DISTRIBUTING OFFICES is an effective method of putting party workers in good humour. There are times, however, when this same operation tends to humour of a different sort.

Two appointments have been recently made by the Ontario government. Mr. Elias Bowes has received the vacant office of clerk of Division Court and the position of police magistrate has been awarded to Mr. Steves.

In the recent appointment of police magistrate a hitch in the established order seems to have occurred. Not that the new officer is complaining, or that the government displeased, but the local magistracy is on the war-path and the cause is imminent peril.

At the close of the first half the visitors had a surprised look at their physioys for they had struck the snag at 2 to 0 in favor of the home team. They must have devised some all over they had made 6 goals while only 5 were on the slate to Lindsay's credit.

Editorial Notes

GOOD morning. Have you had the grip?

A SPEAKER recently declared that the dog is the only animal that will leave his own kind and attach himself to man.

THE GRIP is a very amusing complaint. You can scarcely refrain from laughing the whole time—hat the other fellow has it. When you get it you are amusing. It is a ridiculous malady.

A CLOSE HOCKEY MATCH

The most exciting contest of the season took place on Monday night when the local hockey team went to battle against that crack combination, the Frontenacs of Kingston. The work our boys have been doing this year and the reputation of the visitors put the interest away up and the rink was crowded with lovers of the game.

At the close of the first half the visitors had a surprised look at their physioys for they had struck the snag at 2 to 0 in favor of the home team. They must have devised some all over they had made 6 goals while only 5 were on the slate to Lindsay's credit.

FIGHTING AT MANILLA

THE AMERICANS AND FILIPINOS FIGHT EACH OTHER.

A NIGHT ATTACK—HOT WORK FOR THE AMERICANS—THE FLEET TAKES A HAND—FILIPINOS REPULSED WITH HEAVY LOSS—ABOUT 200 AMERICANS WOUNDED.

Manilla, Feb. 5 (6 15 p.m.)—The long-expected rumors of fighting between the Americans and Filipinos have been verified at last. The clash came at 8 45 Saturday evening, when three Filipino regiments of the United States sea-going double-turret battleships, the Yborates, armed with a terrific fire, but owing to the darkness, were unable to determine its effect.

THE FIGHTING STARTS. Almost immediately afterwards the Filipinos line commenced a fusillade which was ineffectual. The Yborates, armed vigorously, and held their ground until reinforcements arrived at three points. At about 1 o'clock the Filipinos opened a hot fire from all three places simultaneously. This was supplemented by the fire of 12 by two siege guns at Balik-Balik, and by advancing the two skirmishers at Paco and Marikina. The Americans responded with a terrific fire, but owing to the darkness, they were unable to determine its effect.

SHELLING THE INSURGENTS. The United States cruiser, Charleston and the gunboat, Concord, stationed off Malabon, opened fire from their second batteries (i.e., small quick-firing guns) on the Filipinos' position at Caloocan and another fusillade along the entire line, and the United States sea-going double-turret battleships, the Yborates, opened fire on the enemy from off Malate. With daylight the Americans advanced. The Californians and Washington regiments made a splendid charge and drove the Filipinos from the villages of Paco and Santa Mesa. The Nebraska regiment also distinguished itself, capturing several prisoners and one howitzer, and a very strong position at the waterworks. The Kansas and Dakota regiments compelled the enemy's right flank to retire to Caloocan. There was intermittent firing at various points all day long. The losses of the Filipinos cannot be estimated at present, but they are known to be considerable. The American losses are estimated at twenty men killed and 125 wounded.
