MEASLES STILL UNCHECKED.

Nearly Fourteen Hundred Cases and Eighteen Deaths in May.

A despatch from Toronto says: The epidemic of measles that has been ravaging the province for the past few months shows no sign of abating. During May, according to the returns of the Provincial Board of Health, there were 1,398 cases, of which 18 resulted in death. Last year's May figures showed only 588 cases and 15 deaths. While there is twice as much measles in Ontario as a year ago, the figures do not give an entirely accurate comparison, owing to the fact that up to last Fall quarantine was not required for cases of this disease, and returns were anything but complete. The great difficulty the health department has experienced in fighting measles is that the average person does not consider the disease a serious one, and necessary precautions are neglected. It is a fact, little realized, that measles, whooping cough, etc., regularly claim more victims than smallpox and typhoid. The May returns, apart from measles, show an improved state of health generally, the increase in tuberculosis cases being due to more complete returns.

SKIRT CAUSED TWO DEATHS.

Passenger's Dress Caught in Lever and Aeroplane Fell.

A despatch from Buc, France, says: The French airman, Auguste Bernard, and a passenger, Mme. Rose Amiel, were killed on Thursday under unusual circumstances while making a flight here. SUCCESSION DUTIES.

May Returns Nearly \$40,000 Less Than Previous Year.

A despatch from Toronto says: After keeping ahead of last year's figures for six months, succession duties have at last taken a drop, the May returns with a decrease of \$40,000, being responsible. The total from succession duties for the seven months to date amounted to \$456,611.69, compared with \$467,992.98 for the corresponding period last year. The May duties were \$70,717.32, compared with \$110,617.14 in May, 1912.

Burbidge, stores commissioner, who has just returned from England. The building, which will be erected on the company's million-dollar site between Colony and Vaughan Streets, will be 65 feet high, and provision will be made for additions later. Work is to be commenced at once. There will be 24 acres of floor space, and the building will house 100 different departments.

UNSPRAYED APPLES.

Scotch Apple Buyer Says They Are Almost Unsaleable.

A despatch from London, Ont., says: Notwithstanding the recent severe frosts, the fruit prospects are excellent. As for the probability of a brisk demand for apples this season, Mr. J. H. Fleming, a leading apple buyer and packer, has had a very good proposition from a Scottish firm, James Lindsay & Son, of Glasgow and Edinburgh, who say: "We are glad to hear you say that there are 76 orchards cultivated, pruned, and sprayed, and it is these orchards you want to secure if you buy for us, as unsprayed apples are now almost unsaleable, and you want to give them the go-by."

MUST HAVE \$25.

Relaxation of Regulations No Longer Necessary.

A despatch from Ottawa says: Owing to the present stringency of the money market and the possible consequent decline in building operations and industrial development it is felt by the Hon. Mr. Crothers, Minister of Labor and Acting Minister of the Interior, that a continuance of the relaxation of immigration regulations in regard to money qualifications, increasing materially as it does the inflow of other than agriculturists, is no longer justifiable. Instructions have been issued to the officers of the Department of Immigration that immigrants arriving on and after July 1 must have in their possession \$25 each, as required by law.

Sutton and Alfred Scribner of Brimley, slipped his hand from his handcuffs and, drawing a revolver, turned it on both men and shot them dead. PROHIBIT FIREWORKS.

Accidents and Fires Start Movement in Brantford.

A despatch from Brantford says: A by-law is to be introduced by the City Council prohibiting the sale of fireworks here, following five accidents to children and suspicious fires. No serious damage to buildings is reported, but numerous breakages took place of household utensils and ornaments which were thrown from shelves and mantel pieces. The quake seemed to come in two distinct waves. Many citizens left their homes and took their children some distance away from all buildings for fear of a recurrence of sufficient force to demolish their homes.

PUT CARD IN BANANA.

West Indian Girl Weds Toronto Man as Result.

A despatch from New York says: When Miss Evelyn Bayley several weeks ago watched the men on her father's plantation in Jamaica carrying fruit on board a steamer, she pushed a visiting card beneath the skin of a banana. It eventually reached J. E. Powell, a broker, of Toronto. Mr. Powell was called to the West Indies on business. At a dance in Jamaica he was introduced to the owner of the card. On Wednesday he returned to New York with "Mrs. Powell."

PIRATES SLAY PASSENGERS.

A passenger on the steamer was killed and the engineer and several members of the crew were wounded in a fight with the robbers.
