

Powles' Corner.

Every day of our lives opportunities come to each of us to do good. A golden opportunity will come on the 29th of this month to strike a mighty blow to the greatest curse that besets this banner Province of Ontario. Will every Christian that has a vote "Rescue the perishing, care for the dying" and abolish the bar on the 29th of June.

The school trustees held a meeting a few days ago to talk over school matters, and to engage the present teacher for another year. Miss Francis has not yet decided to stay.

Mr. Thos. Drake of Fenelon Falls built the stone foundation for Mr. John S. Brown's straw barn. The dimensions are 36 x 33 feet. The raising took place last Wednesday.

Mr. John Moore lost a three-year old colt and two foals of 1914.

Rain is badly needed at the present time. In this section there has not been a good rain since last fall. The hay crop is past redemption.

Mr. W. E. Powles of Chicago is expected about the 21st.

Mr. C. Vaughn will arrive about five days later and will spend about ten days here.

POWER FROM THE SUN

Remarkable Efficiency in Generating Heat From Old Sol

The sun power plant, by which low-pressure steam is generated by the heat of the sun's rays, recently erected at Meadi, near Cairo, has given satisfactory results, and Lord Kitchener and Sir Reginald Wingate have invited the makers to put up a similar plant for irrigation work in the Soudan. The present plant working at Meadi is stated by the inventor, Mr. Frank Shuman, to have shown an efficiency of 57 per cent, which is 14 per cent. greater than that attained two years ago; this is as against an efficiency of 75 per cent. in the case of the steam boiler, and Mr. Shuman claims that the sun-heated boiler will eventually prove as efficient as, if it does not even surpass, the steam boiler. In the new plant for the Soudan the substitution of one large heat absorber for the five smaller units at present employed is being considered; these heaters at Cairo embrace an area of about 13,000 square feet, interspersed so that the total area is about one acre. The plant gives an average output of 50 brake horse-power during a ten-hour day. The new plant will exceed this in power, and as the latitude of Cairo is only 30 degrees North, the new plant, when working nearer the tropics, is expected to show a greater efficiency.

Look-out Towers

At a cost of only \$50 the Dominion Forestry Branch recently erected a lookout tower fifty feet high, overlooking two hundred square miles of woodland. Similar towers are being built on all the Dominion forest reserves in the West in order that fires may be seen and extinguished before they have time to spread beyond control.

Eating Corn

To make eating corn from the cob easier and neater a New Jersey man has invented a knife with concave teeth to loosen the kernels.

Saving Labor

In rebuilding a church spire in England recently a 15 horsepower electric motor did the work of six men at about one-twentieth the cost.

DEYMAN'S FOR FURNITURE

G. F. VICARS

Druggist and Optician - Fenelon Falls.

FARM FOR SALE BY AUCTION.

One hundred acres of land, more or less, Lot 19, Con. 10, in the Township of Fenelon, will be sold by Public Auction on

Wednesday, 24th day of June, 1914, at 2 p. m.

at Dickson Hall, Fenelon Falls.

The farm is very prettily situated on the west shore of Sturgeon Lake, one mile and a half from Fenelon Falls. Good house, with stone cellar, woodshed, orchard, two wells, spring water, barn and straw shed, with stone foundation, and stables, all ready for use.

There are also four or five acres of cedar swamp that has never been culled or cut into.

Any one wishing to see the farm is welcome any time between now and date of sale.

The buyer can come on to plough after September 1st, 1914.

Full possession March 1st, 1915.

Terms of Sale—Five per cent down day of sale, balance in thirty days.

Must be sold, no reserve.

T. CASHORE, Auctioneer.
