

Safeguarding Investors

It is only the wealthy investor who can afford to jeopardize his principal in the hope of securing unusually large returns. To the man whose investment represents all or most of his available capital, security of principal is a prime necessity. The value of a Bond depends upon several conditions, including: safety, which can be ascertained only after an investigation of the properties which are security for the Bond—rate of interest—readiness with which the Bond can be sold—probable stability or appreciation of market price. These and other factors should be ascertained before investing. We maintain in the interests of investors a statistical department which contains complete information regarding all reputable Canadian and American securities. A request to any one of our offices in person, by mail or wire, will secure any desired information. Such a request carries no obligation whatever.

MOST POWERFUL POISON.

A Grain Would Kill a Million and a Half Guinea Pigs.

The most powerful poison known is reported to have been extracted by a German chemist from the seeds of the ricinus, the familiar castor oil plant, and has been attracting much attention on account of its remarkable properties.

Its power is estimated to be so great that a gram—about a thirtieth of an ounce—would kill a million and a half guinea pigs. If administered so as to cause illness without death, it gives immunity against a larger quantity, and the dose can gradually be increased until more than a thousand times as much can be endured as would kill an untreated animal. Though arsenic, morphine, and other poisons can be taken in larger and larger quantity, nothing approaching this marvellous increase in dose can be borne.

The ricinus poison has effects much like those of living germs, and in immunized animals an antitoxin is formed, so that injections of their blood serum may cure animals that are already in danger or have become ill from ricinus poisoning.

A MASTER OF FICTION.

Mr. Thomas Hardy is the grand old man of literature. Though he is no longer able to do much creative work he maintains a very keen interest in current problems, and is alive to the literary tendencies of the age. He is undoubtedly Eng-

Baby's Rash Became a Mass of Humor

Parents Decided He Could Not Be Cured. "Cuticura" Soon Made His Skin Perfectly Clear.

A Toronto man, Mr. Robert Mann, of 758 1/2 Queen St. East, says: "Our boy was born in Toronto on Oct. 13, 1908, and when three months old a slight rash appeared on his cheek. What appeared to be a water blister would form. When it broke, matter would run out, starting new blisters until his entire face, head and shoulders were a mass of scabs and you could not see a particle of clear skin. We did not know what to do for him and tried about every advertised remedy without avail. Indeed some of them only added to his suffering and one in particular, the Remedy, almost put the infant into convulsions. The family doctor prescribed for him. This did not do any good, so we took him to a hospital. He was treated as an out-patient twice a week and he got worse, if anything. We then called in another doctor and inside of a week the boy was, to all appearances, cured and the doctor said his work was done. But the very next day it broke out as bad as ever. "We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his side to prevent his tearing his flesh. The Cuticura Remedies were recommended. We started using them in May, 1909, and soon the cure was complete. Cuticura made his skin perfectly clear and he is entirely free from the skin disease." (Signed) Robert Mann, May 3, 1910.

In another letter, dated June 29, 1911, he adds: "My boy has never had any more trouble since using Cuticura." For more than a generation Cuticura Soap and Ointment have afforded the most successful treatment for skin and scalp troubles of infants, children and adults. A single set is often sufficient. Although sold by druggists and dealers throughout the world, a liberal sample of each, with 32-p. book on the skin, will be sent free, on application to Potter Drug Chem. Corp., 63 Columbus Ave., Boston, U. S. A.

land's greatest living novelist, and at least one of his novels is likely to endure as long as the English language.

Originally intended for an architect, he devoted his attention to literature, and soon created a great impression by his wonderful delineations of Dorset life. Such books as "Tess of the D'Urbervilles," "Far From the Madding Crowd," and "The Return of the Native," are treasured by lovers of literature throughout the civilized world, and Thomas Hardy enjoys an international reputation.

King George is a very great admirer of Mr. Hardy's works, and it

Mr. Thomas Hardy.

was largely owing to his influence, when Prince of Wales, that the novelist was enabled to obtain the Crown lands near Dorset upon which he erected his house. Every spot of the surrounding country has been rendered famous by his novels, and enthusiastic admirers come from all parts of the globe to view the original sites which are depicted with such masterly skill in the novels.

GET ACQUAINTED WITH YOUR NEIGHBORS.

If you are genteel in appearance and courteous in your manner, you will be welcomed in every home in your locality, when you are showing samples of our superior toilet goods, household necessities, and reliable remedies. The satisfaction which our goods give, places the users under an obligation to you, which wins for you the same respect, esteem, and intimate friendship given the priest, physician, or pastor, and you will make more money from your spare time than you dream of, besides a host of friends.

Maurice West, of Toronto, says: "The first day I showed your samples I made three dollars. I have since made as high as ten, and have averaged five dollars daily for the year. Your goods give perfect satisfaction, and I receive repeat orders in every home."

This is your opportunity for a pleasant, profitable and permanent business. Address, The Home Supply Co., Dept 20, Merrill Building, Toronto, Ont.

WHALE BOAT CATCHES SHARK Monster Harpooned Off Vancouver Coast.

While scouring the ocean for whales one of the little steamers working from the Kyuquot station landed a thirty-foot shark, says the Vancouver Sun.

The "wolf of the sea" is claimed to be one of the largest ever seen in northern waters and weighed approximately eight tons.

The whaling steamer had been searching vainly for whales for several days and the look out had grown tired of scanning the surface of the ocean. He was suddenly aroused to action by observing the dorsal fin of a monster shark cutting the water about 200 yards on the port bow. As the big sharks yield considerable oil, the ship's officers decided to try for this one in view of the lack of whales.

Running to within thirty yards of the shark with the boat, the gunner fired the harpoon from the gun and struck the monster at the first shot. After a terrific fight to hold the struggling sea animal it was hauled aboard and cut up, the steamer resuming her search for the larger mammals.

Officers of the Tees declare that the shark was the largest they had ever seen. It was of the species common to the Pacific coast, but not quite so far north.

Minard's Liniment Lumberman's Friend.

Never bear more than one kind of trouble at a time. Some people bear three—all they have had, all they have now, and all they expect to have.

SOURCE OF ETERNAL YOUTH.

Microbe in Dog Might Prevent Old Age in Human Beings.

There is considerable discussion among scientists in France in regard to the announcement by Prof. Metchnikoff, of the Pasteur Institute, that he is studying the effectiveness of a microbe called "glycobacter," as a preventive of old age. Prof. Armand Gautier, who is a member of the Academy of Sciences as well as the Academy of Medicine, and Prof. Berillon, while admitting interest in Prof. Metchnikoff's study, are inclined to doubt its practicability.

Prof. Metchnikoff says he has found a beneficent microbe in the intestines of a dog, which, if implanted in the intestines of man, would probably generate sufficient sugar to destroy the human intestinal microbes which are responsible for the maladies of old age.

ABSOLUTELY SAFE FOR LITTLE ONES

Mrs. Nelle Steeves, Hill Grove, N.B., writes:—"I know Baby's Own Tablets are an absolutely safe medicine for little ones and they are the only medicine I would give a child without first consulting a doctor." The Tablets are guaranteed by a government analyst to be absolutely safe and free from opiates and narcotics and cannot possibly do harm—but always good. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NOT ON HAND.

Student—"I told you last night to wake me at 7 this morning. Why the dickens didn't you do so?" Landlady—"Well, sir, at 7 o'clock you hadn't come home."

It is a Liver Pill.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation though gentle is effective, and the most delicate can use them.

A girl isn't half as humiliated to make her own dresses as she is to wear them.

Keep Minard's Liniment in the house.

EASILY REMEDIED.

Cashier—"I cannot cash this check, madam. You have overdrawn your account."

Haughty Lady—"Oh, that is all right! Just make me out a new account."

For years Mother Graves' Worm Exterminator has ranked as the most effective preparation manufactured, and it always maintains its reputation.

Most people count the chicks not only before they are hatched, but before the eggs are laid.

Ask for Minard's and take no other.

ARTISTIC STYLE.

"That girl's face is a chromo." "I beg your pardon—it's hand-painted."

If attacked with cholera or summer complaint of any kind send at once for a bottle of Dr. J. D. Kellogg's Dysentery Cordial and use it according to directions. It acts with wonderful rapidity in subduing that dreadful disease that weakens the strongest man and that destroys the young and delicate. Those who have used this cholera medicine say it acts promptly, and never fails to effect a thorough cure.

Professional story-tellers, who wander from house to house and ply their trade for five cents per hour, exist in large numbers in Tokio, Japan.

For Burns and Scalds.—Dr. Thomas' Electric Oil will take the fire out of a burn or scald more rapidly than any other preparation. It should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

Bad advice is the only kind heedful.

STOPS SHOES CREAKING.

Every woman knows how annoying it is when her shoes begin to creak. Probably she has hardly noticed it in her usual walking, but just as soon as she would walk quietly they set up a most distressing squeak. To remedy this soak the sole in linseed oil, using a plate or shallow pan, allowing the sole only to come in contact with the oil. The creak will disappear after a few hours and the shoe will last much longer on account of this treatment.

CURE FOR CONSUMPTION.

Such is the recuperative power contained in Copeland's Cure for Consumption that even the most advanced cases have been cured by its beneficial action. It can be taken by the weakest patient, to whom it gives a fighting strength as nothing else will. The appetite comes back. That weakening perspiration is stopped. The lungs and respiratory organs are healed at the same time. Its efficacy to fight consumption, weak or bleeding lungs, lingering coughs and bronchitis is proven beyond doubt not by what I state, but by what is stated by those who have taken it for those ailments and have been cured. Copies of testimonials of those who, after being given up by doctors and specialists, are only having a few days to live, and are alive and well to-day, are sent on request. Price \$1 per bottle at your druggist, or direct from Wm. Copeland, 511 Pape Ave., Toronto, Canada.

VACATION.

Vacation is a term of woe—
We should be glad to end it;
For, till it's over, none can know
How, when or where to spend it.

A Cure for Fever and Ague.—Disturbance of the stomach and liver always precede attacks of fever and ague, showing derangement of the digestive organs and deterioration in the quality of the blood. In these ailments Parmelee's Vegetable Pills have been found most effective, abating the fever and subduing the ague in a few days. There are many who are subject to these distressing disturbances and to these there is no better preparation procurable as a means of relief.

A FACT.

About the hardest man in the world to control is the man who is too easily led.
