## MAXWELL'S HIGH SPEED CHAMPION

The Wringer Board extends from the side, out of the way of the cover. This allows practically the whole top of the tub to open up—makes it easy to put in and take out clothes. No other wringer has as large an opening. No other wringer can be worked with crank handle at side as well as top lever. Do you use Maxwell's "Favorite"—the churn that makes quality butter? ## CUTICURA Soap and Ointment

No other emollients do so much for pimples, blackheads, red, rough and oily skin, itching, scaly scalps, dry, thin and falling hair, chapped hands and shapeless nails. They do even more for skintortured and disfigured infants.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on treatment of skin and hair, will be sent, post-free, on application to "Cuticura," Dept. 3M, Boston, U. S. A.

### VOTING INDUCEMENTS.

#### Failure to Vote in Belgium Is a Misdemeanor.

In this country voting is not compulsory, and, therefore, any omission to do so when the polling day comes round is not punishable by law.

But the same happy state of affairs does not obtain in Belgium. There the franchise laws are extremely strict, for failure to vote is counted a misdemeanor, and the penalty is severe. To prevent non-appearance at the polling-station, the Belgian Government even goes so far as to defray the expenses of citizens who live some distance away, and who can show an adequate reason for absence. In fact, many natives of that country, domiciled for a time in England on business, enjoyed a free trip home last May in order to record their votes at the Parliamentary polling.

Nor is the Belgian content with one vote. He can, if he will, obtain three. Besides that to which he is entitled at the age of twenty-five should he have lived in the same commune for a year, he is granted another if he reach a certain degree of educational efficiency.

While the third is obtainable at the age of thirty-five—that is, if the citizen pays a house tax of five francs—\$1.02 a year, and is either married or a widower.

#### To Men Who Live Inactive Lives.

—Exercise in the open air is the best tonic for the stomach and system generally; but there are those who are compelled to follow sedentary occupations and the inactivity tends to restrict the healthy action of the digestive organs and sickness follows. Parmelee's Vegetable Pills regulate the stomach and liver and restore healthy action. It is wise to have a packet of the pills always on hand.

#### TOO BAD.

"Too bad Mrs. Smartleigh always has such abominable weather for her afternoon teas." "Yes; she never pours but it rains."

Cholera and all summer complaints are so quick in their action that the cold hand of death is upon the victims before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr. J. D. Kellogg's Dysentery Cordial, and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

### PLANTS HAVE EYES.

#### Prof. Haberlandt Says He Has Found Them in Tree Leaves.

After long experimenting and study Prof. Gottlieb Haberlandt of the Botanic Institute, of Gratz, in Styria, declares that plants, the word taken in its widest sense, and including trees, can see.

The professor says that he has succeeded through photography and the use of the microscope on the visual organs of plants. The images included objects at different distances, and even persons and houses. Plants may, he says, be classed with the inferior animals in this respect. His observations have been confirmed by Dr. Nuttall and Dr. Harold Wagner.

We are still so ignorant of animal, plant and insect life (because we do not understand their language) that we fancy the plant, like the insect, is not conscious of what it sees, but that is probably a discovery for the future. At present we are forced to accept the theory that they are not conscious.

But that they do see, Prof. Haberlandt says, he has satisfactorily proved. He has found the same minute eye such as belongs to bees and other insects in sycamore leaves, in the sugar maple and in the Peruvian acanthus. The eyes of plants appear different from the eyes of insects in that they have no coloring matter, though this is not yet determined.

The professor is continuing his experiments, and he expects to make further interesting and surprising announcements. He says that plants and trees have eyes is undoubtedly a proof that all natural life is linked in one long chain.

On Sale Everywhere.—There may be country merchants who do not keep Dr. Thomas' Eclectic Oil, though they are few and far between, and these may suggest that some other oil is just as good. There is nothing so good as a liniment or as an internal medicine in certain cases. Take no other. The demand for it shows that it is the only popular oil.

### HOW TO AVOID SEA SICKNESS.

There are a few homely remedies for seasickness, such as stuffing the ears with cotton wool, taking a strong cup of very hot coffee or a teaspoonful of neat Worcestershire sauce just before embarking, which may tide the poor sailor safely over a short journey. Chronic victims of sea sickness, however, should give the liver a rest for 24 hours before going on a voyage, eating only food of a simple and readily digestible nature. Rest, with the head lowered in a comfortable position with the hands and feet kept warm, is the first rule in all cases.

### A WONDERFUL DISCOVERY.

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again, As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk.

Again, As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delormier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured.

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Caterhall, Nfld. Minard's Liniment Co., Limited. Dear Sirs,—While in the country last summer I was badly bitten by mosquitoes, so badly that I thought I would be disfigured for a couple of weeks. I was advised to try your Liniment to allay the irritation, and did so. The effect was more than I expected, a few applications completely curing the irritation, and preventing the bites from becoming sore. MINARD'S LINIMENT is also a good article to keep off the mosquitoes. Yours truly, W. A. V. R.

### FORCE OF HABIT.

One of the French marshals who had been defeated by the Duke of Wellington in the Peninsula tried to insult the duke, when the latter was visiting Paris. But in the ballroom as on the battle-field, the victory was Wellington's.

Louis Philippe of France had just introduced the marshal to the duke. Smarting under the memory of his defeats, the marshal thought to slight Wellington by ostentatiously turning his back to him. Louis Philippe was greatly displeased, and apologized for his general's rudeness.

"Forgive him, sir," said the duke. "I taught him to do that in the Peninsula."

### MAN'S REAL DIGNITY.

Every young man when starting in the race of life should stamp into his being the fundamental principle of all moral philosophy—that the real dignity of a man lies not in what he has, but in what he is. Beware of being infected by the moral contagion which more or less taints the atmosphere of every rich trading and manufacturing community—the contagion which breeds a habit of estimating the value of men by the external apparatus of life rather than by its internal nobility.
