

## Obituary.

The news of the death of Mr. John C. Fitzgerald, an old and well known citizen of Fenelon Falls, which occurred on Saturday evening, came as a shock to the residents of this village, as the deceased had been on the street and conversed with several persons until within a few hours of his demise. Late in the afternoon he went into the harness shop of Mr. J. J. Nevison, and complaining of a severe pain in the region of the heart, a physician was summoned, who pronounced the attack to be a case of acute indigestion. The sufferer was conveyed to the family residence on Queen street, and in about half an hour breathed his last. The deceased was a son of the late Edward Fitzgerald, and is survived by his brother Edward and three sisters, Miss Elizabeth and Miss Mary of Fenelon Falls and Mrs. E. B. Borland of Michigan. The funeral took place on Tuesday to the Fenelon Falls cemetery.

## Somerville Council.

Somerville Council met at Burnt River, Jan. 18th, 1913. All the members present except the reeve. Mr. Byrne was elected to the chair.

A by-law to appoint a Medical Officer of Health and a member of the local Board of Health, and a by-law to appoint auditors were read and passed.

Accounts for election expenses, printing, etc., were passed.

A by-law respecting the salary of the caretaker of the Kilmount cemetery was passed.

Byrne-Hoskins.—That as this council learns that our respected Clerk is about to accept a position for a short time in the services of the Dominion Government, we desire to record our appreciation of the honor the Government has conferred on Mr. Suddaby. We believe the Government has made no mistake in selecting Mr. Suddaby to fill this office, as he has education, tact, and what is essential in every office, good common sense. We feel sure that he will fill the office with credit to himself and honor to the department assigned to him. For twenty-two years he has filled the position of clerk of the Municipality. Councils have come and passed away in that time, but he has always been there and aided the council with his tact, courtesy and municipal knowledge; and for all his work not very highly remunerated. We hope Mr. Suddaby will have a pleasant and prosperous sojourn in the great city of London, and will return in safety to his many friends.—Carried by a standing vote.

### Correspondence of the Gazette

The Sunday School are preparing a programme for a box social, which is to take place some time soon. The proceeds will be applied for the benefit of the Sabbath school.

There was no service in the church last Sunday, owing to the storm.

A Bruce county paper says that there are 7,200 men and eight steam shovels working on the Grand Trunk Pacific.

One of our neighbors lost a seventy-five dollar cow about two weeks ago. Dr. Mason of Fenelon Falls came out, but under the circumstances could not save the animal's life.

Mr. Norman Gillis of Rossduff, Sask., is visiting here and will stay about six weeks.

Miss Minnie Herron of Peterboro spent a few days here visiting.

## Victoria Harbor Celebrates Local Option Victory.

What is described as the most enthusiastic celebration ever witnessed in Victoria Harbor took place in that town on the evening of January 6th, when the result of the vote on Local Option was announced, and it became known that the by-law had carried by a large majority. Mr. Fred. Waldie, President of the Victoria Harbor Lumber Company, who conducted the Local Option campaign, was given a grand ovation. Cheering crowds paraded the principal streets, led by the brass band, and big bonfires illuminated the proceedings.

## ST. ANDREW'S CHURCH.

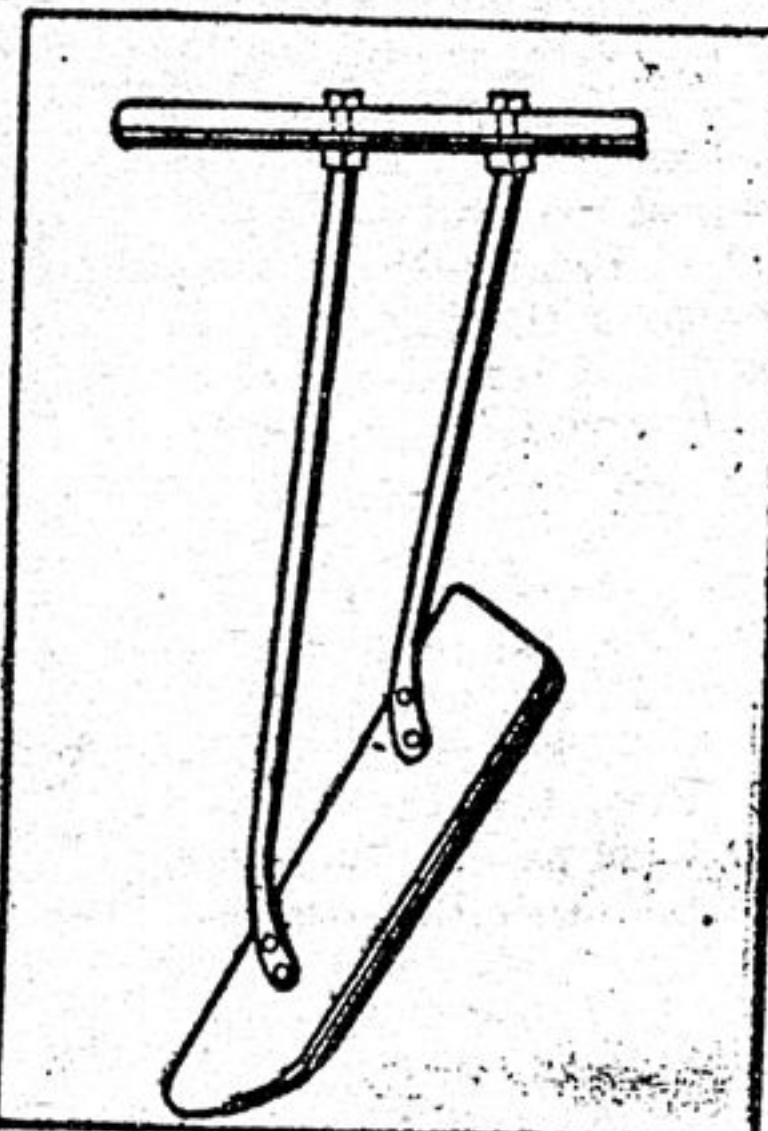

The annual meeting of St. Andrew's Church on Tuesday evening was largely attended. Reports of a most encouraging nature were submitted from all the varied activities of the church. The managers' report, by the secretary, Mr. D. Robertson, and by the treasurer, Mr. Morley Reive, indicates the best year in the history of the congregation. Cheering statements were also submitted from the Ladies' Aid, by Mrs. Northey; from the Sunday School, by Mr. Warren; from the W. F. M. S., by Miss McArthur; and from the A. B. C., by Miss McKendry. Mr. Robertson was elected Sec.-Treasurer, and Mr. Reive elected to the Board of Managers.

Rev. Mr. Lord is preaching pre-communion sermons of an evangelistic character each Sunday evening.

## NEWEST SOD CUTTER

Broad Blade Shears Through Turf with Ease and Speed

The cutting of sod with most of the tools used in that operation is rather tedious. It is usually done with a short curved blade on the end of a long handle and the workman has to step on the top of the blade to force it through the turf and repeat the action every six or eight inches. A western man devised a sod cutter that appears to be a big improvement over

PUSH BLADE STRAIGHT AHEAD

the old type. A broad, sharp blade is fixed to two substantially parallel arms that are attached to a handle. To cut the sod the workman inserts two sticks in the ground and runs his guide line from one to the other. Then he starts at one end with the cutter and pushing it straight ahead of him, literally ploughs his way along. It is easy to see how much time this implement will save.

## CARING FOR HORSES

Leading the colt to and from the watering trough two or three times daily is not enough exercise for him. Let him race around the yard or paddock for several hours every fine day.

All young animals have a certain allotted period of growth. See that the colts get the care intended to promote size at the proper time, for once they have passed a certain age growth ceases, and efforts to renew it are in vain.

A horse which has free access to water at all times very seldom injures himself by over-drinking, but it is not wise to allow an exhausted or overheated animal to drink to excess, neither is it wise to deprive such an animal of the means to refresh himself. Let him have a little, and when he cools down and is rested a little let him satisfy his thirst.

Foul or bad air in the stable is generally heated air, or in other words air which has been exhaled from the lungs of the horses. If the stable is "stuffy" or over-warm improve the ventilation. Horse stables do not require to be kept at a high temperature, but pure air is necessary, and to keep it pure the foul air must be driven off.

Feeding three times daily is preferable to two feeds a day for horses. The limited capacity of the horse's stomach does not fit him for long fasts. A horse is also a more or less restless animal, and three small feeds are preferable to two large feeds as they spread the feeding over a longer time, and shorter intervals lapse between feeds.

## SOME REQUESTS OF AN EMPLOYER

Rule 1. Don't lie—it wastes my time and yours. I'm sure to catch you in the end and that's the wrong end.

Rule 2. Watch your work, not the clock. A long day's work makes a long day short, and a day's short work makes my face long.

Rule 3. Give me more than I expect and I'll pay you more than you expect. I can afford to increase your pay if you increase my profits.

Rule 4. You owe so much to yourself that you can't afford to owe anybody else. Keep out of debt.

Rule 5. Dishonesty is never an accident. Good men, like good women, can't see temptation when they meet it.

Rule 6. Mind your own business and in time you'll have a business of your own to mind.

Rule 7. Don't do anything here which hurts your self-respect. The employee who is willing to steal for me is capable of stealing from me.

Rule 8. It's none of my business what you do at night, but if dissipation affects what you do next day, and you do half as much as I demand, you'll last half as long as you hoped.

Rule 9. Don't tell me what I'd like to hear, but what I ought to hear. I don't want a valet to my vanity, but I need one for my dollars.

Rule 10. Don't kick if I kick; if you're worth while correcting, you're worth while keeping. I don't waste time cutting spots out of rotten apples.—Retail Lumberman.
