

**SHE USED ONLY  
THE NATURAL CURE**

**HOW NOVA SCOTIA WOMAN  
WAS RELIEVED OF HER  
HEART DISEASE.**

Made her Kidneys right with Dodd's Kidney Pills and all her troubles vanished speedily and completely.

Eel Creek, Cumberland Co., N. S., February 10.—Suffering from Female, Kidney and Heart Trouble, so run down, nervous and depressed that all the brightness had gone out of her life, and never expecting to be a healthy woman again, Mrs. J. W. Leadbetter of this place tried Dodd's Kidney Pills, and is once more in the best of health. Her simple statement is the best evidence that no case of Kidney Disease is so bad that Dodd's Kidney Pills will not cure it.

"I was treated by five doctors," Mrs. Leadbetter states. "Four of them did me no good. The fifth operated on me and that gave me relief for a time. I had Female, Kidney and Heart trouble. I was so nervous and run down that my friends did not think I would ever get better.

"An advertisement led me to use Dodd's Kidney Pills, and I have found in them a cure for all my troubles. I cannot praise Dodd's Kidney Pills too highly."

Female Trouble and Heart Disease are caused by Kidney Disease. The natural way to cure them is cure the Kidneys by using Dodd's Kidney Pills.

**Not Such a Much.**

"My wife writes me from London that our daughter was presented at court over there," said Mr. Bragg. "This is a great honor and it cost me nearly a thousand dollars."

"I was presented at court in this country some years ago," replied Mr. Stagg. "It cost me five dollars and costs, and I don't see where it is such a great honor."

Minard's Liniment Co., Limited.  
Some time ago I had a bad attack of Quinsy, which laid me up for two weeks and cost a lot of money.  
Finding the lump again forming in my throat, I bathed freely with MINARD'S LINIMENT, and saturating a cloth with the liniment left it on all night.  
Next morning the swelling was gone and I attributed the warding off of an attack of Quinsy to the free use of MINARD'S LINIMENT.

**SIR GERALD LOWTHER**

Sir Gerald Lowther, the British Ambassador at Constantinople, has been undergoing a very anxious time during the past twelve months. He is one of Britain's most experienced diplomats, and has served at Washington, St. Petersburg, Madrid, Paris, Tangier, and other parts of the world.

Sir Gerald Lowther.

He possesses a perfect Ambassadorial manner, and this is well illustrated by an incident which occurred at a dinner party held at the British Legation in Tangier. It was a few days after the capture of Kaid Maclean by that notorious individual Raisuli. One of the Ambassador's guests, a fascinating French lady, anxious to know what England would do, called across to him during the repast, "What are you waiting for, Sir Gerald?"

"A lamb cutlet, madame," was the ready response.  
Sir Gerald married in 1905 Miss Alice Blight, of Philadelphia, the granddaughter of Richard Greenough, the famous sculptor. Her charming personality, and her ability as a hostess, have been the greatest assistance to her husband in his diplomatic career.

**It Paid This Man to Change Food.**  
"What is called 'good living' eventually brought me to a condition quite the reverse of good health," writes an Eastern merchant.  
"Improper eating told on me till my stomach became so weak that food nauseated me, even the lightest and simplest lunch, and I was much depressed after a night of uneasy slumber, unfitting me for business."  
"This condition was discouraging, as I could find no way to improve it. Then I saw the advertisement of Grape-Nuts food, and decided to try it and became delighted with the result."  
"For the past three years I have used Grape-Nuts and nothing else for my breakfast and for lunch before retiring. It speedily set my stomach right and I congratulate myself that I have regained my health. There is no greater comfort for a tired man than a lunch of Grape-Nuts. It insures restful sleep, and an awakening in the morning with a feeling of buoyant courage and hopefulness."  
"Grape-Nuts has been a boon to my whole family. It has made of our 2-year-old boy, who used to be unable to digest much of anything, a robust, healthy, little rascal weighing 32 pounds. Mankind certainly owes a debt of gratitude to the expert who invented this perfect food." Name given by Canadian Postum Co., Windsor, Ont. "There's a reason."

**Paris' New Skyscrapers.**

Paris is realizing that it is faced with the problem of a greatly overcrowded business centre, and the only solution of the matter seems to be the adoption of the American skyscraper, which is being bitterly opposed by the true Parisian, who regards the innovation as destructive to many of the famous structures and disastrous to the appearance of the city. It is a fight of the new against the old, and means the elimination of many cherished institutions and time-honored customs of the typical Frenchman of the gay metropolis.

**Life-Long Sufferer Tells of Quick Relief From "Catarrhoozone."**

Every breath carries healing balsams to the sick sore places in the nose and throat.

Montreal this time gives splendid praise for the modern way of curing colds, catarrh and bronchitis.

Instead of taking sickening drugs into the stomach, or using an old-fashioned spray, the sensible man now-a-days breathes the soothing vapor of Catarrhoozone and gets well right away. This is exactly what Mr. Joseph Daoust did, and writing from his office at 87 St. Paul St., he says:—

"I suffered for years from the worst form of chronic bronchial throat and nasal catarrh. I tried all kinds of syrups, ointments, tablets and washes, but they proved ineffective. In fact I could get no relief. I read in the Montreal Witness of Catarrhoozone and bought an outfit. In a few hours I got relief. The air passages of my nose were cleared out, and I was able to breathe freely. My throat was strengthened—my voice improved—and no longer gagged and coughed. The effect of Catarrhoozone was wonderful. Now I am well—no bronchitis—no throat distress. I urge everyone with a weak throat, with a cough, a cold or a touch of catarrh to use Catarrhoozone freely."

Prominent men in all walks of life use and endorse Catarrhoozone which is a scientific preparation for throat troubles and Catarrh. It is not a "cure-all." The dollar outfit contains an indestructible, hard rubber inhaler and medication for two months' treatment. All dealers or post paid from the Catarrhoozone Co., Buffalo, N. Y., and Kingston, Canada.

**ELECTRICITY IN CHINA.**

**Use of the Power for Advertising Growing.**

During the past year Chinese merchants in Shanghai have taken up electric advertising to a surprising extent, and now the large stores on Nanking Road vie with one another in the splendor of their shop fronts.

It has always been the custom among the Chinese to drape the store on opening day in red hangings of silk covered with pictures of fairies and genii and inscriptions of good omen. With the coming of evening lanterns would be suspended among the hangings and illuminated by candles. This has all changed now. First the Japanese brought in electric advertisements for their patent medicines, and now the Chinese merchant sprinkles a galaxy of electric lights all through the hangings that cover the front of his newly opened store.

At one large store on Nanking Road, the Shanghai Settlement's principal Chinese business street, where the municipal authorities had forced the property owners when rebuilding to move their premises back so as to allow for sidewalk space, fearing that they should be cast in the shade by their competitors next door who had not rebuilt and were therefore not moved back from the curb, they leased the front sidewalk out as far as their old frontage from the municipal council and erected thereon a steel staging completely covering the front of their store. Upon this staging they have arranged a magnificent electrical display, which they change periodically. They had no sooner gotten their show well started than another firm farther up the street erected for itself a similar staging, and it is now a competition to see which will outdo the other in the magnificence of its display.

**BRITISH SONG BIRDS.**

**Tomtit and Skylark Being Introduced Into British Columbia.**

"Leave nature alone or there may be trouble." This is the opinion of a writer, commenting on the introduction into British Columbia of British song birds.

It was with the best of intentions that the sparrow was introduced into America, in the hope that it would assist in keeping down the insect pests so harmful to agriculture, but as soon as the bird found that a diet of corn was better worth having, it abandoned its former good habits and quickly proved once again the truth of the old adage that the cure is often worse than the disease.

Among the birds being sent out from England are the skylark and the tit, both very attractive and desirable birds from many points of view, but not altogether blameless in their habits. The lark is an inveterate destroyer of the clover "leys" in winter. In an agricultural section of British Columbia it is conceivable that the experience of the British farmer would be repeated, and if the birds increased there, as they probably would at a greater rate than in Britain, their introduction might prove to be nothing short of disastrous.

Far more serious might be the establishment of the tit family in a district where fruit is grown. The tit is an inveterate destroyer of fruit buds, and is not even satisfied to stop at that. In England the great and blue tits make sad havoc in the orchards when the pears and apples begin to ripen, it being their tiresome habit to peck small holes near the stalk of the fruit, so that decay immediately sets in and the fruit is useless for marketing. The amount of damage that a single family of tits can cause—and they invariably forage in companies—is extraordinary, for the birds are not content to finish the fruit they have begun, but spend their whole time in "sampling," so that in a very short time half an orchard may be ruined.

**WHAT FOLLOWED A CUT.**

**A Magistrate's Wonderful Experience With Zam-Buk.**

Mr. J. E. Arsenault, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Ry., has had a wonderful proof of the healing power of Zam-Buk. He says:

"Four years ago I had an accident. I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer and later into a form of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up.

"After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse.

"This was my condition when I got my first box of Zam-Buk. Greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better. I could see that at last I had got hold of something which would cure me, and in the end it did.

It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema or any trace of it."

**Roumanian Grim Crown.**

Roumania's royal crown is perhaps the grimmest in the world. It was made, by command of King Charles, from the steel of a Turkish gun captured at Plevna. On May 10, 1881, after this and the simple golden crown, without jewels or ornaments, made for the queen, had been consecrated, King Charles took his crown into his hands with the words: "I assume with pride this crown, wrought from a cannon sprinkled with the blood of our heroes and consecrated by the church; I accept it as a symbol of the independence and power of Roumania."

**Began with Itching Sensation. Kept Awake at Night. Caused Great Pain. Thought Operation Only Cure. Cuticura Soap and Ointment Entirely Cured in 6 Weeks.**

54 Strange St., Toronto, Ontario.—"I suffered for two months with the piles. They first began with a sudden itching sensation which used to keep me awake at night. I tried different kinds of ointment to stop the itching which did not prove valuable in the least and to my surprise after a few weeks they began to bleed. I did not know what to do as they caused me great pain. I began to think that an operation was the only cure for them. I heard of Cuticura Soap and Ointment and decided to try them. I sent for a sample and after using them a few times I found out to my great relief they gave me less pain and later on the bleeding began to cease. I got some more and continued with the Cuticura Ointment and Soap. I began to get better sleep at night and after six weeks' careful treatment I find that I am entirely cured." (Signed) A.
