

NEW INSECT DISCOVERED

Looks Like an Aeroplane and Lives Only a Few Days

A new insect, which has only recently been discovered, was shown at the exhibition of the Royal Society at London.

It was named the protura, and it is barely discernible with the naked eye, but when viewed under a microscope it has a striking resemblance to a monoplane. The protura is extremely rare and there are only a few existing specimens in the world.

Of its activities nothing is known so far, beyond that it lives on decayed vegetables and that its span of life does not extend beyond three days.

London and its Lumber

London is the most conservative city in Europe, if not in the world. It loves its lumber. You may still see those notices attached to lamp posts which announce "Standing for Four Hackney Carriages," or whatever the number may be, though for years no vehicles of any kind have stood there. Perhaps it is as well that these relics should remain; they are a tiny part of our social history. They will probably remain when we are flying to dinner or the theatre in omni-aeros. By that time people won't know what "hackney carriage" meant, and here will be discussions in the "Notes and Queries" of the period. For each generation hands down to the next certain nuts to crack.—The London Chronicle.

Keeping Pine Clean

To keep pines clean a new receptacle covers them with a glass dome which on being turned, drops a few at a time upon a tray.

Ban the Breakfast

An aged couple in Norwich, Conn., have eaten no breakfast for 20 years and credit their robust health to that fact.

Mr. J. L. Brown has finished his straw barn and has had lightning rods put up since.

Last Monday this section was almost deserted, as there were so many who went to the Orange celebration in Lindsay.

Some of the farmers have finished haying. The crop is a very light one. Fall wheat and rye will be cut in a few days. The fall wheat crop is light, owing to the spring frost and the continued drought. There will be a scarcity of fodder next winter.

Mrs. W. Wager is not improving in health as rapidly as her friends would like.

DEATH OF MISS BEULAH KNOX.

NEW LISKEARD, July 10.—The many friends of Mr. and Mrs. James Knox and family will regret to learn of the death of their daughter Beulah, who passed away early last evening after an illness of about ten days from acute Bright's disease. The deceased was the youngest daughter, being eighteen years of age.

It is wonderful what a little money spent in paint, and a little time in applying it, will do in the way of improvement around your home.

Worn floors can be made to look bright and fresh—dingy furniture made as good as new—cupboards and shelves made clean and sanitary—dull woodwork and doors, bright and clean—and the walls instead of being covered with faded, dust-collecting wall paper or streaky and shabby kalsomine, can be made artistic and sanitary. Here are the special Sherwin-Williams products that will do all this for you at small expense.

For your floors use S-W Inside Floor Paint for a durable painted finish, or S-W Floorlac for an attractive finish imitating all the popular hardwoods such as Oak, Mahogany, etc.

Refinish your furniture with a coat of S-W Varnish Stain, a combination of a permanent pigment stain and a durable varnish, which renews the old furniture in such colors as Mahogany, Oak, Rosewood, Walnut, etc. S-W Floorlac can also be used for the same purpose.

Cupboards, shelves, painted baseboards, doors, and wainscoting can all be finished handily with S-W Family Paint, a durable oil paint made in twenty-one attractive colors, easy to keep clean.

The best finish for walls is Sherwin-Williams Flat-tone, a durable oil paint that dries with a soft, velvety flat effect. It is made in 24 colors that are the choice of expert decorators. It is very durable and will last for years and can be washed with soap and water, without injury.

It must be distinctive in character—it must breathe refinement—and it must be of strictly high quality.
