## Brightening Things Up

This is the season of the year when everybody should give the home a chance and brighten things up a bit. The walls and ceilings stare you in the face every hour of the day and are entitled to more consideration than most people give. Try the effect of NEW WALL PAPERS and let us submit designs and estimates for your consideration. It is difficult to convey without actual seeing, any notion of the attractive patterns we're showing in paper hangings.

## J. L. ARNOLD.

Our lines—  
Groceries, Boots and Shoes,  
Crockery and Glassware, Wall Paper,  
All classes of Fire Insurance at lowest rates.

## Fine Tailoring

Call and see our stock of new goods. We will be pleased to have your order for a Suit or light Overcoat. Style, fit and workmanship guaranteed.

## TOWNLEY BROS.

## SHOES FIT FOR A KING

You'll find us ready at any time to do you a lot of good for your shoe money. This is the place where the money you spend represents more good results to you than any other. They're as good as they look and better than they cost.

## ROBSON & SON

ASSETS OVER \$240,000,000.

SAVINGS BANK DEPARTMENT  
Deposits taken of \$1 and upwards, which can be withdrawn on demand.  
R. M. Hamilton, Mgr. Fenelon Falls Branch

### Tools and Fools.

Your ancestors, with the crudest tools of production, produced enough of the necessities of life to keep them in food, clothing and shelter. To-day you are producing, with modern machinery and methods, an average of twenty times as much as your ancestors produced, and the mass of workers do not have as good and respectable a living as your ancestors had. Why? If you produce more, why do not you receive more? Can you not see that there is a screw loose somewhere? This surplus that you are producing and not getting is being piled up into great buildings, great factories and shops, great mines and works and palaces by the tens of thousands for those who do not produce anything, but merely manipulate what you workers are producing. The wealth increases, but you do not get it, though you produce it. Others, who do not produce it, have it. Each of you workers, man or woman, could and should have an income of \$8 a day for your work—for that is what the average products of a day sell for. The reason that you do not get it is because others take it under the theory that they are entitled to it for the use of the capital invested. But you workers make that capital, and it is morally yours; but not legally, because those who make the laws have seen to it that conditions favor them and those they serve. You have the votes that elect every official in the nation, directly or indirectly—yet these people you elect do not serve you. They serve the owning class, believe in the owning class, and as a rule are honest in their belief. All of us Socialists once believed just as they do; just as you do. We are not more honest now than then, but we have studied and know more about the subject, just as men know more about electricity when they study it. Your poverty is the direct result of the system of owning capital individually—of the dividing up system. You are making enough wealth, but are not getting it. No matter how much more you might make, it would not enrich you an iota. It would make the owning class richer. What you should do is to study, not how to make more wealth, but how the owning class get that which you do make. If you were wise, Debs would get two-thirds of all the votes cast in the Presidential election this fall. But you are not wise, and you will elect the same kind of minds that you and your ancestors have ever put over you to rule. Funny, but tragic, this density of your minds.—Jas. A. Wayland.

This discussion as to whether there is a hell or not is entirely out of place, considering the condition of the average toiler.

### A Case in Point.

Capitalist papers call attention to the fact that 50,000 farmers in Colorado and adjacent states faced great loss during the harvest period because they could not get enough men to care for the growing crops. At the same time this paper stated that there were 20,000 idle men in Denver who could not pay the fare to the harvest fields.

This is only part of the situation. The capitalist papers advertized the need of help, and more than five times as many workers as could get employment went to the harvest fields, cutting each other's throats in bidding for jobs, and impoverishing themselves a great deal worse than they were before. This illustrates the way of the capitalist system.

If the government had control of the great wheat fields, and employed men in making roads, in redeeming land and in other public work, it could immediately transfer to the harvest fields sufficient help to meet the need, without waste and without impoverishing the toiler to get him there.

If the government conducted these things they would be self-supporting, and the money deposited in government banks would be available for use by the whole people, instead of being available for use by the banks; so it will become practicable to do this work without waste and with justice to all.—Appeal to Reason.

### Protecting the Criminal.

A most amazing situation has developed in New York. Rosenthal, a gambler who refused to buy protection from the police, was murdered by a gang who had been hired by police agencies for \$2,000 to do the work, in order to prevent an exposure of the graft collected annually by the police of that city off of crime. This graft is said to amount to nearly two and one-half million dollars annually. It is payment made to the police, who are supposed to enforce the law, in order to secure protection for the criminal element. New York is all torn up over the situation, and there are threats and counter threats of further assassination. Politics under the old parties has become not only a graft but also a promoter of crime. The very organizations which are behind this almost unbelievable situation are also behind Woodrow Wilson in his aspirations for the presidency.—Ex.

Poverty is not only, under capitalism, a crime; it is also a punishment at hard labor for life.

The capitalist has but one political principle—protection of profits, so that his tribute may be safe.

War is a contest between working men, in the interest of the fellows who profit from their toil.

## DO YOU EVER HEAR

of a man getting robbed who had a cheque book in his pocket and his money in the bank?

Or did you ever know of anybody who lost money because a fire happened to eat up a cheque book?

Any man who keeps his money in the bank and pays by cheque eliminates two of the greatest risks in the world. It costs nothing to be safe, and then besides, it is so much more convenient.

The Bank of British North America will be glad to have your account.

76 YEARS IN BUSINESS  
CAPITAL AND RESERVE OVER \$7,500,000.
