FOR PIANO PLAYERS.

Iodine as a Preventative of Sore Fingers From Steady Pounding of the Keys Daily.

A modest appearing young woman entered a drug store in Madison avenue one morning recently and, walking to one corner of the counter, mutely held out a prescription department.

Observing a puzzled expression on the face of an old patron of the store who had come in to get a cigar, the clerk said, "Iodine."

"What for?" asked the smoker. "Prevent fingers from getting sore," replied the clerk. "She is from the musical conservatory, where she practices on the piano for four hours a day. In order to prevent the finger nails from coming in contact with the ivory keys she has them cut very short and we apply iodine to take the soreness out of the ends of the fingers after a few hours of pounding. Most piano finger nails cut to the nerve, so that no clicking sound is omitted when they strike the keys. We keep a bottle of iodine and a brush for the special use of the pianoforte pupils of the conservatory. They come in here for treatment two or three times a week and pay by the month."

DESTINY AND DUTY.

A Bostonian Will Relieve Himself of a Lacy Essay on the Army—"Col. Yellowstone Yell."

The Boston Herald publishes the following original and unique dissertation from the pen of "Col. Yellowstone Yell."

Manila's green strand, the pore haunted heathen calls away to beat the band. They're achin' an' we've gotter have an army for the job. The heathen are a callin' for our noble Christian race. America with all the rest has got to set a pace, and for our surplus prod'n we must have a market place—and we've got to have an army—for the job.

The pore benighted heathen now no Christian peace enjoys. We'll educate 'em like they do at Virden, Illinois, or down in Carroll, where we hang 'em, men and boys, just to elevate the standard of the race. The Malays of the Philippines ain't got no sense at all. They ain't no rule their place themselves—I shudder at their gall! We've gotter kill 'em off in droves, to make the rest sing small, and to elevate the standard of the race. They're so besotted in their pride that of the truth were known, they'd likely ask our Government to leave 'em all alone. The heathen in their blindness now bow down to stock and stone; but we'll elevate the standard of their race. They've gotter learn their lesson in a mighty bitter school. They've gotter crawl an' grovel under white men's noble rule. We've gotter tread 'em in the mud, to keep our tempers cool and to elevate the standard of the race.

The onward march of destiny no nigger crowd can stay. The Anglo-Saxon race must git its three square meals a day. We'll take their lands and make 'em work and then we'll shout "Hooray!" an' thus we'll spread th' gospel far an' wide. We'll raise 100,000 men to fight 'em in their swamps, to lie at night in jungles with their fever-ridden damps, an' th'o' we'll lose 10,000 there from wounds or cholera cramps, we'll spread th' blessed gospel far an' wide. Altho' I haven't been to church for nigh on 20 year, it makes me feel pious just to think of the ideal I saw one firm will send out there 10,000 quarts of beer of how we'll spread the gospel far an' wide. I'd write you more, but I have got a little "date" at 3. We're goin' to hang a bigger politician to a tree.

So I will close this letter on the march of destiny and the way to spread the gospel far an' wide.

Cats Defended the Chickens.

H. C. Barnett, who lives near Media, Pa., has in his possession the body of a chicken hawk that was killed in a peculiar manner. Barnett is a general farmer, but makes a specialty of poultry raising.

Since he has owned the farm three old cats letty the former tenant have from about the place in a semi-wild state. At first Barnett tried to tame the animals, but they repulsed all friendly overtures and took up their abode in the barn. However, as they did not harm the chickens they were not molested. The other day, while Barnett was on his barn roof replacing some shingles, he heard a loud cackling in the yard below. Looking down he saw a number of his chickens huddled together and seeming greatly agitated. Then he discovered a large hawk just preparing to make a swoop. Barnett was preparing to descend to the rescue when the hawk made a plunge at the terrified fowls. The robber was leisurely preparing to carry off a chicken when there was a quick patter of feet and the three cats bounded into view. The hawk made an effort to escape with its prey, but the cats came to the rescue in the nick of time. The hawk made a sponky resistance, but the combined assault of the cats overpowered him, although only after a fierce battle. Barnett had reached the battlement by this time, and he rescued the hawk's body from the cats. Barnett proudly displays his trophy, and declares that in the future the cats will be well provided for.—Philadelphia Record.
