Practical Machinist

**The Watchman and Victoria Warder**

THURSDAY, JAN. 26th, 1899

**JANERVILLE**  
Special to the Watchman and Warder

**CARNIVAL**—The carnival here on Friday night was a decided success. Over 2000 persons and spectators were present, many from Lindsay, Oshawa and other points. The fair was in good condition, and all enjoyed themselves immensely. Subjoined is the list of prize winners: Best dressed lady and gentleman, F. Reynolds; Best boy, Mrs. Henslip, Janerville; Best dressed gentleman, S. Halliday, Janerville; Best dressed lady, Mrs. Soden, Janerville. Fifteen lap race was won by Arno song of Lindsay. Another carnival will be held the latter part of February.

**SUNDERLAND**

**OBITUARY**—Dr. J. G. Jardine, a prominent physician of this place, died at an early hour Tuesday morning, at the early age of 34. The late doctor had been practicing his profession here in partnership with Dr. McDermott for about eight years and had made a host of friends. The sympathy of the entire community is extended to the bereaved widow and parents. The funeral took place on Thursday afternoon at one o'clock under the auspices of the I.O.O.F., assisted by other lodges of which deceased was a member. The deceased had been ill for three weeks with typhoid fever, but the limited cause of death was heart failure.

**BOBCAYGEON**

**BOB ROBERTS**—Friday evening, Mr. Hurcher locked the door of his jewelry shop at six o'clock, and went home as usual to tea. A few moments after as Mr. Mark was putting on his coat, in his shop on the opposite side of the street, noticed Hurcher's blinds going down, and thought he was closing early, but took no more notice. When Mr. Hurcher returned after tea, he found that his large wooden watch sign had been taken in, the shutter doors closed, and the blinds down. On entering he found that about \$75 worth of jewellery had been selected from the show trays, and that the cool burglar had departed by the back door.—Independent.

**CAESAREA**

**OBITUARY**—One of the oldest and highly respected pioneer settlers of the township of Cartwright, passed away on Monday morning, Jan. 26th, in the person of the late David Deacon, who was born in the county of Kilkenny, Ireland, and received his education in Wexford. He came to this country when quite a youth and settled down with his friends the Caesares, on the old homestead, where he has remained ever since. He was a strict member of the Church of England. He was also an officer in the Canadian militia, and organizer and treasurer of the Cartwright agricultural society. He was treasurer of the township over 20 years and school trustee for the same length of time, and received his commission as justice of the peace in the early pre-confederation days. He was a life-long conservative, a member of the Massey family, and one of the oldest members of I.O.O.F. Lodge No. 133, which attended in a body at his funeral and held their beautiful and impressive service at the

THE BEST GOODS ARE THE CHEAPEST

—I handle standard goods only.

—Canadian Steel Air Motors.

grave, after the service of the Church of England. Mrs. Deacon and family desire to acknowledge their sincere gratitude for the great kindness and sympathy shown to them by friends and neighbors during their sad bereavement. On account of the illness of the Rev. J. Creighton, the burial services were performed by the Rev. Fletcher, of West Ferry, after which the remains were interred in the Caesarea cemetery, to await the resurrection morn.

**OAKWOOD**  
Special to the Watchman and Warder

**BASKET SOCIAL**—The annual basket social under the auspices of the Independent Order of Foresters, Oakwood, will be held at the residence of Mr. Donald A. Anderson on Friday evening, Jan. 27th. All ladies are requested to bring baskets. Supper provided for those without baskets at twenty-five cents each. A pleasant time is expected and a cordial invitation is extended to all.

**LOBNEVILLE**  
Special to the Watchman and Warder

**THAT DISTURBANCE**—I see in two recent issues of THE WATCHMAN articles referring to the concert held in connection with the Lobneville Union Sabbath school. In the first, the writer after referring to the concert goes on to say: "There are five or six young men who acted very unbecomingly by disturbing the audience by throwing candies, making a noise, etc., and were not only a disgrace to themselves but to their parents, or words to that effect. Now, on behalf of the school, I wish to say that all the scholars whose names are entered on the class books and who are regular in attendance kept the best of order and were not only a credit to themselves, but to their teacher and parents also, and are noted for their good behavior at public gatherings as far as I am aware. In fact some of them have held offices and others are teachers, librarians, etc. in the school, and are worthy of respect." In the second item is what I suppose is intended for an apology. It reminds for the chairman, Rev. G. W. Clarke, to accept or not. If their repentance is sincere I have no doubt but that gentleman will freely forgive them. Trusting the like may not occur again and thanking you for this notice, I remain yours,

**J. LAPP, SUPT.**

**Voiced His Denial.**  
A correspondent of the London Spectator says: "I send you an extract from Gunning's 'Reminiscences of Cambridge,' published in 1854—a book which abounds in good stories:—  
"The tutor, Cardinal Thorpe (so he was always called), was lecturing on the law of extreme necessity, which justified a man in disregarding the life of another in order to insure his own safety. He said: 'Suppose Lowther Yates (the master of the college, Catharine Hall) and I were struggling in the water for a plank which would not hold two and that he got possession of it. I should be justified in knocking him off,' and he then added, with great vehemence, 'D—n him, and I would do it, too, without the slightest hesitation!' (volume 1, page 18). It is scarcely necessary to add that the tutor had an inveterate dislike to the master of the college."

The death penalty is rarely enforced in Germany, Austria, Denmark or Sweden. In New York 11 out of 12 murderers escape without any punishment, and in the United States only one murderer in 50 suffers capital punishment.

**It Never Pays**

Horse owners to be careless, in making purchases of HARNESS, HORSE GOODS, or even in the matter of REPAIRING. In all the features which go to make up a desirable place to trade, we know that we are at the head. Goods of absolute reliability, prices that are reasonable and fair, and a full stock with judicious selection of goods, render our place a desirable one on which to bestow your trade. We know we can offer advantages and to this end we solicit your favors.

**PARTIAL PARALYSIS**

**A SEVERE COLD BRINGS A WIFE AND MOTHER LOW.**

**PARTIAL PARALYSIS ACCOMPANIED BY FAINTING FITS FOLLOWS—DOCTORS FAIL TO BRING RELIEF—DR. WILLIAMS' PINK PILLS RESTORE HEALTH.**

Brookholm, a suburb of Owen Sound, is fairly vibrating with interest in the wonderful cure effected in that place by the use of Dr. Williams' Pink Pills. A newspaper man of Toronto, spending some time in the vicinity, was directed to a house on a hill overlooking Owen Sound's beautiful bay, and was told that there he would learn something about a cure effected by Dr. Williams' Pink Pills. The hill was owned and it is to Mr. J. F. Goodfellow, the grateful owner and occupant of that pleasant home, that he is indebted for the following facts:—"My wife owes her good measure of health today to Dr. Williams' Pink Pills," said Mr. Goodfellow. "On the 12th of July, 1895, Mrs. G. Goodfellow went on an excursion to Collingwood by boat and came home with a severe cold, which developed into a partial or slight attack of paralysis in the left side and limb. In addition, at times she would be seized with a dizziness which often resulted in sudden and severe falls. The paralysis made her unable to lift any weight with her left hand. She called in medical aid and for some months followed the advice and took the medicines prescribed. But it was only money wasted as she did not get any better. As Mrs. Goodfellow has three children and her husband to care for it was a deep trouble to the family for her to be so afflicted. For eight months these dizzy spells and the paralysis continued. Then some friend asked her to try a box of Dr. Williams' Pink Pills. To please the friend she consented to purchase a few boxes. When these had been taken she felt decidedly better. The fainting spells came less frequent, her strength returned to her side and arm and she was delighted with the result. She again procured six boxes, and feeling quite well again, she discontinued the use of the pills for a time, but later felt some of the old symptoms returning. She again procured a supply and recommended their use, and was overjoyed to find that these valuable little pellets again gave relief. She continued taking them until she felt that she must certainly be over the effects of the trouble when she again ceased to take the pills. That is over a year and a half ago, and only once or twice since has she had any slight symptoms of the old trouble, and then a few doses of the pills would give full relief. Mrs. Goodfellow is decidedly of the opinion that she owes her present health to Dr. Williams' Pink Pills, and is most enthusiastic in her recommendation of them to her friends and acquaintances."

**Chinese Proverbs.**  
A great talker never wants enemies. The man of sense speaks little and hears much.  
Do not entertain a man who has just received a disappointment with an account of your own success.  
The most ignorant have knowledge enough to discover the faults of others; the most clear-sighted are blind to their own.  
When a man says "Let me wait a little; when I have something to spare, I will relieve the poor," this man will never relieve the poor.

**Road Horses Feet**

Require careful attention. HORSE-SHOEING is a specialty with me, and I have been very successful in this line. My customers are all pleased. If you have a horse that inverts, has flat feet or is troubled with knee-biting bring him to me. I have cured others and perhaps can cure yours.

**REPAIRS** of all kinds promptly attended to. Charges moderate.

**W. J. YEO,**  
General Blacksmith, Little Britain

**IF YOU WANT A SET OF HARNESS**  
—buy it from—  
**John Eck.**

It's Harne— has a good reputation. It deserves it. The Stock and Workmanship are both first-class and the prices right. Eck knows the Harness Business and satisfies his customers. Repairing a specialty. All sorts of Saddlers' Supplies.

Will be at **JENKIN'S HOTEL,** Little Britain on the **FOURTH** TUESDAY IN EVERY MONTH. Keep the date in mind.

**CHILD AND MOTHER.**

O, Mother-My-Love, if you'll give me your hand,  
And go where I ask you to wander,  
I will lead you away to a beautiful land—  
The dreamland that's waiting you yonder.  
We'll walk in the sweet-rose garden out there,  
Where moonlight and starlight are streaming,  
And the flowers and the birds are filling the air.  
With the fragrance and music of dreaming.

There'll be no little tired-out boy to undress,  
No questions or cares to perplex you;  
There'll be no little bruises or bumps to care for,  
Nor pinching of saw-blades to vex you;  
For I'll rock you away on the silver-dew stream  
And sing you asleep when you're weary.  
And you shall know of our beautiful dream.  
But you and your own little dearie.

And when I am (frow) I'll nestle my head  
In the bosom that's soothed me so often,  
And the wide-awake stars shall sing in my stead  
A song which my dreaming shall soften.  
So, Mother-My-Love, let me take your dear hand,  
And away through the starlight we'll wander—  
Away through the mist of the beautiful land—  
The dreamland that's waiting you yonder!

—Engene Field.

**TIDES IN ENGLISH CHANNEL.**

Great Britain Anxious to Reduce Its Dangers to a Minimum.

The Prince of Wales is greatly exercised over the recent accident in the English Channel. As a peer expressed it, "His Royal Highness does not like to feel that he is living upon an island defended and barricaded, like the feudal barons of old, by high seas that dash to pieces friend and foe alike."

The Crown, it is asserted upon the best authority, will shortly offer a prize to be tried for by a competition which will be opened to all civil engineers of the world. The prize offered will be no less than a fortune sterling for a plan by which the English Channel can be reduced from a rolling torrent to a calm, peaceful sea.

Crossing the channel for years has been the dread of the trans-Atlantic journey. Tourists who travel as far as London in safety are unable to cross the channel to France without suffering untold tortures of seasickness.

Traffic across the channel at certain periods of the year is absolutely dangerous, and at times commerce is greatly delayed by the uncertainty of the voyage. The journey, which, under ordinary circumstances, ought to be taken in a little over a night, is sometimes prolonged 30 hours, and then upon the very best steamers. Upon slow-going freight steamers it is almost indefinite. The highest type of machinery is required to make the journey on time.

At times various schemes have been proposed for stemming the current or undercut from the North Sea and the North Atlantic Ocean around the British Isles. The Isles act as a dam to the water, which, sweeping southward by mighty undertow, is caught by them only to break and sweep through the channel with incredible rapidity.

Many of the schemes have been almost unique, notably one advanced by a Danish civil engineer for building a break-water north of Wales. This, which was to extend for many hundred feet into the water, was to be constructed south of Denmark and north from Wales, leaving a small open space through which boats could sail. This, the engineer claimed, would have a tendency to allow less water to sweep through the channel, and would thus calm the tide. Other schemes of break-water have been proposed, the most extravagant of which was the filling in of the channel by means of mud scows, so that, instead of being a deep passage, it would be in places very shallow.

Modern engineering has become such a high developed science that nothing seems impossible to it, and it is thought that some engineering genius will have a remedy by which the English Channel can be made calm.

At present one of the features of the channel is the life-saving service, which is the strongest in Europe.

**THIS MAN**

Don't buy his STEAKS and ROASTS at the LITTLE BRITAIN MEAT SHOP. See the result. To be happy and healthy during 1899 you must buy your meat from us. We keep the best. Nothing is too good for our customers.

**Ayer's Hair Vigor**

What does it do?  
It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.

It cleanses the scalp from dandruff and thus removes one of the great causes of baldness.

It makes a better circulation in the scalp and stops the hair from coming out.

**It Prevents and It Cures Baldness**

Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.

It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

Would you like a copy of our book on the Hair and Scalp? It is free.

If you do not obtain all the benefits you expect from the use of the Vigor write the Doctor at once.

Address, Dr. J. C. AYER, Lowell, Mass.
