of Lin dsay.

The Society relieved during the year 17 families, comprising 36 persons, and expended for their benefit \$351.19 as follows: For groceries \$197.32; Fuel \$33.88; Money \$43.00; funeral expenses \$23.00; to the House of Providence for relieving us of a blind man \$25 00; ditto for aged woman \$25.00; Clothing \$3.99. The clothing for our poor is usually provided by a society of ladies.

We wish in particular to draw the attention of the council to the fact that while we have expended during the year \$351.00, we have received only \$150.00 from the town. The remainder has been made up by excursions, donations through the church, poor-box collections, and collections among the members of the Society.

We bring this matter in detail before lordships continue as follows:

A Strange Event.

Berlin, Feb, 12.-A very strange and startling event took place near Freeport a small village below here, on Tuesday night last. Mr. John Gamen and wife of Freeport, attended the revival meetings fully and clear, but on their leaving for home was obscured by heavy, dark clouds which threw everything into darkness. Their horse was a healtny bay, 12 years of age. They had got about half way home, when suddenly, without the slightest warning, the clouds burst and immediatelly everything was thrown into dazzling brightness. For a moment the horse stood still as if paralyzed with fear, and then with a shudder fell over and was stone dead in an instance. The neighbors helped the astonished couple home, and the next morning the horse was buried.

CANADA AT WASHINGTON.

The Duty on Barley to be Reduced to 10 Cents.

Washington, Feb. 12.—There is practical unanimity among the Democratic members of the Ways and Means Committee in favor of the bill of Representative Fitch of New York reducing the duty on barley and hops and there is little doubt this OTTAWA, February 14.—Mr. Sedgwick, measure will be favorably reported to the

AMERICAN BARLEY INFERIOR.

The same kind of malt, it was said, cannot be made out of American barley as can be made out of Canadian barley, the former being of an inferior quality. The Canadian barley when brought to this country was mixed with the best grades of American barley and thus created a greater demand for American barley than has been found to exist since the importation of Canadian barley has been stopped. The has constantly gone down since that law went into effect.

DIDN'T AFFECT THE PRICE.

The price of Canadian barley, on the other hand, has remained substantially the

These gentlemen also contended that there are no interests in the country that would be adversely affected by the placing of the duty the same as it stood before the the New York Congressman the present duty affects not only the importers of barley, but also the maltsters and brewers. It also tends to produce an inferior quality of beer and further affects the elevator and transportation interests of the country adversely instead of beneficially.

So far as the Democratic members are concerned there appeared no opposition to Mr. Fitch's bill, and the New York congressmen hope to have it reported favorably at an early date.
