

## Were Tried and Stood the Test

**DODD'S KIDNEY PILLS MAKING A REPUTATION IN THE WEST.**

**Saskatchewan Man Tells How They Cured Him, After Four Months' Suffering from Backache and Other Forms of Kidney Disease.**

St. Phillips, Sask., April 21 (Special).—In a new country, where changes of climate and impure water are among the difficulties to be surmounted, kidney trouble is prevalent. It is the kidneys, the organs that strain the impurities out of the blood, that first feel any undue strain on the body. Consequently, Dodd's Kidney Pills have been well tried and tested in this neighborhood.

They have stood the test. Many settlers tell of backache, rheumatism and urinary troubles cured by Dodd's Kidney Pills. Mr. Otto Olszewski is one of these. In speaking of his cure he says:

"I suffered from kidney disease for four months. My back ached, I had heart flutterings, and was always tired and nervous. My skin had a harsh, dry feeling; my limbs were heavy; and I had a dragging sensation across the loins.

"I consulted a doctor, but, as I did not appear to improve, I decided to try Dodd's Kidney Pills. I used six boxes, and now I am all right."

Dodd's Kidney Pills always stand the test. Ask your neighbors.

### The Origin of the Heel.

It is said that the heels now worn on shoes had their origin in Persia, where they took the form of flat wood on sandals to raise the feet and protect them from the hot sands. It was many years afterward that this fashion was introduced into Venice, but the reason for its adoption in this case is said to have been quite different. Here the originators of the fashion were jealous husbands, who reasoned that their ladies thus equipped would not venture far outside the precincts of their dwelling. These heels were called "clogs," and in order to satisfy the vanity of the wearers and perhaps to sweeten the pill—that is, the discomfort of appearing in them—they were elaborately adorned, sometimes being encrusted with gold and silver. The height of the clogs determined the rank of the wearer.

## NEW COMPASS FOR WIRELESS

**Clever Contrivance Tells Sender Direction of Distant Station.**

With the new Telefunken wireless compass the direction of a distant wireless station may be found. To carry this out, the sending post is provided with a certain number of antenna, each of which sends out waves in a certain direction on the horizon, so that by connecting the apparatus on to Antenna No. 1 the waves travel north, No. 2 to north-east, and so on. In reality there are used as many as 16 different points of the compass.

To connect in each antenna in turn there is used a contact drum rotated by an electric motor. A separate antenna sends out a time signal in tall directions. Just after the time signal is sent the drum rotates so as to connect on one antenna after the other. At the distant station the operator has a watch device with a hand rotating around a dial at exactly the same rate as the drum. When he hears the time signal he presses the watch button and the hand commences to rotate. At a given time one of the signals comes in his direction, and here the sound is loudest, so that he stops the watch, and now the hand points to the direction of the other station.

The time of each rotation is one-half minute, and he can repeat the observations so as to arrive at an accurate result. It is said that the method is accurate to within three or four degrees.

## DR. TALKS OF FOOD.

Pres. of Board of Health.

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my judgment a large percentage of disease is caused by poorly selected and improperly prepared food. My personal experience with the fully-cooked food, known as Grape-Nuts, enables me to speak freely of its merits.

"From overwork, I suffered several years with malnutrition, palpitation of the heart, and loss of sleep. Last summer I was led to experiment personally with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were properly carried out and I again slept as soundly and as well as in my youth.

"I look upon Grape-Nuts as a perfect food, and no one can gain-say but that it has a most prominent place in a rational, scientific system of feeding. Any one who uses this food will soon be convinced of the soundness of the principle upon which it is manufactured and may thereby know the facts as to its true worth." Name given by Canadian Postum Co., Windsor, Ont.

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

A teacher asked his class what the four seasons were, whereupon a little boy replied, "Salt, mustard, vinegar and pepper."

## CLEVER NEW BURGLAR TRAP

Placed in Front of Counter, Automatically Imprisons Thief.

An ingenious device is the invention of Mr. William Norreys, of Yattendon Road, Horley, England. It consists of a false floor, which may be constructed in front of the counter or whatever other part of the shop or office a thief might be expected to stand upon. This floor, which covers a pit, is supported by projecting pins, which can be withdrawn into their sockets by means of a lever worked by a brass rail on the shopman's side of the counter and running along the whole length of it. The floor being set free to fall, the thief upon it sinks, quickly into the pit, alighting upon spring or pneumatic shock-absorbers, that he may not be injured. His weight works another lever, which causes a sliding door to close over the mouth of the pit. The device can be set at night for burglars or safe-breakers, the retaining pins being so adjusted that the false floor will fall under the added weights of a burglar.

Even a reputation will get rusty if you don't keep it in constant use.

## If Breathing is Difficult, If Nostrils are Plugged, You Have Catarrh

**At Last a Remedy That Already Has Permanently Cured Thousands.**

Perhaps you haven't heard of the new remedy—it's so pleasant to use—fills the nose, throat and lungs with a healing balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia. The name of this grand specific is Catarrhzone, and you can't find its equal on earth for coughs, colds, catarrh or throat trouble. You see it's no longer necessary to drug the stomach—that spoils digestion—just simply inhale the balsamic essences of Catarrhzone, which are so rich in healing that they drive out every trace of Catarrh in no time.

"I look upon Catarrhzone as the most valuable medical discovery of recent years," writes R. V. Potter, of Prince Albert. "As a long sufferer from nasal and throat catarrh I was obliged to take considerable medicine, and, although it helped me, my digestion was always disturbed and the catarrh didn't go away. With Catarrhzone it was different. It cleaned my nose and throat of all phlegm and discharges, enabled me to breathe freely, relieved a stuffy feeling in my nose and frontal headaches. To-day I am entirely free from catarrh, and I use my Catarrhzone Inhaler a little every day in order to prevent the disease from returning."

With Catarrhzone experimenting ends. A permanent curative action begins. Lasting relief from Catarrh results. The large size costs \$1.00, last two months and is guaranteed. Small size 50c.; sample size 25c. All storekeepers and druggists, or The Catarrhzone Co., Buffalo, N. Y., and Kingston, Canada.

## TO GET GREAT HORSEPOWER.

Lay Trial Tidal Plant at Schleswig-Holstein.

Millions of horsepower are going to waste which the sea could furnish us if only some practical way of running a tidal plant could be found, says the Polytechnical Review. The idea is in the air at present and there are several projects in hand which are likely to be taken up before long. One of these is brought out by Engineer Pein, of Hamburg, and he proposes to lay out two large basins on the sea coast in Schleswig-Holstein. Two tidal basins are used and the water takes a swift flow between the basins on somewhat the same plan as has been used on a modern scale and for running as large a plant as the 5,000-horsepower one which he is now designing. Part of the work is already done by a 1½-mile jetty in the sea connecting with Nordstrand island. The basins will have 2,500 and 1,000 acres surface and the height of the waterfall between them is four or five feet, so that with a great volume of water it is possible to run a set of 500-horsepower turbines, ten in number, so as to have 5,000-horsepower. This is only a trial plant, and should it succeed a much greater amount of power can be obtained in this way by using larger basins and in greater number, as the sea will give an unlimited amount of power.

A fool says, "I can't," a wise man says "I'll try."

## NEBUCHADNEZZAR'S PALACE.

**Priceless Treasures Lie Buried Everywhere.**

From the engineer's camp I followed the course of the old river of Babylon down to the famous City of Nebuchadnezzar, where the German Oriental Society is digging up the records of 4,000 years ago, writes a correspondent. I saw the famous stone lion; the bas-relief of Nebuchadnezzar himself, with his quaint curly beard; the stone goose which was the standard measure of weight in Babylonian grocery stores; the odd tribe of kinky-tailed cats; the thousands of queer dishes, urns, vases, utensils, figures of men and beasts, bath-tubs, bowl-shaped coffins and cuneiform tablets which have been unearthed by the careful Germans. They showed me the magic name of Nebuchadnezzar stamped on numerous bricks, and I walked through the very banquet hall where, peradventure, the handwriting came on the wall at the feast of Belshazzar and "a thousand of his lords." On the perfectly preserved walls of the palace I beheld the strange figures of mythological beasts and the everlasting bull, which held a high place in Babylonian worship. Under German guidance a host of Arabs have toiled—dug for a quarter of a century—digging carefully, as they dig at Pompeii, not to crack or ruin the priceless treasures which lie buried everywhere. And each day brings some new surprise.

## Are You Droopy, Tired, Worn Out?

Here is Good Advice to All Who Feel as if Their Vigor and Life Had All Oozed Away.

This Condition Can be Quickly Cured by a Good Cleansing Medicine.

Your experience is probably somewhat similar to that described by Mr. J. T. Fleming in the following letter from his home in Lebanon: "I think I must have the most sluggish sort of a liver. In the morning my mouth was bitter, and that foul, soft feeling that tells you 'No breakfast needed here this morning.' A cup of coffee would sort of brace me up, but in two hours I was disposed to quit work, all energy having oozed out of me. Supper was my only good meal, but I guess I didn't digest very well, for I dreamt to beat the band. A friend of mine put me wise to Dr. Hamilton's Pills. I think they must have taken hold of my liver, perhaps my stomach, too, because at the very start they made things go right. Look at me now—not sleepy in the daytime, but hustling for the mighty dollar and getting fun out of life every minute. That's what Dr. Hamilton's Pills have done for me—they have rebuilt and rejuvenated my entire system."

To keep free from headaches, to feel young and bright, to enjoy your meals, to sleep sound and look your best, nothing can help like Dr. Hamilton's Pills, 25c. per box, five for \$1.00 at all druggists and storekeepers or postpaid from The Catarrhzone Co., Buffalo, N. Y., and Kingston, Canada.

### Effective Remedy.

A prominent physician was recently called to his telephone by a colored woman formerly in the service of his wife. In great agitation the woman told the physician that her youngest child was in a bad way. "What seems to be the trouble?" asked the doctor. "Doc, she swallowed a bottle of ink!" "I'll be over there in a short while, to see her," said the doctor. "Have you done anything for her?" "I gave her three pieces o' blotting paper, Doc," said the colored woman doubtfully.

## ITCHY BURNING ECZEMA ON FACE

**Very Bad Case. Little Blisters Broke and Formed Scabs. Thought Would Be Disfigured for Life. Used Cuticura Soap and Ointment a Month. Completely Cured.**

Cold Brook, St. John, N. B.—"Cuticura Soap and Ointment certainly cured my little girl of a very bad case of eczema. She had eczema on her face for almost two years. First little white blisters covered her face, then these would break and form scabs, and they were very itchy and burning. I used to have great trouble in getting her to sleep at night. She scratched so I had to do all I could to prevent her, for sometimes she would scratch the scabs off and then it would be very sore and burning. She was certainly a great care. I treated her for it and also used different kinds of blood medicine, and ointment but got no cure. I thought she would be disfigured for life.

"It had lasted about two years when one day I saw an advertisement for Cuticura Soap and Cuticura Ointment in the paper so decided to give them a trial. I had not used them for more than a month when she was completely cured. I cannot praise Cuticura Soap and Cuticura Ointment enough. Of course I continue to use Cuticura Soap as I find it the best soap on the market for children." (Signed) Mrs. John Newman, Dec. 30, 1911.

Cuticura Soap and Cuticura Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post card to Potter Drug & Chem. Corp., Dept. 30D, Boston, U. S. A.
