

MR. G. W. CURRIE
Unionist M.P. for Leith Burghs.

LITTLE BRAIN WAVES

Man's instinct is to kill, woman's to kiss;

Scandal comes out with tea as sure as rash with measles.

The world doesn't judge a man by his own clothes, but by his wife's.

We have often wondered who furnished the tools for some of the self-made men.

Contradict yourself early and often; any fool can keep on holding the same opinion.

A great deal of what passes for dignity is nothing but genuine laziness.

The real hero of many a novel is the man who undertakes to publish it.

Women want everything a man has, except moustaches and bald heads.

A woman in her best clothes wants admiration; at all other times she prefers love.

The human race is divided into two classes—those who go ahead and do something, and those who sit still and inquire, "Why wasn't it done the other way?"

Refuse From Lumber

A Vancouver lumberman has estimated that "one ton of refuse goes to the burners for every thousand feet of lumber cut." In his own sawmill he has eliminated this waste by breaking up the refuse into small pieces which are manufactured into fuel briquettes at a cost of only \$3 a ton.

Substitute For Linseed

English paint manufacturers have found oil made from seeds of Brazilian rubber trees an acceptable substitute for linseed oil.

Building Land

Land is being built out to sea from the mouths of the Mississippi river at an estimated average rate of 300 feet a year.

MOST HAPPY SIGNS IN WESTERN CANADA

Increasing Interest in the Man on the Land and the Progress of Agriculture

The growing interest of all classes of people in the welfare of the man on the land, and the increasing desire for the progress of agriculture, are undoubtedly among the most hopeful of the signs of the present time in western Canada. The cry from agricultural Macedonia is being heeded, and most striking is the assistance which is being rendered and which has been promised by those interests composing the Boards of Trade of the cities and towns. Not long ago, when the fever of expansion was at its height in these urban communities, thousands of dollars, and volumes of energy were expended in a vain endeavor to acquire industries. Stimulated by a craze for profits in real estate, the general demand was for factories and an increased pay roll, and some municipalities got the factories without the increased pay roll. It has taken just a little longer than one year to establish a new commercial point of view in nearly every city and town in the west. In one aspiring city in Saskatchewan, which is situated in the very heart of a grain area of 3,600 square miles, the clamor for industries has given way to the slogan, "a man for every farm in the surrounding district." The President of the Edmonton Board of Trade, delivering his annual address recently, emphasized the same idea, encouraging development in the rural districts. These were his words in referring to the question of further manufacturing in this city: "I would first like to see those ninety-five factories and industrial enterprises we already have operating to full capacity and increasing their capacity. To double the output of existing factories is preferable to doubling the number of industries. I feel that work designed to promote agricultural development in our tributary territory should be vigorously continued, and the attention of outside agriculturists drawn in every possible way to the fact that between the Red Deer and the Athabasca Rivers lies probably the best mixed farming country on this continent. At present it is estimated that less than five per cent. of the good tillable land in the rich territory referred to is in use. To increase the production of the surrounding land is the surest way to increase the output of Edmonton factories."—Norman Lambert in The Globe.

HANDY POTATO CUTTER

Time and Labor May be Saved and Work Better Done

Twice the amount can be cut in a given time and the sets will be more evenly divided, if an easily made potato-cutter is used instead of the old method of cutting with knife held in the hand. All that is required is to fasten a one-inch board, six inches wide, planed on the upper side, to the top of a barrel or box, holding it on tightly by two deep cleats. A long, sharp, thin tableknife is fixed through the board in a slanting position. To cut, take the potato in both hands and push it lengthwise over the knife, dropping the sets into the barrel or box. Should the sets be too large, the juice of the potato will cause the two parts to stick together and they can then be cut either lengthwise or crosswise as desired.

Cost of British Navy

The following shows the cost of the British navy during recent years:

Year	Parliamentary Grant	Annual Expenditure
1904-5	£36,889,500	£36,859,681
1905-6	33,389,600	33,151,841
1906-7	31,869,500	31,472,087
1907-8	31,419,600	31,251,156
1908-9	32,319,500	32,181,309
1909-10	35,831,800	35,734,015
1910-11	40,603,800	40,419,336
1911-12	44,392,500	42,414,257
1912-13	45,075,400	44,933,169
1913-14	48,809,300	48,809,300

Gas Undertakings

There are 1,237 British gas undertakings in England and Wales, 260 in Scotland, 110 in Ireland, 161 in Australasia, 57 in Canada, and 15 in other British possessions, in addition to which there are 20 British companies owning gas works on the Continent and in other parts of the world.

Dairying in Holland

Holland manufactures about 143,000,000 pounds of butter and about 17,000,000 pounds of cheese annually.

Many Greenland women are braided on the sides of their heads, owing to their method of dressing the hair which is pulled back tightly and held in place by a ribbon.

NEW TELEPHONE DIRECTORY

The Bell Telephone Company of Canada is soon to print a new issue of its Official Telephone Directory for the district including

FENELON FALLS

Parties who contemplate becoming subscribers, or those who wish changes in their present entry should place their orders with the local manager at once to insure insertion in this issue

Connecting Companies

Should also report additions and changes in their list of subscribers, either to the local manager, or direct to the Advertising and Directory Department, Montreal.

MODEL FARM IN WEST

How It is Proposed to Colonize 14,000 Acres Near Kinsella

Mr. Albion Hunt and Mr. Hal Carlton of London, England, intend to colonize a tract of land of about 14,000 acres lying near Kinsella on the main line of the Grand Trunk Pacific, about 75 miles east of Edmonton. The novelty of the plan lies in the fact that the promoters will endeavor to attract in particular the man who has not had any previous experience in farming. They will have a model three hundred and twenty-acre farm in the centre of the tract. This model farm will be run on a strictly business basis while at the same time it will be of educational value. It will show the new settler how to erect the best and cheapest kind of houses and other buildings and the best manner of raising horses, cattle, hogs, poultry, grain, fodder, crops on a commercial paying basis. The model farm will also teach how to best handle the land itself from the initial breaking to the harvesting of the crops. Arrangements will be made for the marketing of all kinds of produce, and advice will be given as to the necessary equipment of the farm including both live stock and machinery. If the newcomer does not wish to buy equipment for use the first year, but is desirous of confining his operations to fencing, building and general initial development work, then the model farm will break his land and put in his crop at moderate prices. It has been arranged to temporarily house at Kinsella any settler while he is putting up a house and if those who are bachelors desire they may board at a low rate at the model farm. The project is somewhat of a co-operative one as everything will be bought in large quantities thereby reducing prices. Marketing will also be done on a co-operative basis to a great extent.

Money Urgently Needed!

Their lot was never an easy one, even under favorable conditions. They had to struggle along through sheer hard work and hand-to-mouth pinching and scraping. Then came the blow. The husband was stricken down with tuberculosis. The wife was left with four little ones to keep. But she faced the future bravely, buoyed up by the hope that some day her husband will come back. In the meantime, she has to go out washing and cleaning every day, and then force her tired-out body to do her own work at nights.

Cases of this kind are numerous. They always call for prompt relief. For unless consumption is quickly treated its terrible effects hurt many beyond the first victim. At this moment money is urgently needed so that medicine, nourishment, and treatment may be taken to sufferers. We implore you to contribute something NOW. Please don't delay; the situation is serious.

Contributions to the Muskoka Free Hospital for Consumptives will be gratefully acknowledged by W. J. Gage, Chairman Executive Committee, 84 Spadina Avenue, or R. Dunbar, Secretary-Treasurer, 347 King Street West, Toronto.

FENELON FALLS MARKETS

Fenelon Falls, Friday, Apr. 24, 1914

Wheat, Scotch or Fife, 80c. to 82c.
Wheat, fall, 85 to 90

The King of Ranges— "BUCK'S HAPPY THOUGHT"

The day has gone past when a wise woman will put up with an inferior cooking apparatus. She has heard of

The "Happy Thought" Range,

and her neighbors tell her what it will do.

If by chance you do not know the merits of The "Happy Thought" you owe it to yourself to investigate. See the Range, look into the firebox and flues, weigh the covers, note the patented dampers, the ventilated, illuminated oven, the corrugated oven plates, and all the different features that make this Range so different and so superior.

You don't know true household comfort if you don't know The "Happy Thought" Range.
