Pea Chop.	1 20 to 1 30

Toronto Markets.

February 17.

The local grain market was not so active to-day but there were more numerous enquiries for coarse grains and rye on export account; rye and buckwheat, which have sold at irregular prices for some time, were higher and firm; oats also firmer. Cables were firmer with a more active demand. In the States wheat advanced about a cent and a half, closing about the highest point of the day; corn and oats unchanged.

Flour—No business, excepting in mill brands, was reported. Feeling was steadier, millers showing less anxiety to sell.

Millfeed—Quiet and unchanged. Wheat—Was not so active but values were firmer. Millers were bidding 85c for standard and 87c for straight Ontario spring and winter. There were some sales at 87c, but sellers generally asked more. Manitoba wheat sold by sample at former prices, but at the close sellers wanted higher figures. A purchase of 20,000 bush No. 2 regulac at 40c, Brandon freights, on Saturday for export was re-

ported. No. 3 hard sold at 87 and 88c in odd cars. On call, No. 1 regular offered in store Montreal at 79c, with 75c bid. There were also sellers at the same price, to arrive North Bay. No. 2 regular offered, in store Montreal, at 69c, with 65c bid. No. 3 regular offered, in store Montreal, at 63c, with 58c bid.

Buckwheat—Was wanted at 2 to 3c advance. There were buyers at 47 to 48c f.o.b. on export account.

Barley—Quiet, but with a fair enquiry. Some No. 3 was bought outside at 41c. Manitoba feed offered at 43c North Bay.

Peas—Enquiry better, but values nominally unchanged. Oats—Were firmer, with a better demand. Sales were made at 32c on track, and odd cars were picked up at north and west points at 28c. A car of Manitoba offered at 32c North Bay.

Rye—Firmer, with good demand at 80c f.o.b. at point of shipment.

Manitoba Lands.

OTTAWA, Feb. 13.—In all 15,028 acres were disposed of at auction during the recent series of sales of Government lands in Manitoba, realizing the sum of \$421,476, or an average price of \$7.95 per acre. This was, therefore, the most profitable sale of school lands ever held in the province, as in the sale of 1888, when 20,000 acres were disposed of, the average price obtained was a little under seven dollars per acre. In many instances this year's school lands brought as high as ten dollars per acre, which was fixed by the experts who valued the lands before they were advertised for sale. The highest average was \$9.32 per acre, realized by Glenboro sale. In all cases the lands were sold to actual settlers for the purpose of cultivation, not an acre having fallen into the hands of land speculators. No doubt the average price paid for the whole sale would have been more than \$7.95 had it not been that there were "squatters" on several of the school sections against whom settlers would not bid and who were consequently able to hold on to their places by paying simply the upset price of \$5 per acre.

The Lindsay Curlers.

At the meeting of the council on Monday last, a committee was appointed to act in conjunction with committee appointed by the club to make arrangements for a fitting reception for the "boys." Lindsay has been spoken of throughout the entire continent, in connection with the Winnipeg bonspiel, and the anxiety to hear news of the playing during the past week shows very plainly the interest taken in the game by our citizens. The thanks of the club and our townspeople are due to the C.P.R. Telegraph Co., and particularly Mr. T. C. Matchett, the obliging Agent for the interest taken in keeping Lindsay posted in the progress of the games free of cost.

Irish Local Government.

LONDON, February 13.—Until Mr. Balfour introduces the Irish Local Government Bill on Thursday next the proceedings in Parliament will be mere party skirmishing. The draft of the bill, which is now in type, is

known to contain a host of clauses rivalling in complexity Mr. Balfour's Land act. A high informant describes it in substance an application of the English County act with out adhering strictly to existing areas. With a view to protect the minority—that is the Conservative—strength in districts where the national vote is also strong, arbitrary electoral boundaries are created. As in England, three-fourths of the members of each council are to be elected by the ratepayers, a portion of the rest by the councillors and a certain number by the Irish executive. The councils are to have control of the local police, excepting the appointment of chief constables; the control of licensing, the administration of the poor law, asylums, industrial schools and prisons, excepting stated government Imperial police are to be maintained in lessened force. An appendix to the bill is another measure transferring Irish private bill business now heard at Westminster to the local courts.

Irish landlords recently sent to Mr. Balfour, through the Duke of Abercorn, a demand that clergymen be excluded from the county boards, the aim being to deprive the priests of influence. Mr. Balfour declined to comply with the wishes of the landlords.

Astonishing Pigeon Shooting of the Good Old Times Recalled.

"The 'Infant Hunter' a man—'Yes,' he said, in answer to my question. 'I remember one shooting exploit of your husband's, although he never took up hunting for the love of sport, as I did when I was young. It happened when he was 8 years old. He shot fairly well then, but was always timid like a girl, I used to say. Dense flocks of pigeons used to pass over our estate every spring, and I would bring down many of them. On one occasion I killed 49 at one shot, and picked them up myself, never less than 30, so thickly did they fly together. Thomas one morning fired several times, but killed none; now it always annoyed me beyond anything to see ammunition wasted, so I called him:

'Tomlin, fire once more, and if you kill none of all those birds you'll get a flogging.'

Tremblingly, the poor child took aim, fired, and brought down four! You know he now gains prizes and medals at the Canada Rifle Association. Well, I shot so many of these pigeons that I began to think of taking them over to Buffalo for sale. First I took a wagon load, and 30c, a dozen for them. As this was encouraging, I watched for the next flight and brought down enough to fill three wagons. I forget how many dozens, for kept no account, but I sold them all in the town. Some people thought I had trapped them, but on examination soon showed that each one was shot. I continued my pigeon-shooting for many springs in succession, and always found a market for my birds. Latterly none are to be seen; no flights pass over this part of Ontario. Game, indeed, of all kinds have become very scarce; deer, black and grey squirrels, mink, etc., are quite extinct here. In British Columbia, on the Pacific coast, they tell me there is—an contrary—hunting to your heart's

content. Should it please God to spare my life yet a few years I intend going there with my beloved younger son and showing my four grandsons the noble art of hunting, 'to live my childhood o'er again' in the pleasure and ecstasy of their keen enjoyment.

ELDON.

PRESBYTERY MEETING.—The Lindsay Presbytery will meet here on Tuesday, 23rd inst. The Presbyterian meeting of the Ladies Foreign Mission Society will also be held at the same time. The ladies here are making preparations to entertain the visitors while with us. It is expected that there will be a large attendance.

SACRAMENT.—Last Sabbath the communion was held in the Presbyterian Church here. The attendance was good, and about 12 new members were added to the roll. It was gratifying to find so many young people joining for the first time. The Christian endeavor society was chiefly instrumental in accomplishing this good work.

ELDON ANNIVERSARY.—The anniversary services in the Eldon Church were well attended. On Monday evening the church was filled. An excellent tea was provided by the ladies which received full justice from all. The choir rendered good service with solos, glees, &c. Addresses were given by Revs. Dr. Marvin, A. McAuley, Dr. Smith and F. Monro. The chairman, Rev. Mr. McLennan, was rather hasty in closing the meeting before the program was completed.—Independent.

The oil ship which was burned in mid-ocean last month is found to have been the Loodiana, a Nova Scotia clipper, which left New York December 31 with refined petroleum. She was commanded by Capt. Boyd, and had a crew of 38 men all of whom were lost. Bennett, Smith & Sons, of Windsor, N.S., were the owners, and the vessel was insured for \$40,000.

Married.

HENRY—CASHORE—At the Methodist Parsonage, Lindsay, Feb. 10th by Rev. T. M. Campbell. Thos. Henry Jones, of Lindsay to Mary Jane Cashore, of Harvey township, Co. Peterboro.

BROKENSHIRE—MOFFATT.—At the Methodist Parsonage, Lindsay, on Wednesday Feb. 10th, by Rev. T. M. Campbell, David Brokenshire of Fenelon township, to Margaret Moffatt of the same place.

MOORE—MCGILL.—At the Methodist Parsonage, Lindsay, on Wednesday Feb. 10th, by Rev. T. M. Campbell, James Moore, of the village of Mt. Horeb, to Letitia McGill, of Janetville.
