Toronto Markets. March 9.

English quotations were unchanged today, but wheat cargoes said to be quiet, and probably easier, and peas firmer. In the States markets were easier. The local market was dull and inactive.

Flour—Unchanged; no movement nor no enquiry reported.

Wheat—Very quiet, but values seemed to show very little change. On the call-board No. 2 fall was wanted at 93c on track, but none offered; for fall lying north and west buyers could probably have been found at 87 1/2 to 88c, and spring on the Midland would probably have been taken at 87c. Manitoba was quiet on the call-board No. 1 hard was wanted at \$1.04 at North Bay, with No. 2 Northern at same point sold at 92c.

Oats—Seemed inactive and easy at about 33 to 33 1/2c for mixed on track, and white lying east were offered at 31c; white lying west, for May delivery, also offered at 31c, and for present delivery at 30c.

Barley—Inactive and dull; the feeling was decidedly weak, with scarcely any demand heard; extra No. 3 lying outside was obtainable at 44c, but there was no movement reported.

Peas—Steady, with a fair enquiry, and sales of cars lying north and west at 61c which price would have been repeated; cars lying eastward probably worth 62c, but no sales quoted.

Buckwheat—Seemed still in fair demand and sold lying westward on p.t., but the feeling appeared steady.

Hogs—Small rail lots changed hands at \$6 laid down here, which seems almost certainly the best price obtainable.

Butter—Very quiet to-day, and sold at un hanged prices for box lots of rolls at 16 to 18c for good to choice, but the movement even in these insignificant, and tubs inactive.

Eggs—Unchanged at 15 to 16c for fresh in cases, with offerings even of good qualities sufficient and prices weak.

### EAST OAKWOOD.

Special to the WATCHMAN.

Our school is doing well under the tuition of our present teacher, Miss Dames. The pupils are making satisfactory progress and doing well. If our trustees would get the fence and gate repaired and the ground fitted up a little, it would be money well expended.

We join with a number of friends in wishing Mr. David Weldon and wife a long and prosperous life in their new home that they have just moved into.

Our enterprising neighbour Mr. S. Washington is preparing to build a first-class set of buildings on the property that he purchased from Mr. G. Lane last summer. Those who know Mr. Washington are looking for as good buildings to be erected as can be found in our township.

### Flanery Shot Welch.

Boston, March 6.—Early this morning Fayette Welch, an actor, was shot and killed by William F. Flanery, a variety performer, professionally known as Wm. J. Gould. The shooting occurred at a theatrical boarding house, No. 10 Dix place, where Welch occupied a front room on the second floor. Flanery and his wife occupied rooms nearly opposite on the same floor. It is said that soon after Flanery and his wife returned home from the theatre last night they and Welch had a discussion over some personal matters, during which Welch called Mrs. Flanery some hard names. Flanery went to Welch's apartments to get a retraction from that individual, fired the fatal bullet just as Welch was approaching him in a threatening manner with hands uplifted. Welch fell without a moan or sign of life. Flanery at once retired to his room and sat down quietly. The police were on the

scene within five minutes and placed Flanery under arrest. He acknowledged doing the deed, but said it was unintentional. His intention was to fire over Welch's head, but he missed the mark by about an inch. He said he could not bear to have Welch abuse his wife in such a vile and scandalous manner. Welch is the larger man of the two, and is said to be at least 10 years older than Flanery, who gave his age as 28. Flanery and his wife have been playing at the Gaiety and Bijou during the past week. Welch had not played for two weeks, his last appearance being at the World's Museum. Several theatrical people who were in the house at the time of the shooting have been held as witnesses.

### Fight Between Navvies at the Falls.

NIAGARA FALLS, Ont., March 7.—There are some six or seven hundred navvies employed on the construction of the great tunnel on the American side of the river at the falls, composed principally of negroes and Italians, imported to the village especially for the work. These two races have held a deadly enmity to each other. They live in shanties entirely separate, although their work brings them together during the day, and frequent fights occur during the evening and night, especially about pay day, when the navvies seem to be more quarrelsome and their ire is at fever heat, accelerated by the quantity of bad whiskey they imbibe while their money is flush. They raid each other's camps, which are nick-named "Italy" and "Africa," and so frequent have been the fights and use of firearms that their actions have struck terror into the hearts of the villagers in the vicinity of the works, who barricade their doors. Each family possesses a small arsenal, and have for scouts well-trained bulldogs that they let loose after dark.

A fracas that took place last night eclipsed all others and was beyond the control of the lately appointed police force for the district, and the whole of the town force had to be brought into requisition to quell the riot. In the shanties near shaft No. 2 this morning one man is dead and four badly injured as evidence of the fierceness of the fight. The combatants were three negroes and some Italians. The latter had a keg of beer and locked themselves in their shanty, refusing the negroes admittance to partake of the enjoyment. The negroes finally broke in a window and stormed the place with revolvers drawn, and firing frequent shots. One Italian was instantly killed and another shot in the cheek. He will undoubtedly die. The others were shot in the arm, breast and neck and are quite seriously injured. The town police were notified as early as the affair became known and have succeeded in arresting the three colored men, who were making for the depot when arrested. They pretended ignorance and tried to throw the pistols away. The dead Italian is named John Risco and the one who will die is Ignatius Dongoso. Tony Hays has a ball in his neck; Tony Mabrash a wound in the region

of his heart, and Joe Smith a ball imbedded in his cheek. The whole affair was terrible and the villagers are greatly excited over it. Chief of Police Dinan, with officers Roland, Bonacker and Conroy arrested William Henry Barker (colored) after a hot chase. Wm. Chambers and Charles Kelly (both colored) were arrested as accessories. Kelly and Chambers have squealed on Barker. Barker used a five-shooter, making every ball count.

### "Hurry Up."

When the attempt was made to give twice as many illustrations in a monthly magazine as were ever before published the "know it all" people said, "it won't last;" but when the *Cosmopolitan* went even beyond that figure and continued to thrive and grow more popular, the fact became apparent that not only could it be done, but that the reading public appreciated it. So far the success of the brilliant magazine has never been equaled in the history of illustrated monthly literature, and it is daily finding its way into new homes throughout the country. The latest master stroke, in obtaining the services of William Dean Howells as Associate Editor, is the talk of the literary world. To make the magazine more popular, its publishers are offering, for almost nothing, a choice of the original editions of the *Memoirs of Generals Grant, Sheridan, Sherman, McClellan and Lee*, if taken in connection with a year's subscription to the *Cosmopolitan Magazine*. If you are not on reading terms with this popular monthly, write to the *Cosmopolitan Publishing Co.*, Madison Square, N.Y., for a free sample copy; then judge for yourself.
