

LOCAL NEWS

Y. M. C. A. Notes.

On Tuesday evening at the Y. M. C. A., after the business part of the meeting had been gone through, the president, Mr. R. Kennedy, gave a short and instructive talk to the young men present; subject "A Man," which was listened to attentively and highly appreciated.

The annual convention of the Y. M. C. A. for Ontario and Quebec will be held in Brantford commencing on the 6th and lasting till the 10th.

Mr. Judson Whyte, one of the noted Whyte Bros., is expected to come and assist the Young Men's Christian Association in holding special services for men only during the month of February or March.

Ask Ed. Glendennan

What he thinks of White Pine Balsam for coughs and colds. 3-4.

Death of Hon. John Macdonald Tuesday Night.

Hon. John Macdonald is dead. He died at nine o'clock Tuesday night, every member of his family being present at his bedside when the last breath was drawn. For twenty-four hours previously he was in an unconscious state. In fact he had but few conscious intervals since undergoing the operation on Friday last. During the last five weeks he has been suffering from inflammation of the bladder, occasionally enjoying some relief from pain and seeming to improve, and then sinking into his previous low condition. In the earlier part of his illness he was attended by his son-in-law, Dr. Grant, of Ottawa, and Dr. T. W. Aikins. When his case assumed a critical appearance Drs. Grasset, Strange, and Cameron were called to a consultation. The disease could not be successfully combated, however, and for the last two or three days the hope that he would ultimately recover was a slight one indeed. In his last hours he was attended by Rev. Mr. Smith, of the Yonge street Methodist church. The funeral will be private. The date on which it will be held has not yet been fixed.

Sir Charles Dilke on the Greater Britain.

LONDON, Feb. 1.—Sir Charles Dilke's new book *The Problems of the Greater Britain* is well received, and promises an immense sale. The writer deals chiefly with the questions of the resources and defences of Great Britain, and embodies in his work much of the condemnatory matter which formed the basis of the articles he published some time ago calling attention to the defenceless state of England's coast. He insists that Imperial defensive measures, after the plan of those adopted by Germany, the absolutely essential, and also earnestly recommends that England follow the German system of federation as speedily as possible. Imperial Federation, he asserts, is bound to come sooner or later, and the sooner the better. It must not, however, be forced upon Canada and Australia, which are the best and most trustworthy political labor guides that England has, and whose solution of the great problem of the exact relations of capital to labor, and vice versa, must ultimately be accepted by the home country.

Don't Take My Word for it,

But try a bottle of White Pine Balsam if you have a cough or cold. 3-4.

Cholera is Coming.

LONDON, Feb. 1.—An English medical light, whose articles in the *Lancet* and other pathological journals always provoke considerable controversy, is of the opinion that Europe has a great deal to fear from the cholera during the coming summer. The virulent type it has assumed, he says is highly unusual in the winter months, and marks an almost unprecedented malignity in the fearful pestilence. If the cholera should really prove epidemic it will follow its usual routes through Asia Minor to Turkey in Europe and to India via the Persian Gulf. So long as Moslem fatalists hold the European side of the Bosphorus plagues of this kind will gain a foothold in Europe. Any attempt to subject the Turks to sanitary laws will be looked upon by them as an outrage and a conspiracy on the part of the western nations to encroach upon their liberties and subvert their religion.

English Trade.

English financial papers are rejoicing over the enormously increased volume of British trade during the past year. The figures show that the foreign trade of Great Britain in 1889 was the largest ever known, being valued at \$3,378,385,000, or 45,000,000 in excess of the largest previous total on record, that of the year 1883. It will be instructive for those who put confidence in the current fallacy concerning the balance of trade to observe that the imports aggregated \$2,137,925,000, and the exports \$1,240,459,795. No nation in the world can show returns at all approaching these. They indicate that in spite of hostile foreign tariffs, trade disturbances and ominous threatenings of war, Great Britain has steadily advanced in all the avenues of a world wide commerce.—*Star*.

Take Notice

That the attack of influenza is very slight when the patient has been using Dandelion Root Bitters. 52-3

Montague and Colter

OTTAWA, Feb. 2.—Haldimand's next polling day is fixed for Feb. 20, nominations being on Feb. 13. The writ has been issued directed to Mr. Reighardt, returning officer. The organizers of both parties have been in Ottawa the greater part of the time since Mr. Colter was unseated and are so doubt well primed for the contest.

Influenza Leaves a cough,—remove it with White Pine Balsam. 52-3

White Pine Balsam Is very easy to take and besides is the best cough remedy in the market. 3-4.

Lord Stanley's Successor.

LONDON, Feb. 2.—It is noted as a sign of the times that the Duke of Fife, who recently married the Princess Louise of Wales, has entered the field of politics. The Duke, however, is not to be restrained by royal conventionalities. He is too ambitious for that. He regularly attends political meetings and is sedulously coaxing himself for a public career. The only explanation of the political world can give of his erratic proceedings is that he aims at vice-royalty, and it is hinted that he may follow the precedent of the Marquis of Lorne and succeed Lord Stanley of Preston as Governor-General of Canada.

BIRTH.

TUCKER.—At the Methodist parsonage, Minden, on Feb. 3rd, 1890, the wife of the Rev. W. B. Tucker, of a daughter.

Toronto Markets.

English quotations were unchanged today, but seemed firm. In the States there was very little change. The local market remained dull.

FLOUR—No movement reported; there was some Manitoban strong baker's offered, but no sales made.

WHEAT—Continued decidedly weak but sold to a small extent at 80c for No. 2 fall on the Northern, with more of this grade offered at 81c, and of No. 2 spring at 79c; cars on the spot would have been taken to a small extent at 87c for No. 2 red, at 86c for No. 2 fall, and at 83c for No. 2 spring. Manitoba hard was offered at equal to \$1.05 for No. 1, and equal to \$1.04 for No. 2, but no sales reported.

OATS—Unchanged; mixed sold at 28½c on track, and white on the Grand Trunk at 25c.

BARLEY—Seemed dull and rather unsettled, but sold to a very small extent at 40½c, and 40c for extra No. 3 f. o. c., and the latter said to be the best price, repeatable, with 37c the best bid for this grade outside, and sellers at 38c.

PEAS—Rather unsettled; sales of car lots lying outside at 53½c, at 54c and at 54½c.

BUTTER—Much as before; common sold at 10c; there were buyers for it for shipment at 8c, but holders were not inclined to let it go at this figure; good rolls easy at 14 to 15c, with a few reaching 16c, but poor offered at 12c.

Montreal Markets.

WHEAT—No. 2 autumn, 86c; No. 2 spring, 85 to 86c; No. 2 red winter, 87 to 88c; No. 1, hard, Manitoba, \$1.03 to \$1.04; No. 2 hard Manitoba, \$1.01 to \$1.02; Barley—No. 1, 51 to 52c; No. 2, 46 to 47c; No. 3 extra, 41 to 42c; No. 3, 35 to 37c; Peas—No. 2, 58 to 60c. Oats—No. 2, 27 to 29c.

THE HORSE MARKET.

Since our last report of the horse market the demand has improved considerably both from local and American buyers and a large volume of business has been transacted, but at very low prices, so much so that dealers in many cases have lost money on their stock, consequently the trade on the whole has been very unsatisfactory. The shipments of horses to the United States so far this season have been large, and the indications are that they will continue so for some time yet, as the supply of horses in the States is not large at present. At the Montreal Horse Exchange at Point St. Charles the following sales were made: Thirty-nine head at prices ranging from 90 to \$125 each.

LINDSAY MARKETS.

OFFICE OF THE LINDSAY WATCHMAN.
