UNCLE JOE'S WRITING.

Uncle Joe Cannon writes a very illegible hand, and when a member of the United States Congress received a letter from him one day he was able to read but a single word. He disliked to bother Mr. Cannon, so he went to several friends among the congressmen and finally the letter, except for one word, was made out.

This word seemed very important, as it was underlined, but as neither the congressman nor his friends could make it out he thought he would consult Mr. Cannon himself. He told him of his trouble in reading the letter and explained that with help from sev-

eral other members of the House he had made out all but the word in question.

Cannon looked at his letter, and then at the congressman, and then again at the letter, his face meanwhile taking on a peculiar expression. Finally he looked at the congressman and with mingled anger and laughter said: "Why, you fool, that word is 'confidential.'"

VICTIM OF DEVIL'S WILES.

Extricated From Living Tomb After Hours of Effort.

A "victim of the Devil," a middle-aged Northern Chinese has been taken to the Government hospital at Hong Kong, China, after being extricated with great difficulty from a living tomb among the rocky heights that guard the approaches to the city.

The man's legs and arms were observed by some grass cutters through fissures in the rock. The police who were summoned searched all day, but failed to find any exit, the widest opening in the rock not exceeding six inches. The man's invariable answer to the repeated inquiries of an interpreter were "the Devil put me here."

Beyond this remark, nothing could be gleaned from him. Subsequently firemen and police worked for hours with chisels and crow-bars to remove part of the boulder beneath which the man was pinned, but the rock proved too hard. A number of artillerymen then tried, but at midnight they were marched back to the barracks, having accomplished nothing.

Some Chinese quarrymen were requisitioned, but they refused to touch the boulder owing to their superstitious fears of the "devil" who had imprisoned the man. The next day a party of sailors from a United States warship succeeded in making an opening large enough to allow of the man crawling out. The man, who is a complete stranger in the locality, was not seriously injured, though his mind appeared to be affected by fright and shock. How he found himself in this amazing situation remains a mystery.

Do Your Looks Quite Satisfy You?

If Your Color Is Bad, If You Suffer From Pimples, Here Is Good Advice.

Fine Results in Two Weeks.

Miss Nettie E. Callaghan, a well-known young lady in Middleton, writes as follows: "I was affected for two years with a rash, and ugly looking pimples that spread over my face. My color was poor, and my blood evidently completely out of order. Certainly it was a most despairing sort of a case, because various treatments did but little to help me. A friend of mine in Toronto, Ont., advised me to get Dr. Hamilton's Pills, so I sent at once for five boxes. In two weeks I felt like new—looks improved, spirits rose, and I felt I was getting well. I have used this remedy for a long time, and now wouldn't be without it." If you are in ailing health, have blood disorders, stomach trouble, or headaches, Dr. Hamilton's Pills will help you quickly. All druggists and storekeepers sell Dr. Hamilton's Pills of Mandrake and Butternut. 25c. per box, five for \$1.00. Sent postpaid by the Catarrozone Co., Buffalo, N.Y., and Kingston, Canada.

"I'll take it, of course," said the puzzled woman, "but Mandy, won't you need money to spend on your honeymoon?"

"Miss May," said the bride, "does you think Ise goin' to trust myself wid a strange niggah an' all dat money on me?"

Surprised.

LONG LIFE IN BIG CITIES.

German Statistics Show 546 in 1,000 Reach Age of 50.

Life is longer in the German cities than in the small towns. This is the discovery announced by the German Statistical Bureau, which has published figures showing that 546 persons in each 1,000 in cities of more than 100,000 inhabitants reach the age of 50, compared with 539 reaching the same age in cities of between 20,000 and 100,000, and 544 in towns of fewer than 20,000 inhabitants.

These figures pay a remarkable tribute to German efficiency, said Prof. A. Frankel, director of the Municipal Hospital of Berlin. We believe that speed in the cities tends to shorten life, but it helps to cure other evils. We believe that one of the principal reasons for life being longer in cities is that medical attention is prompt and expert at the same time. In small towns there are fewer physicians and hospitals, and often a patient dies when efficiency might have saved his life.

Another great reason for longer life is the success of the recent campaign aimed at saving babies in the large cities through giving free instruction and assistance to mothers in the care of infants and providing pure milk, free nurseries and supplies.

This is a difficult matter in the smaller cities because of the lack of organization. The result is that 39 more babies in every 1,000 live through the first year than was the case 10 years ago.
