

The destruction of the house fly is a public duty. Almost every American State Board of Health is carrying on a crusade against him. His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use

WILSON'S FLY PADS

persistently, this peril will be tremendously reduced.

Mrs. Exe (with newspaper)—Here's an awfully funny typographical error. It says: "Mrs. Rich awoke about 4 o'clock and heard strange noises in the house." Exe—How do you know it's a typographical error? Maybe it means that she heard her guests snoring.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellogg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

Cured of Shingles and Eczema

Mr. J. H. Jarvis, Kingston

By Cuticura Soap and Ointment. Chest Raw, Bleeding and Itchy.

"I just want to say a good word for Cuticura Soap and Ointment. In November, 1909, I had what the doctors call shingles and eczema. My chest was raw and bleeding and itchy. I was that way all winter. It was not so bad in the summer. In September it got worse. I had the best doctors treating me, but did me no good, and I was all run down in health. In November, 1910, it got worse again. I sent to you for a sample cake of Cuticura Soap. You sent it to me and I got a box of Cuticura Ointment. I have used two boxes and on the third one it has cured me of shingles and eczema. I am delighted with them and do feel pleased to think I have something I have confidence in. Should anyone be suffering as I did, I hope that they will do as I did, and I am sure of the results." (Signed) J. H. Jarvis, 7 Ann St., Kingston, Ont., May 30, 1911.

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest and most economical treatment for itching, burning, scaly and bleeding skin and scalp humors, of young and old. A single set is often sufficient. Cuticura Soap and Ointment are sold throughout the world, but to those who have suffered much, lost hope and are without faith in any treatment, a liberal sample of each with 32-p. booklet on the skin will be mailed free, on application. POTATO DIET IN GERMANY.

Chief Food of Poorer Classes in the Fatherland.

The Agricultural Chamber of the Rhine Province has just published some statistics which afford a striking corroboration of a statement made recently by a Socialist in the Reichstag to the effect that potatoes are the chief diet of the poorer classes in large sections of Germany.

The Agricultural Chamber, which is a body legally constituted to gather information for the government on agricultural matters, has been studying how the peasantry lives. It publishes the family budgets of 30 peasant families with annual incomes ranging between \$471 and \$290. About two-thirds of them had the higher figure and owned small farms of from 10 to 47 acres.

It was found that the average daily consumption of potatoes of the 30 families was nearly 3 1-3 pounds for each person, whereas the consumption of meat was less than 3 ounces; of butter 1.13 ounces and slightly more than one pint of milk, of which nearly half was skim milk or buttermilk.

SUMMER COMPLAINTS KILL LITTLE ONES

At first signs of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours he may be beyond cure. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly cure these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine so good and the mother has the guarantee of a government analyst that they are absolutely safe. Mrs. Chas. Lapierre, Les Boules, Que., says:—"Baby's Own Tablets are the best medicine a mother can give her little ones and I always keep them in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"We can start on our vacation next week." "How do you make that out?" "The Greens got back yesterday and now we can get their suit case."

Faultless in Preparation.—Unlike any other stomach regulator, Parmelee's Vegetable Pills are the result of long study of vegetable compounds calculated to stimulate the stomachic functions and maintain them at the normal condition. Years of use have proved their faultless character and established their excellent reputation. And this reputation they have maintained for years and will continue to maintain, for these pills must always stand at the head of the list of standard preparations.

NEW USE FOR BAGPIPES.

Unscrupulous Milk Vendor Caught by Police.

For some time the French police have suspected a milk vendor, named Noziere, of watering his milk. Several times samples of milk which M. Noziere was delivering were submitted to the experts of the Paris Municipal Laboratory, and each time these were declared to contain a large proportion of water. The milk vendor protested his innocence, and even invited the police to witness the milking of his cows. This they did, but the "pure" milk samples which were taken away on these occasions were always found to be well-watered.

The solution of the problem was forthcoming the other day. An inspector called at M. Noziere's place quite unexpectedly and asked the vendor to milk a certain cow. The official, who kept a vigilant eye on the milker, noticed that he fumbled with his right hand in the vicinity of his waistcoat pocket.

"What are you doing?" asked the inspector. "Oh, it is only my braces that hurt me," answered the milk dealer; but in a second the inspector had unbuttoned the waistcoat and discovered there an ingenious contrivance of two small rubber pipes, connected with rubber bags containing water.

By the pressure of his elbow on the bags the unscrupulous vendor could, with but little risk of detection, add a considerable quantity of water to the milk pail.

THE SURE CURE.

The most effective way to cure a thief of kleptomania by surgery is to cut his liberty out.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

"This is the third time you have been here for food," said the woman at the kitchen door, to the tramp. "Are you always out of work?" "Yes'm," replied the itinerant. "I guess I was born under a lucky star."

"Do you play any instrument, Mr. Jimp?" "Yes, I'm a cornetist." "And your sister?" "She's a pianist." "Does your mother play?" "She's a zitherist." "And your father?" "He's a pessimist."

Whether the corn be of old or new growth, it must yield to Holloyay's Corn Cure, the simplest and best cure offered to the public.

"Yes," said Tom Poorman, "I've been invited to her wedding, but I'm not going." "But," urged his friend, "do you think you can afford to have your absence noticed?" "Better than I can afford to have my presents noticed. That's the trouble."

Lots of women would be glad if they could send their hair to the laundry.

GEORGE IN TROUBLE.

Mrs. Modus—"Well, George, you promised me a new bonnet."

George—"I promised you a new bonnet? When?" Mrs. Modus—"Before you married me you swore that disgrace should never rest upon my head through you; and what do you call this shabby thing on my head now?"

KNEW HER POWERS.

Mother—"Now, do be careful how you act about that young man or people will think you are running after him."

Daughter—"I don't have to do that, Mother; I can win in a walk."

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimer Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured.

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

"One gentlemanly thing about a dentist," remarked the man, "is that he never rubs it in by saying 'this hurts me more than it does you.'"

Impurities of the Blood Counteracted.—Impurities in the blood come from defects in the action of the liver. They are revealed by pimples and unsightly blotches on the skin. They must be treated inwardly, and for this purpose there is no more effective compound to be used than Parmelee's Vegetable Pills. They act directly on the liver and by setting up healthy processes have a beneficial effect upon the blood, so that impurities are eliminated.

BREAKING IT GENTLY.

Two very great friends—a Scotsman and an Englishman—met in the smoking-room of an hotel, and the Englishman at once proceeded to monopolize the conversation, as he usually did.

The Scotsman bore it for a long time, then he broke in quietly: "I say, old chap, I'll back you and me to tell more and bigger lies in half an hour than any other six men I know!"

He paused, and then went on gently: "And I wouldn't speak a single word the whole time!"
