

The flies that are now in your kitchen and dining-room were probably feasting on some indescribable nastiness less than an hour ago, and as a single fly often carries many thousands of disease germs attached to its hairy body, it is the duty of every housekeeper to assist in exterminating this worst enemy of the human race.

### CANARY A HOSPITAL PET.

Bird That Brightens the Lives of English Incurables.

"How is Dinky this morning?" "Did she come in last night?" These are the first inquiries which patients at the Royal Hospital for Incurables at Putney Heath, London, England, make every morning on rising. Dinky is a bird that brightens their days.

There is probably no tamer, no more intelligent bird in London than Dinky. She is a canary. Every morning she leaves her cage and flies to a horse trough about two hundred yards away, where she takes her daily dip.

In the wards she saunters from patient to patient, and her chirrup seems to bid them "good morning." When she has made sure that every one has seen Dinky she leaves the patients to spend the day with the sparrows.

Punctually at 5 Dinky returns to the wards, where speculation is generally rife among patients as to whom she is going to have tea with. Dinky likes to please everybody, and she chooses her hostess in turn. After tea she takes leave and makes again for the open.

### "THE LADY OF THE LAMP."

The City of London's memorial to Florence Nightingale is rapidly nearing completion and is expected to find a place in the lobby of the Guildhall early in the autumn. It is a marble statuette 3 feet in height. Miss Nightingale is shown setting out upon one of her heroic errands of mercy. The "Lady of the Lamp" stands bareheaded in the simple dress of the Victorian period, which preceded the crinoline. In her left hand she carries a candlestick, while with her right hand she is shielding her eyes from its light. The portrait and model were founded on a statuette in the possession of Sir Harry Verney. Walter Merrett is the sculptor.

### OLD LADY ALMOST CRAZY WITH ECZEMA

A Remarkable and Convincing Statement of the Success of Cuticura Soap and Ointment in the Treatment of the Pain, Itching and Burning of Eczema

"I, the undersigned, cannot give enough praise to the Cuticura Remedies. I had been doctoring for at least a year for eczema on my foot. I had tried doctor after doctor all to no avail. When a young girl I sprained my ankle three different times, paying little or no attention to it, when five years ago a small spot showed upon my left ankle. I was worried and sent for a doctor. He said it was eczema. He drew a small bone from the ankle about the size of a match and about an inch long. The small hole grew to about the size of an apple, and the eczema spread to the knee. The doctors never could heal the hole in the ankle. The whole foot ran water all the time.

"My husband and my sons were up night and day wheeling me from one room to another in the hope of giving me some relief. I would sit for hours at a time in front of the fireplace hoping for daybreak. The pain was so intense I was almost crazy. In fact, I would lose my reason for hours at a time. One day a friend of mine dropped in to see me. No more had she glanced at my foot than she exclaimed, 'Mrs. Finnegan, why in the world don't you try the Cuticura Remedies?' Being disgusted with the doctors and their medicines, and not being able to sleep at all, I decided to give the Cuticura Soap and Cuticura Ointment a trial. After using them three days that night I slept as sound as a silver dollar for eight long hours. I awoke in the morning with but very little pain. In fact, I thought I was in heaven. After using the Cuticura Remedies for three months I was perfectly restored to health, thanks to the Cuticura Soap and Ointment. I will be sixty-four years of age my next birthday, hale and hearty at present." (Signed) Mrs. Julia Finnegan, 2234 Hebert St., St. Louis, Mo., Mar. 7, 11.

Cuticura Soap and Ointment are sold throughout the world. Send to Potter D. & C. Corp., 47 Columbus Ave., Boston, U. S. A. for free sample of each with 32-p. book.

### PRESS THE BUTTON.

Device That Will Make Railway Accidents Impossible.

Almost incredible are the possibilities attaching to an invention that has nearly been completed and which will make railroad accidents practically impossible. Since the first demonstration of the "railophone," which renders possible telephonic communication with a railway train in motion, was given about a year ago, the inventor, Mr. von Kramer, has made great strides. In conjunction with Professor Kapp, of Birmingham (England) University, he has evolved a sensitive detector, by means of which, he states, "it is possible to pick up those feeble currents which are received by the train and to relay them up into stronger currents to operate electric bells or hooters, or even to put on the brakes of train or to stop them at the will of the signalman at the station." Thus a signalman 10 or 20 miles away may press a button and the train stops automatically. Another feature of the railophone is that trains equipped with it can automatically bring back their signals to the danger position if they have been inadvertently left open by the signalman, and as any such forgetfulness is recorded at the time it occurs, the instrument settles the question of who is to blame if a driver passes a signal which should be against him.

### WELL PEOPLE TOO.

Wise Doctor Gives Postum to Convalescents.

A wise doctor tries to give nature its best chance by saving the little strength of the already exhausted patient, and building up wasted energy with simple but powerful nourishment.

"Five years ago," writes a doctor, "I commenced to use Postum in my own family instead of coffee." (It's a well-known fact that tea is just as injurious as coffee because it contains caffeine, the same drug found in coffee.) "I was so well pleased with the results that I had two grocers place it in stock, guaranteeing its sale.

"I then commenced to recommend it to my patients in place of coffee, as a nutritious beverage. The consequence is every store in town is now selling it, as it has become a household necessity in many homes.

"I'm sure I prescribe Postum as often as any one remedy in the Materia Medica—in almost every case of indigestion and nervousness I treat, and with the best results.

"When I once introduce it into a family, it is quite sure to remain. I shall continue to use it and prescribe it in families where I practice.

"In convalescence from pneumonia, typhoid fever and other cases I give it as a liquid, easily absorbed diet. You may use my letter as a reference any way you see fit." Name given by Canadian Postum Co., Windsor, Ont.
