

TURKISH TROOPS DEFEATED

Heavy Losses on Both Sides—Great Rejoicing in the Montenegrin Camp.

A despatch from Podgoritza, Montenegro, says: The Montenegrins have captured Detchitch Mountain. The Turkish commander and officers, with many soldiers, have surrendered. For the past thirty hours the battle between the Montenegrin forces, under direct command of King Nicholas, and Turkish troops, strongly entrenched in the hills, has been in progress. The fight began at 8 o'clock Wednesday morning, the first shot being fired by Prince Peter against the Turkish position on Mount Planinitza. Within a few hours the Turks evacuated that district. Strongly fortified positions were occupied by the Turks, however, on Detchitch Mountain, which commands the road to Scutari, and reinforcements were brought up which resulted in a general engagement, which extended along the line for several miles. King Nicholas remained at his headquarters at Podgoritza while

Prince Danilo directed operations at the front. The Montenegrins resumed the bombardment of Detchitch at dawn, and a heavy cannonading was kept up until 11 o'clock in the morning, when the Turkish batteries on the mountain were silenced.

In the meantime a great battle was proceeding near the Turkish town of Tushi, about fifteen miles to the south of Podgoritza. At 4 o'clock in the afternoon the Turkish commander on Detchitch, with his officers and a majority of his troops, surrendered. The Montenegrins captured four guns. The Montenegrin standard was hoisted over the captured position. There were heavy losses on both sides, but the Montenegrin camp gave itself over to rejoicings on the first victory in the war.

A division of Montenegrins, commanded by General Vukotich, crossed the frontier early Thursday morning, near Berana.

ONLY ONE WAY TO CURE RHEUMATISM

It Must Be Treated Through the Blood and the Poisonous Acid Driven Out.

The twinges and tortures of rheumatism are not due to cold, damp weather as so many persons suppose. Rheumatism comes from poisonous acid in the blood. This is a medical truth which every sufferer should realize. There is only one way to cure rheumatism—it must be treated through the blood. All the liniments and rubbing and so-called electric treatment in the world will not cure rheumatism, and the sufferer who tries them is not only wasting money, but is allowing the trouble to become more deep-rooted in the system and harder to cure when the proper remedy is tried. Dr. Williams' Pink Pills always cure rheumatism because they go right to the root of the trouble in the blood. These Pills make the new, rich blood of health, and in this way drive out the poisonous acid which causes rheumatism. Thousands of instances of cures might be given, among which is the following one. Mrs. G. R. Dulmage, Cherry Valley, Ont., says: "I was attacked with rheumatism which gradually grew worse until I was confined to my bed. For about two weeks I had to be shifted and turned in bed as I was utterly unable to help myself. I was under the doctor's care and so far recovered that I was able to get up and move about, but the trouble still remained in my system. If I put my hands in cold water, or if I went out in the evening or in damp weather the trouble would return, and for four years I thus suffered from rheumatism, until I began to think it could not be driven from my system. Finally I gave up all other medicine and began to use Dr. Williams' Pink Pills, and after using them for a couple of months I was completely cured and have not had a twinge of rheumatism since. I can recommend the Pills to anyone suffering from this trouble."

These Pills are sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Austro-Hungary is making extensive warlike preparations that point to possible international rupture over the Balkan situation.

Turkish flag, the crescent and the star, that is carried at the head of the Ottoman troops.

REMARKABLE FEAT.

Prolonged Man's Life Ten Hours Artificially.

A despatch from Montreal says: A rather remarkable feat has just been performed at the Royal Victoria Hospital. For ten and a half hours, by means of insufflation, that is, forcing oxygen into the lungs, the surgeons in the hospital kept a patient alive who had ceased entirely to breathe by any natural means. At 11 o'clock on Thursday the patient absolutely stopped breathing. Death would inevitably have ensued at once had it not been for the extraordinary skill of the surgeons, who kept the man alive with his heart beating normally until he died at 9 o'clock in the evening.

FATALITY AT RAISING BEE.

Man Killed Instantly by Falling Timbers of New Rink.

A despatch from Russell, Ont., says: During the progress of a "raising bee" in the village here on Saturday, when the curved wooden sets of a rink, which is being built by citizens, were being put in position, a violent windstorm came up and carried the heavy framework with a crash to the ground. Some two dozen men who were engaged in the work were caught in the falling timbers, John W. Low, aged fifty-five, one of them, being killed instantly. Many others had miraculous escapes from serious injury. John Foster was run over by a passing horse which had become frightened by the crash as he dashed out from the ruins of the building.

Wm. Anson Lawrence, Registrar and County Court Clerk of Halton, died at Milton, aged sixty-nine.

The Dominion Government will build a seismological observatory at Victoria, B.C., to cost \$10,000.

Two hundred new rural mail delivery routes have been established in Ontario and Quebec this summer.

PRICES OF FARM PRODUCTS

REPORTS FROM THE LEADING TRADE CENTRES OF AMERICA.

Prices of Cattle, Grain, Cheese and Other Produce at Home and Abroad.

HARVEST FOR THE LAWYERS

Suits Entered Against Ottawa on Account of the Typhoid Fever Epidemic.

A despatch from Ottawa says: Ottawa's second great typhoid epidemic, which so far this year has aggregated 1,200 cases and 72 deaths, promises to prove almost as good a harvest for the lawyers as it has been for the doctors. The City Solicitor has given an opinion to the City Council that the city is, on the ground of negligence in protecting the purity of the water supply, liable for damages to the typhoid sufferers. Based on the standard figures published, in economic loss-

es by disease, the total collectible damages for loss from deaths, from wage loss, doctors' bills, etc., aggregate about \$420,000. Several of the sufferers have already instituted action for recovery of damages against the city, one widow claiming \$15,000.

Now comes another almost humorous sequel to the sad story of Ottawa's waterworks mismanagement. Bills for money spent by taxpayers for fuel for boiling the water in order to make it immune.
