A Big Snake.

One of the snake stories of antiquity is told of the Roman army under Regulus during the first Punic war. Its course was stopped near a small stream in Africa by a serpent 60 feet long, and the doughty Romans, though not afraid of the Carthaginians, were dismayed by this African "varmint," which exceeded in size any thing they had ever seen. Military engines were brought up, and the snake was destroyed. Its skin was sent to Rome and preserved there in a temple for over 400

All the sessions, Friday morning, Friday afternoon, Friday evening and Saturday morning, are open to the general public, trustees being specially invited.

The Late John B. Warner.

The Napanee Beaver says: Much surprise was created in town on Monday last by the announcement that Mr, John Billings Warner of Lindsay had died the evening previous. It was known to some of his friends here that he had not been well for some time past, but they little expected that his end was so near at hand. Deceased was the eldest son of the late Billings Warner of Yarker, who while bathing the river there, got beyond his depth, and being unable to swim, was drowned. Mrs. Warner, his widow, afterwards married the late Capt. Edmund Hooper, M.P. for Lennox, and died about a year ago at Lindsay. About twenty years ago with his brother Isaac, now also of Lindsay, he started business in Napanee, and later was a traveller for a extensive dry goods business in Lindsay, which he carried on successfully until his death. Deceased married a daughter of the late Lyman Moore, Hamilton, who with seven children survive him. Mr. Warner was an excellent business man and a favorite with all with whom he became acquainted. He had a large circle of relatives and acquaintances in ters, and to report at the meeting to be held at the same place this (Thursday) for Cobourg and Belleville, where he will spend the bereaved wife and brother have the sym-Napanee and vicinity, who will regret his early pathy of their many friends in this section.
