WHOLESALE & RETAIL GROCER, KENT STREET, LINDSAY.

PROGRESS THE SPIRIT OF THE AGE!

If we have not advertised so extensively of late, it is for good reasons. For instance, the great increase in our sales since the first of the year has kept us exceedingly busy, and has been such as to enable us now to say that it is altogether unprecedented, even with us, during any portion of the past forty-four years of our business life, which has necessitated the many additions, alterations and improvements, and which, when completed shortly, will render our wholesale and retail Furniture Waverooms, without exception, the largest, finest and best adapted for the Furniture trade in the Dominion-equal, in fact, to any in the

THE LATEST IMPROVEMENT.

In addition to the six storey wing added in rear of our Warerooms, we have now made additional Show rooms on the fifth floor, formerly used as finishing rooms, for the display of Chamber Suites and Chamber Furniture only. SOME FIGURES-

The rooms are 100 feet deep by 60 feet wide, which will enable us to make the best display of Mahogany, Oak, Black Walnut, Cherry African Ash, and the newest styles of the medium and low priced Suites yet shown to the public in any part of the Dominion. Prices will range from \$25, \$30, \$40, \$50, \$60, \$75, \$100, \$150, \$200, \$250, and up to \$1,500. We are also fitting up

FOUR ART ROOMS

for the more effective display of the finer grades of Furniture, which will be lit by chandeliers or electric light, to show the effect of gas or other artificial light upon the various articles, we being determined to leave nothing undone that either capital or energy can accomplish to place our business on the very best basis.

WHAT ADEQUATE CAPITAL DOES

The advantages of purchasing stock in the largest quantities and for net cash, enables us to mark our goods at and in many cases below, what similar goods cost many in the trade. This advantage has secured for us during the past few years, but especially during the present year, the largest sales yet made by us, and which necessitated the further extensive additions to our premises upon which we are at present engaged. When finished we shall refer thereto again, and possibly invite both

to examine and corroborate our statements, and if, after examination of our stock and improvements, they may prove to be not only as we describe them, but to exceed even the most sanguine expectations, we trust to receive their recommendation.

MORE ARRIVING. We are now receiving the largest, the most varied and expensive assortment of bent wood Chairs and Furniture from Vienna, Austria, ever shipped to this port. Also, the largest stock of Brass and Iron Bedsteads, Cribs and Sewing Cots, Reclining Chairs and other Iron Furniture, from Birmingham, England, per steamer due next week.

A GREAT ARRAY.

As we have made the finer grades of Parlor, Chamber, and Dining Room Furniture especially during the last five years, we feel that it is only necessary to state that our warerooms are again stocked with a complete assortment of upholstered goods. Our stock of fine coverings is acknowledged the best yet seen in this country, and we will add to them in a few weeks some of the very finest materials from the best manufac-NO CLIMBING OF STAIRS.
