

This Store  
Recommends  
**JAP-A-LAC**  
because it gives a  
"finish" to any  
household article  
that no mere var-  
nish can give.

**JAP-A-LAC—  
the Furniture-Saver**

WHEN you start on your campaign of home-beautifying this Spring, don't just ask for "varnish"—ask for JAP-A-LAC; and don't be content with anything but JAP-A-LAC. Always put up in Green Tins, bearing the name "GLIDDEN."

Made in 21 beautiful colors, providing for every possible requirement of the housewife, JAP-A-LAC is indeed a wonder-working aid in keeping furniture, floors and woodwork "spic and span."

No matter how badly scratched or marred a piece of furniture may be, a coat of JAP-A-LAC will make it look like new. It covers up the scratches and produces a beautiful, brilliant, durable finish. Quickly and easily applied. No experience required.

Ask your local hardware store for the JAP-A-LAC color card and book entitled "A Thousand and One Uses of JAP-A-LAC."

**EDUCATED CLASS DECREASES**

**Feminist Movement Menaces Its  
Supremacy**

Edwin Brant Conklin, head of the department of biology in Princeton University, in a lecture, declared that the time has come when society must take account of the immense importance of heredity in the development of an individual. "Hitherto all the attention of society has been fixed on education and environment," he said. "Hereafter, more attention must be given to improvements of heredity or eugenics."

At the present rate of reproduction, Prof. Conklin said, the more highly educated classes would be unknown within a period of fifty years. Eugenics is right, he continued, in insisting that the higher classes pay more attention to reproduction. The lower classes are increasing in number and the outcome of it will be that the higher classes will be swallowed up by the lower, he said.

Prof. Conklin decried the feminist movement of to-day, because it shows unmistakable signs of women escaping the duty of motherhood, a sign which means degeneration of the race in time, he said.

**World's Output of Iron**

According to a return of the British Board of Trade, the world's output of iron ore in 1912 was about 152 million tons, a figure which represents an increase of 10 per cent. on the previous year's production. The principal producing countries were the United States, Germany, France, the United Kingdom, and Spain, in the order named.

America, Germany, and the United Kingdom accounted for about seven-ninths of the world's output of pig-iron, estimated at seventy-two million tons, and for three-fourths of the aggregate production of steel amounting to about fifty-five million tons.

**MOTHERS' PENSION PLAN**

**Novel Undertaking by People of an  
Indiana Town**

A mothers' pension plan is in effect in Evansville, although there is no law in Indiana creating a mothers' pension fund.

The pension arose in this way. Mrs. Alice Kelley, widow, announced through a newspaper that she would be forced to give away two of her children. She said that since the death of her husband she had earned a scant living at the washbub, but that her health had begun to fail and she felt she could bear the burden no longer.

Mrs. J. H. Conn, president of the Cumberland Circle of King's Daughters, took up the matter, and several other people in the city became interested and agreed to give Mrs. Kelly a certain sum each week for one year. This led to the organization of Mothers' Pension Club No. 1, and the club has paid Mrs. Kelly \$2.50 each week.

**An Awkward Motto**

A good story relating to the Erskine family motto is recalled by the recent death of Lord Erskine, who was a great-grandson of the famous first Lord Erskine, Lord Chancellor of Great Britain. For centuries the family motto had been "judge not." When the first Lord Erskine became Lord Chancellor, chief of all the judges of the Empire and the Sovereign's legal adviser, the motto was obviously an awkward dictum to appear on the panels of his carriage and elsewhere. His Lordship proved himself to be a man of the times and invented a new motto for himself—"Trial by jury"—which has ever since appeared beneath the family arms.

Mirrors can be backed with almost any metal in 30 seconds by a new process of electrodeposition in the presence of hydrogen gas.

**Largest Hats in the World**

What would you think of a hat that was so large it would safely shelter your father, mother, sisters and yourself under it should a sudden rain-storm come up? The men of Korea like these enormous hats and would not feel properly dressed without them. These hats look like great flower pots set on a round table six feet across. The crowns are nine feet in height, and three inches wide, much like a chimney on a one-story house. How do you suppose these large, round head coverings are kept on? Under the brim is a small, closely-fitting cap, held on by a padded string which ties under the ears. The material of these hats is bamboo, so finely split that it is like thread; and, lastly, they are varnished to keep out the sun, and rain, and the wind.

**Red Indian Tango**

The Red Indian has caught the tango fever. The whole Shoshone nation of Nevada Indians has learned the dance, and the old tribal gyrations are now entirely discarded. The Indians of the White Pine country have started the construction of a large hall to be devoted exclusively to the practice of the tango. Three Indian maidens, who have mastered its intricacies, are besieged with pupils eager to pay \$2.50 for a lesson.

**More Armed Liners**

The Wilson Line, in conjunction with the Admiralty, are equipping several of their ships with 4.7-inch quick-firing guns. The liner Francisco, which left for New York recently carried a quick-firer for the first time in her stern. In each case the gun is fitted in a stern angle of but 20 degrees so it can only be used for defensive purposes and whilst being pursued.

The liners all run between Hull and New York, and carry grain and food cargoes, the idea being that guns would be useful for protection from small attacking craft.

**Cancer in Trout**

Dr. Gaylord found that about 5 per cent. of the 100,000,000 trout bred in New York State, many of which are served in the expensive hotels and restaurants disclosed germs of cancer and gottre. There is no doubt, he adds, that susceptible persons drinking water which the infected fish inhabit acquire the diseases.

**NEW TELEPHONE  
DIRECTORY**

The Bell Telephone Company of Canada is soon to print a new issue of its Official Telephone Directory for the district including

**FENELON FALLS**

**Money Urgently Needed!**

Their lot was never an easy one, even under favorable conditions. They had to struggle along through sheer hard work and hand-to-mouth pinching and scraping. Then came the blow. The husband was stricken down with tuberculosis. The wife was left with four little ones to keep. But she faced the future bravely, buoyed up by the hope that some day her husband will come back. In the meantime, she has to go out washing and cleaning every day, and then force her tired-out body to do her own work at nights.

Cases of this kind are numerous. They always call for prompt relief. For unless consumption is quickly treated its terrible effects hurt many beyond the first victim. At this moment money is urgently needed so that medicine, nourishment, and treatment may be taken to sufferers. We implore you to contribute something NOW. Please don't delay; the situation is serious.

Contributions to the Muskoka Free Hospital for Consumptives will be gratefully acknowledged by W. J. Gage, Chairman Executive Committee, 84 Spadina Avenue, or R. Dunbar, Secretary - Treasurer, 347 King Street West, Toronto.

**Corson's  
Ideal Orchid  
Talcum Powder**

—is the most refreshing  
and pleasant of all talcs

Its elusive fragrance, cool-  
ness and antiseptic qualities  
have placed it foremost  
among talcums and made it  
the favorite of many users.

The high quality of the talc—its fine-  
ness of texture and the coolness  
of the perfume that gives it its frag-  
rance are not equalled in any other  
talc you can buy.

All Druggists, 25c. tins.

**The King of Ranges— "BUCK'S HAPPY THOUGHT"**

THE day has gone past when a wise woman will put up with an inferior cooking apparatus. She has heard of

**The  
"Happy  
Thought"  
Range,**

*The Corrugated Oven*

and her neighbors tell her what it will do.

If by chance you do not know the merits of The "Happy Thought" you owe it to yourself to investigate. See the Range, look into the firebox and flues, weigh the covers, note the patented dampers, the ventilated, illuminated oven, the corrugated oven plates, and all the different features that make this Range so different and so superior.

You don't know true household comfort if you don't know The "Happy Thought" Range.
