

THEY ACT QUICKLY AND ALWAYS CURE

POSTMASTER TELLS OF QUICK RELIEF DODD'S KIDNEY PILLS GIVE.

Two of them taken before going to bed clears away his Pain in the Back—Why they always cure more serious Kidney Diseases.

Buck Lake, Ont., Nov. 20 (Special).—How quickly Dodd's Kidney Pills relieve pain in the back when taken in time is evidenced by Mr. James Thomas, the well-known and highly respected postmaster here.

"I wish to inform you that I always find relief for pain in the back by taking Dodd's Kidney Pills," says Postmaster Thomas. "Sometimes in the mornings I cannot straighten up for hours, but if I take two Dodd's Kidney Pills before going to bed the pain all disappears and I have no trouble in the morning."

Dodd's Kidney Pills act directly on the Kidneys. Where pain in the back is caused by slight Kidney disorders the pain is relieved at once. Where the complaint is of longer standing and the Kidneys are diseased the cure takes longer, but Dodd's Kidney Pills never fail. Thousands of Canadians tell of the cure of Kidney Disease of all forms, from pain in the back to Bright's Disease, by Dodd's Kidney Pills. There is not on record a single case of Kidney Disease or of diseases resulting from diseased Kidneys, such as Rheumatism or Dropsy, which Dodd's Kidney Pills have failed to cure if taken regularly and according to directions.

YOUR POCKET-KNIFE.

You'd hardly credit what a lot of labor has been expended on the pocket-knife you carry. If, for example, it is a three-bladed knife, it may have involved no fewer than one hundred operations, and, as like as not, it has been handled by as many different workmen. Even the blade has to go through six different processes. First it has had to be forged, then laid on the "tangs"—that part which is inserted into the handle, and through which the blade is riveted—next marked or stamped with the name of the manufacturer, afterwards "croiled"—a depression in the neck of the blade between the sharp edge and the heavier part of the "tang" filled in—next tempered, and finally ground. So accurate is the eye of the man who forges the blade into shape, and so exact his hand, that the blade does not deviate a hair's-breadth from the little brass pattern before him, and to which each blade must exactly correspond.

A MODEL SCHOOL HOUSE.

A school building in which every room has a direct connection with the ground, without first entering the main hall has just been built just beside the site of the famous Collingwood, Ohio, school in which 175 children perished by fire in 1908. It represents many unique features of construction and is said to be as fireproof and panic-proof as it is possible for a school building to be.

PERPETUAL MOTION MACHINE

A Pupil of Sir Hiram Maxim Has Success.

Perpetual motion is a recognized impossibility, but a quality that nearly approaches it is claimed for the invention of a twenty-two-year-old Englishman. He has obtained a patent for a motor which, he asserts, will run as long as its iron and steel last. The young man's name is Stanley J. Hitchcock and he lives in a London suburb.

"The Patent Office would not accept the title 'Perpetual Motion,'" he said, "and it is right, for perpetual motion in its ordinary sense is impossible. My machine is therefore called a self-acting motor." There is no limit to its power and it will continue to run until it falls to pieces. Its principle is magnetism, and the secret of the discovery lies in the shape of the magnets, which makes them grow stronger the more they are used. The motor revolves in response to the same forces that make the world go round.

"From experiments made as a boy with penny magnets, milk cans, and fittings from incandescent gas jets, my father encouraged me and sent me as a pupil to Sir Hiram Maxim. There I worked in the laboratory.

"The machine can be fitted up in private houses and used to work a dynamo and so supply electric light, work the lift or sewing machine, do the cooking or pumping, or anything required of it at no cost at all.

"Its power is unlimited, and it could be built inside the ordinary motor omnibus bonnet. The only cost after installation is for lubrication."

MOTHER'S PRAISE FOR BABY'S OWN TABLETS

Every mother who has once used Baby's Own Tablets readily admits that there is no other medicine to equal them. They are a never failing cure of all stomach and bowel complaints and many a precious little babe owes health and even life itself to their use. Concerning the Tablets Mrs. Fred Dove, Broadview, Sask., writes: "I have used Baby's Own Tablets for my little girl and have found them of such great benefit I would not be without them. They are truly a wonderful remedy for little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CANAL OF STEEL.

In connection with the Nile irrigation system at Wadi Kom-Ombo there has been constructed a canal of steel, five thousand two hundred feet in length, whereby water from the service reservoir is distributed to the earth canals. In section this metallic canal is U-shaped, twenty feet broad and twelve feet deep. It is made up of seventeen sections, connected by expansion joints, and the riveted steel plates of which it consists are six millimeters in thickness. During the construction the engineers were troubled among other things by the unequal expansion of the metal. The expansion was greatest on the side where the sun happened to shine full upon the plates and the inequality was often sufficient to displace the end of a section about to be joined as much as four inches to one side or the other.

THOSE WHO BUY BONDS

1 An investment safe enough for a Canadian Chartered Bank or an Insurance Company acting under Government Charter demands your attention.
2 Every bond issue we make is partially taken up by institutions such as these. They know that the security is unquestionable and that the rate of interest is profitable. It is the business of these institutions to find the safest and most profitable form of investment. They buy bonds.
3 We continually offer you bonds of the same nature and description as the banks and insurance companies buy.
4 Whether you have a large or small amount to invest, we want to hear from you. We have literature covering specific issues, giving particulars of price, rate of interest and property covered, also literature on bonds in general. Write for it.

They Soothe Excited Nerves.—Nervous affections are usually attributable to defective digestion, as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the nerves from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so effective work, as can be testified to by thousands.

Minard's Liniment Co., Ltd.

Gentlemen,—In July, 1905, I was thrown from a road machine, injuring my hip and back badly and was obliged to use a crutch for 14 months. In Sept., 1906, Mr. Wm. Outridge of Lachine urged me to try MINARD'S LINIMENT, which I did with the most satisfactory results, and to-day I am as well as ever in my life.

Yours sincerely,
