get the choice positions. Many young men who graduated two years ago are now receiving from \$1000 to \$3000 per year, young women from \$60 to \$110 per month. The Peterboro Business College is one of the largest schools in the Province, and the demand for its graduates is many times its supply. Mr. Spotton has solved the life problem for thousands and placed them on the high road to success, and he is in better position than ever to do the same for you. We understand that he trained twelve hundred students last year, and anticipates a large increase during the coming year. It would be well for young people to get advice; if he thinks you are not adapted for commercial pursuits he will frankly tell you.

A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "wireless or" railway telegraphy. Since the eight-hour law became effective, and since the Wireless companies are establishing stations throughout the country, there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chances of advancement. The National Telegraph Institute operates six official Institutes in America, under supervision of R. R. and Wireless officials, and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., or Philadelphia, Pa.

DIED:

SUDDARY.—At Burnt River, on Wednesday, August 9th, 1911, Ethel Wilhelmina, daughter of Samuel and Mary Suddary, aged 25 years, 11 months and 22 days.
