We are Not Much at Underselling

To tell the truth, we don't like the words "cheap groceries."

We much prefer to deal in the highest qualities obtainable.

Because reduced prices **always** stand for reduced values.

It is inevitable.

Business is so regulated that it cannot be any other way.

So we talk high qualities month in and month out. And we sell accordingly.

And it is the truest sort of economy to deal here. No waste of material—constant satisfaction—most healthful eatables.

These are reasons enough.

ARNOLD'S.

R. M. Hamilton, Mgr. Fenelon Falls Branch

A Word to Christians.

"Come, let us reason together!" saith the Lord.

"Open thy mouth, judge righteously, and plead the cause of the poor and needy."

Here are two commands; have you forgotten them!

Everything useful to mankind comes from the earth; yes, even man himself.

"Dust thou art, and to dust shalt thou return." You seem to have forgotten the divine commands that "the earth should belong to the children of men," and "Hold fast what thou hast; let no man take thy crown." My dearly beloved brethren, we have forgotten that command and allowed a few crafty tyrants to usurp our birthright and trample great masses of human beings down, down; yea, hundreds of thousands have yearly been forced back to the dust whence they came.

Is there any remedy for our present grievances? Are there any means by which we can compel those few who claim the earth to make restitution, and deliver back to the children of men that which God gave to all? Yes. Let us "Workers of the world, unite," and let us bury those who stand for this hellish system of competition beneath a storm of ballots that will forever put an end to the power of this satanic oligarchy, and usher in the millennium—dawn of the golden age of co-operation which Micah prophesied, when all shall have an equal opportunity to earn a living, and when everything necessary for the maintenance of the human race (such as mines, factories, mills, railroads, etc.) shall be owned collectively, and everything necessary for private wants shall be owned privately.

To prove that the people shall return unto their own, read Leviticus 25-23, which says, "The land shall not be sold forever; the land is mine," etc. And to prove that our system of profit is wrong, just read the 36th verse of the same chapter, "Take thou no usury of him nor increase, but fear thy God, that thy brother may live with thee." Also Eccl. 5, 9, "Moreover the profit of the earth is for all; the king himself is served by the field."

To learn beyond doubt what portion of wealth created by the worker shall be his, we will now read verse 18 of the same chapter (Eccl. 5) "Behold that which I have seen; it is good and comely for one to eat and to drink and to enjoy the good of all his labor that he taketh under the sun all the days of his life, which God giveth him, for it is his portion." Just what we Socialists demand.

Now, as government statistics prove that on an average a worker gets only about one-fourth the wealth he creates, the three-fourths, then, according to divine law, are stolen from him, and go to make up the immense for-

tunes of the wealthy few; while the poor laborer who is robbed struggles to live out a miserable, unhappy existence with an unsatisfied discontented family. But just listen to the sentence of the Great Judge: Mark 10, 25, "It is easier for a camel to go through the eye of a needle than for a rich man to enter into the kingdom of God." Luke 6, 24: "Woe unto you who are rich, for ye have received your consolation." Also 5th chapter of James, 1-5.

Now, our law says he who aids in any way him who commits a crime is also guilty of that crime. So he or she who upholds either of the wings of the master class, namely the Grit or Conservative party, is guilty of legalizing the aforesaid robbery of labor and the consequent misery, degradation and starvation; and is also guilty of the wholesale murder in wars that a master class may force their plunder, the "over production," on new markets. Yes, more than that; by sanctioning by their votes the robbery of labor, they force about 120,000 girls in Paris; 100,000 in London and some 50,000 in Berlin, and millions elsewhere, to sell themselves, that they may have bread, to lives of shame that average less than five years; and slain, when they die, by the votes of those who think they are Christians!

Wake up, and wash the blood stains off your hands and souls by studying, understanding and then voting for Socialism, which is the only remedy known to man for the evils of this system of competition, strife, war and hell upon earth. As you all acknowledge, there is no competition in heaven; how can you vote for competition and pray "Thy kingdom come (on earth), Thy will be done on earth as in heaven?" Amen.

We Socialists know that the world cannot be united on any one of the 2,000 or more religions, so we recognize the individual's right to believe in any religion he pleases or none at all, if he feels disgusted with what all religions have done for humanity, and demands the fulfillment of the verse in the bible that says "Prove all things."

—Yours for humanity, L. S. Grue, 138 George Street, Brockville, Ont.

Reforms do not benefit the workers to any great extent. When the workers have to compete for jobs, they will work for a wage that will barely cover the cost of living. If through reforms the cost of living goes down wages will fall. The workers' only hope is the abolition of the wage system.

It costs, in wages paid to labor, about \$1.25 a bushel to raise coffee in Brazil, yet it takes thirty bushels of good wheat to buy one bushel of good coffee here, though the steamship rate from Brazil to New York on a bushel (fifty pounds) is only fifteen cents. This is a nut for our farmers to crack at the ballot box.
