## RACE BETTERMENT.

Important Conference Will Be Held at Battle Creek, Michigan.

A working plan having as its ultimate purpose the building of a perfect race of mortals is to be formulated at the National Conference on Race Betterment to be held in Battle Creek, Michigan, on January 8, 9, 10, 11 and 12, 1914.

Intermediately the plan contemplates gradual betterment of living conditions, the achievement of increased human efficiency; and higher standards of physical and mental development.

For several years increasing interest has been centred upon the problems which the Conference has elected to consider. The much-discussed eugenics movement is one of the channels in which this interest has been manifested. The well-defined feminist movement is another out-cropping of the general groping for new race ideals. These and correlated topics will be considered at the coming Conference.

The organization of a national body to continue the work inaugurated by the Conference itself, will be affected. This national body, it is anticipated, will arrange for annual meetings and in a very short time will lay the foundation for a world movement for an improved race.

The list of those who will take part in the Conference includes many men and women of national prominence.

During the progress of the Conference there will be a comprehensive mental and physical classification of several hundred school children, which will take into consideration the effect of heredity and environment upon the offspring.

Standards of mental and physical perfection will be determined and a general campaign to secure the world-wide adoption of these standards as a true test of mankind will be among the other topics to be considered by the Conference.

## When a Woman Suffers With Chronic Backache

There Is Trouble Ahead.

Constantly on their feet, attending to the wants of a large and exacting family, women often break down with nervous exhaustion.

In the stores, factories, and on a farm are weak ailing women, dragged down with torturing backache and bearing down pains.

Such suffering isn't natural but it's dangerous, because due to diseased kidneys.

The dizziness, insomnias, deranged menses and other symptoms of Kidney complaint can't cure themselves, they require the assistance of Dr. Hamilton's Pills which go direct to the seat of the trouble.

To give vitality and power to the kidneys, to lend aid to the bladder and liver, to free the blood of poisons, probably there is no remedy so successful as Dr. Hamilton's Pills. For all womanly irregularities their merit is well known.

Because of their mild, soothing, and healing effect, Dr. Hamilton's Pills are safe, and are recommended for girls and women of all ages. 25 cents per box at all dealers. Refuse any substitute for Dr. Hamilton's Pills of Mandrake and Butternut.

## Ideal Protection Against Inroads of Catarrh

Also Quick Cure For Colds.

No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrh-ozone." Doctors, hospitals, sanitariums, all say that for those who suffer from changeable weather, for those who are predisposed to catarrh, lung trouble, deafness, or bronchitis, no treatment is so indispensable as "Catarrh-ozone."

I contracted a severe cold while following my occupation of furniture travelling, and eventually it developed into Catarrh. The desultory mode of life I was following gave me very little chance to attend to the Catarrh condition, and at last I became a victim of Chronic Catarrh. I bought a large package of Catarrh-ozone, used it as per directions, and have never been bothered since. I will be only too glad to give any information I possess to any person suffering from the disease that was the bane of my life two years.

### THE WORLD'S BOOK LIST.

Germany Leads the World, With Russia Second.

The Madrid Herald prints some statistics of the number of books published in 1911, that throw an interesting light on the literary and intellectual activity of various nations, and incidentally reveal some surprising facts. The statistics have been gathered with great care by the distinguished Spanish author, Eduardo Ravarro Salvador.

According to the figures of Senor Salvador, Germany leads the world in the number of books published with 33,000. Of course that is the number of literary works published, not the total number of books printed.

Strangely enough, Russia is second with 29,000. Twenty-four thousand works were published in Japan—more than double the number, 11,123, that the United States produced. Great Britain, Italy, France and Switzerland follow close on the United States; these countries published respectively, 11,000, 10,929, 10,400 and 10,000 works. Austria-Hungary published 7,000 books; the Scandinavian countries—Denmark, Sweden and Norway,—6,475; the Balkan states, 4,000; Holland, 3,700. Spain and Portugal set the low water mark of literary achievement; only 2,665 works were published in these two countries.

That Russia and Japan should each produce more than twice as many literary works as the United States is not more surprising than that the United States and Switzerland should publish virtually the same number. The low mark of Spain and Portugal, countries in which culture has existed for so many centuries, and reached so high a standard, is also worthy of comment.

Considered in connection with the population of the countries, these statistics are still more startling. Switzerland, for instance, published four times as many works per capita as its nearest rival. It leads the world with 2,702 for each million inhabitants. The other countries follow in this order: Holland, Japan, Germany, Italy, France, England, Russia, the Balkan states, Austria-Hungary, Spain and Portugal; and last of all,—with only 122 books published for every million inhabitants,—the United States.

## WOMEN IN AFRICA.

Have the Privilege of Marrying Whom They Please.

Although woman in Africa is regarded as property she has certain rights, which are seldom infringed upon, and of these the most important is her right to marry whom she pleases, or rather to refuse to marry one who does not please her, says the Southern Workman.

There are two reasons for this. First, women married against their wills have been known to commit suicide. Second, women married against their wills have murdered their unloved husbands, usually strangling them when asleep. So, in forcing one's self upon one of these women there is liability to a great loss—the loss of valuable property or of no less highly prized life.

The young girls are well cared for, partly that they may be comely and draw many suitors. Every girl will tell you frankly that she wishes to marry and have a good husband and children. Every father is anxious to have his daughters marry well. To obtain a wife one must pay a dowry in cattle to the father, or, should the father be dead, to the nearest male relative. If a girl is much sought after, her father naturally asks a larger dowry. When the man has paid part of the dowry the father may give consent to a provisional marriage and permit the couple to live together. Should the husband be too slow in paying the remainder of the dowry his wife is taken from him.

Trial marriages are common and can be set aside by either party. Their principal objects in marriage are mutual helpfulness and the perpetuation of the race.

## Very Sick—No Doctor; How Aid Was Secured

The Experience Not Uncommon.

The person who suffers from a stomach ailment, if far from a doctor or drug store, is bound to be extremely miserable. Such was the case with Mr. Johnson E. Evans, a well known farmer living near Edmonton, who writes: "My stomach got upset I think owing to bad water. I found great pain after eating. There was swelling and much gas in my stomach and no person could have been more miserable. Away out in the country it is not easy to get medical attention except at great cost, and I had to do without. A neighbor who heard of my condition sent me a partly filled bottle of 'Nerviline.' The first dose eased the pain in my stomach. How good that relief was I will never be able to tell. Nerviline cured me. Today our home is supplied with many bottles of Nerviline. No farmer should be without it, because if it's cramps, diarrhoea or internal pain, Nerviline is a dead sure cure."

Sold by every storekeeper and druggist. Family size 50c., trial size 25c., prepared by The Catarrh-ozone Co., Buffalo, N.Y., U.S.A.

### How She Carried the News.

The little maid stood in the parlor doorway, one hand on the door-knob. For a moment she gazed at her father, who was preparing to take his afternoon nap.

"Papa," she said, "do you know what I am going to give you for your birthday when it comes?" "No, dear," answered the fond father, "but please tell me."  
"A nice new china shaving-mug, with gold flowers on it all round," said the little maid.  
"But, my dear," explained her parent, "papa has a nice one like that already."  
"No, he hasn't," his little daughter answered, thoughtfully, "cause 'cause I've just dropped it!"
