

## Best Money He Has Ever Spent

WAS WHAT C. HANSEN PAID FOR DODD'S KIDNEY PILLS.

Had Been Ailing for Six or Seven Years when He Took a Neighbor's Advice and Found a Complete Cure.

Mona, Man., May 4th (Special)—Mr. Cornelius Hansen, well known and highly respected here, is telling his friends of his simple but complete cure from a protracted illness. The facts in brief are: He had Kidney Disease; he took Dodd's Kidney Pills; they cured him. But let Mr. Hansen tell his own story.

"I was troubled with my kidneys for six or seven years," he says. "My back was so sore I couldn't get out of bed in the mornings. I tried medicines, but they did me no good. Then I met a neighbor, and he advised me to try Dodd's Kidney Pills. He said he had used them in his family for a long time and they were a great medicine.

"I bought six boxes of them, and by the time I had taken three of them I was feeling much better. Now I am quite well, and I think the best money I ever spent in my life was what I paid for Dodd's Kidney Pills."

Dodd's Kidney Pills are no cure-all. They simply cure sick kidneys. But they do all that is claimed for them.

## NEW TUBERCULOSIS CURE.

Intra-Muscular Injections of Antigenic Solutions and Ferments.

A new treatment for tuberculosis which, in the opinion of some of the principal experts in the disease, gives greater hope for a cure of the scourge than anything yet discovered, was described to the Academy of Medicine, Paris, at a recent sitting. The new method for combating the disease is the discovery of a young Swiss biologist, Henry Spahlinger.

The treatment, as ascribed to the academy, consists of combined intramuscular injections of antigenic solutions and of ferments, which are modified according to the condition of each patient. The treatment, it is claimed, causes the drying up of lung cavities and the disappearance of bacilli and stops the fever—three results which never have been obtained by any previous method for the cure of tuberculosis. The action of the infections is said to be extremely rapid on incipient cases.

In several cases described to the academy the patients were said to have been able to follow their usual occupations. Of 54 persons treated seventeen were said to have virtually been cured. Most of the other cases were still being treated.

The report on the new treatment was read by Professor Maurice Letulle. It was prepared by Professor Edmond Lardy of Geneva and Drs. Edmund H. Colbeck and Leonard L. B. Williams of London, all of them experts in lung diseases.

Spahlinger is not a doctor. Originally he was a lawyer, but abandoned law for science. He spent four years in work and \$100,000 of his private fortune in the research which led to his discovery.

## A Nova Scotia Case of Interest to All Women

Halifax Sends Out a Message of Help to Many People.

Halifax, N.S., Dec. 15.—When interviewed at her home at 194 Argyle St., Mrs. Haverstock was quite willing to talk of her peculiarly unfortunate case. "I was always 'blue' and depressed, felt weak, languid and utterly unfit for any work. My stomach was so disordered that I had no appetite. What I did eat disagreed. I suffered greatly from dizziness and sick headache and feared a nervous breakdown. Upon my druggist's recommendation I used Dr. Hamilton's Pills.

"I felt better at once. Every day I improved. In six weeks I was a well woman, cured completely after different physicians had failed to help me. It is for this reason that I strongly urge sufferers with stomach or digestive troubles to use Dr. Hamilton's Pills."

Dr. Hamilton's Pills strengthen the stomach, improve digestion, strengthen the nerves and restore debilitated systems to health. By cleansing the blood of long-standing impurities, by bringing the system to a high point of vigor, they effectually chase away weariness, depression and disease. Good for young or old, for men, for women, for children. All dealers sell Dr. Hamilton's Pills of Mandrake and Butternut.

## True to Mother.

Harold and Ralph were walking along the street when Ralph, with a smile, took his hat off to a lady on the other side.

"Who is that lady?" asked Harold.

"That is my mother."

"Do you always take off your hat to your mother?"

"Why, of course I do. Don't you?"

"I do to other ladies."

"Well, my mother's about the nicest lady I know. I think she's worth being polite to."

## The Beauty of Unselfishness.

The story is told of a famous lady, who once reigned in Paris society, that she was so very homely that her mother said one day. "My poor child, you are too ugly for any one ever to fall in love with you." From that time Madame de Cincourt began to be very kind to the pauper children of the village, the servants of the household, even the birds that hopped about the garden walks. She was always distressed if she happened to be unable to render a service. This good-will toward everybody made her the idol of the city. Though her complexion was sallow, her grey eyes small and sunken, yet she held in devotion to her the greatest men of her time. Her unselfish interest in others made her, it is said, perfectly irresistible. Her life surely furnishes a valuable lesson.

## She Smiled at Him.

A guest, who was doing full justice to an excellent dinner, was watched by the little daughter of his host with great astonishment for a while. Finally she smiled at him and said, "Oh, I do wish you were here to dinner every day!" The guest beamed with satisfaction. "Do you, my dear? Why?" he inquired. "Because," came the unexpected reply, "there won't be anything cold to eat to-morrow!"

## SCREAMED WITH PAIN OF SCALDED LEG

And Foot. In Bad State. Inflamed and Festered. Could Not Sleep. Completely Cured by Cuticura Ointment in Short Time.

Middle La Hve, N. S.—"My sister scalded her leg and foot very badly with a pan of boiling water. She suffered very much and her leg was in a bad state. The skin was red and inflamed and it festered. She suffered dreadful pain. She scalded it in the evening and could not sleep that night and could not bear to have anything near it.

"We tried \_\_\_\_\_ and \_\_\_\_\_ and then some \_\_\_\_\_ but everything seemed to make it worse and she just screamed for pain. I told my mother about Cuticura Ointment and we got a box immediately and bandaged up her foot and leg. Two applications made quite a difference and we kept on using it and in a short time her leg and foot were completely cured." (Signed) Miss L. Parks, May 17, 1913.

## HOW THE WORLD SLEEPS.

Most people sleep on their sides, with their knees drawn up.

Elephants always and horses commonly sleep standing up.

Birds, with the exception of owls 'uppu jo squarad fuzurey ept pur sleep with their heads turned tailward, over their back, and the beak thrust among the feathers between the wing and body.

Storks, gulls, and other long-legged birds, sleep standing on one leg.

Ducks sleep on open water. To avoid drifting shoreward they keep paddling with one foot, thus making them move in a circle.

Sloths sleep hanging by their four feet, the head tucked in between their fore legs.

Foxes and wolves sleep curled up, their noses and the soles of their feet close together and blanketed by their bushy tails.

Hares, snakes and fish sleep with their eyes wide open.

Owls, in addition to their eyelids, have a screen that they drew sideways across their eyes to shut out the light, for they sleep in the daytime.

## Terrible Scalding Accident

ZAM-BUK GAVE QUICK RELIEF.

For taking the pain out of a burn or scald there is nothing equal to Zam-Buk. Mrs. Eugene Demers, of Pembroke, Ont., who was the victim of a painful scalding accident, proved this. She says: "I was carrying a boiler of steaming water from the stove to the wash-tub, when suddenly my strength failed. As the boiler was falling in spite of my efforts, I heard my babies cry, and to avoid scalding them I gave the vessel a quick turn. The effect of this was that every drop of the boiling water poured over my feet and limbs, scalding me from my waist down. "As soon as I saw the children had escaped, I told my oldest boy to keep the Zam-Buk (which we always keep in the house). I applied Zam-Buk freely, and the pain was soon eased. I continued using Zam-Buk, and in a wonderfully short time the sores were completely healed."

Zam-Buk is equally good for cuts, bruises, eczema, ulcers, piles, pimples, etc. Price 50c. per box, at all drug stores and stores, or post free from the Zam-Buk Co., Toronto, on receipt of price. Refuse substitutes and imitations. There is nothing just as good!

## The Transformation of the Inn.

The Saxon word "inn," taken in its present sense, was probably in use before the Conquest, whereas the purely French word "hotel," as generally applied to "an inn of style and pretension," dates only from about the time when officers of the British army of Occupation returned from Paris with enthusiastic accounts of Meurice's and a dozen other hostleries of the Rue de Rivoli and the Rue St. Honore which quite threw the humbler accommodation offered by the average British inn of that period into the shade. At the commencement of the nineteenth century Frenchmen taught the London innkeeper the science of hotel keeping; before the beginning of the twentieth the Englishman had begun to return the compliment, and now the most luxurious and well appointed Parisian hotels owe their origin to British enterprise.

## Suicide Epidemic in Naples.

The number of suicides, especially among young women, has been increasing to such an extent recently in Naples, Italy, that the doctors describe it as an epidemic of suicide. Five attempted suicides by poisoning, all of young women, the youngest being a girl of 16, were reported in one day. The police ascertained that in the case of two women the motive was disappointment in love, in two others the reproaches of parents, and in the fifth inability to write a love letter.

## Rheumatism Goes Quickly Its Virus Forever Destroyed

EVERY CASE IS CURABLE.

Good-bye to Rheumatism!

Your aching joints, your stiff, sore muscles, those sleepless nights and suffering days—good-bye forever—your day is gone.

Sufferer, cheer up, and read the good news below.

"A man met me a month ago, and said, 'don't stay crippled, quit complaining, limber up.' My answer was, 'I'm rheumatic, I can't do it.' He looked me over in a pitying sort of way and told me to go to the nearest drug store for Nerviline and Ferrozone. The combination had cured him. I was convinced of his sincerity and followed his instructions. I rubbed on Nerviline three times every day—rubbed it right into my aching joints. The pain quickly lessened, and I became more limber and active. To draw the virus of the disease from my blood I took two Ferrozone Tablets with every meal. I am well today, not an ache, not a pain and no sign of stiffness at all."

What Nerviline can do in a case like this it can do for you too. For nearly forty years Nerviline has been recommended for Rheumatism, Lumbago and Sciatica and Lame Back. It is the one remedy that never disappoints.

## Poisoning a Lost Art.

Poisoning may be regarded as a lost art. The most successful practitioner on record startled the seventeenth century with the magnitude of her labors. This was To-fano, an Italian lady who gave her name to a deadly poison—aqua to-fano, a few drops of which were sufficient. She sold her potion in small phials to disillusioned women who were tired of their husbands. In this way, as she confessed, 600 persons were accounted for. After her confession the public executioner was extremely busy with her customers. What the drugs was nobody has ever been able to say. The Pope described it as aquafortis distilled into arsenic—an unsatisfactory definition.—London Daily Chronicle.

## Easy For Him.

An Irishman who was one day engaged at stone-breaking on the roadside, and not being used to the work, could not get on very fast. A friend of his who chanced to pass by as Pat was belaboring a huge stone with renewed vigor tried to show him the right way, and, taking the hammer from him, broke the stone with ease. Said Pat, "Sure now, and it be easy for you to break the stone ather I have been softening it for the last half hour."
