Co., Montreal.

### TOWN COUNCIL.

The regular meeting of the town council  
was held on Monday evening. Present  
Mayor Ray, Reeve Kylie, Dy. Reeve  
Crandell, and Councillors Head, Lack, Fee,  
Robson, Mallon, Finley, Connolly and  
Bryans.

The minutes of last meeting were read  
and approved.

### COMMUNICATIONS.

From G. H. Calvert, in reference to dog  
tax. Referred to court of revision.

From John Robinson, in reference to  
watering the streets. Laid on table.

From Moffat, Hodgkins, Clarke & Co.,  
in reference to waterworks, asking certain  
concessions. Laid on table.

A lengthy communication from Dr.  
Burrows on the waterworks was referred  
to that committee without being read.

From town solicitor G. H. Hopkins, in  
reference to Treasurer's bonds, approving  
of the same. Referred to finance com-  
mittee.

From C. Fairbairn, M.P., in reference  
to fish spawn being placed in our lakes.  
He said the matter was being attended to.

From J. R. McNeillie, chairman of the  
School Board, asking for \$400 for the pur-  
chase of lots in the East Ward for school  
purposes. Referred to the committee on  
finance.

From J. D. MacMurchy, Sec. of the  
Board of Trade, enclosing a resolution  
passed by the Board in reference to water-  
works. Laid on table.

From B. Cook, asking for appointment  
as overseer of waterworks. Referred to  
the special committee on waterworks.

From John Sinclair and others, asking  
for certain ditches to be cleaned out. Re-  
ferred to committee on streets and bridges.

A deputation from the Board of Trade  
consisting of Messrs. J. R. Dundas, J.  
Kennedy, Ed. Flood, J. B. Knowison,  
Col. Deacon, and the Secretary, Mr. J. D.  
MacMurchy, waited on the council in  
reference to the waterworks contract, when  
the following letter was read from the com-  
pany:

Syracuse, N.Y., March 19th, 1892.

D. Roy, Esq., Mayor, Lindsay Ont.

DEAR SIR.—We are informed by Mr.  
Freeman that it is the intention of the  
council to pass a by-law confirming the  
contract between the corporation of the  
town of Lindsay and the Lindsay water-  
works Company, under and in accordance  
with the report made by Dr. Bryce, Sec-  
retary of the Provincial Board of Health.

We understand that it is expected that  
this company will enter into a contract to  
construct these works for the Lindsay  
Waterworks Company.

We wish to call your attention to the first  
statement in Dr. Bryce's report, viz: "That  
owing to the contract so far as complete  
having been signed before the plans, source,  
analysis, etc., were submitted to the Pro-  
vincial Board as required by Sec. 20 C.A.P.  
205 R.S.O., it would be well to closely in-  
quire as to how far the contract then signed  
is legal, and as to whether the contract as  
at present existing or modified, should be  
re-signed."

By reference to the Statutes, we find that  
the Doctor is correct, and that the report of  
the Provincial Board of Health should pre-  
cede the adoption of plans and the execu-  
tion of a contract.

Now, we ask that this contract be re-  
signed and re-executed, and that the same  
be made to conform to the report of Dr.  
Bryce, and that Section 1 be made to read  
as follows:—

"The water shall be taken from the  
Scugog river at the point where Mary street  
intersects the same. The water to be im-  
proved so far as practicable by filtering  
through sand and gravel without the use  
of patented devices."

Our reason for insisting that the Water  
Company shall not be required to use  
patented filters is, that we have had large  
experience in these matters and know that  
these filters are not a practical success.  
Rather than to be directly or indirectly re-  
quired to use such filters we would have  
nothing to do with a waterworks enter-  
prise.

Unless the contract can be executed in  
conformity with the views herein expressed  
it will have no interest for us.

Yours very respectfully,

MOFFETT, HODGKINS & CLARKE CO.

Mr. Dundas then addressed the council.  
He said the letter just read changed the  
whole tenor of the contract, and he was  
not prepared to discuss the matter, but  
suggested that it should be referred to a  
joint committee of the Council and Board  
of Trade, which was concurred in by the  
other members of the Board.

On motion of Mr. Mallon, seconded by  
Mr. Fee, the contract was referred back to  
the committee on waterworks.

On motion of Mr. Head, seconded by  
Mr. Robson, the Board of Trade was re-  
quested to appoint a committee to act in  
concert with the committee of the council.

Mr. Robson read the report of the  
streets and bridges, which was adopted.

Mr. Head said the committee on print-  
ing wished to further consider their report.

Mr. Kylie read the report of the fire and  
water committee, which was adopted.

Mr. Mallon read the report of the com-  
mittee on police, which was adopted.

On motion of Mr. Kylie, Mr. Barron  
was heard by the council in reference to  
the proposed Opera House. He said that  
he appeared on the part of a few citizens  
led by our worthy station agent, Mr.  
Matchett, and pointed out the urgent  
necessity there was for such a building  
being erected in the town. The company  
was being formed, and meeting with great  
encouragement. The object of waiting on  
the council was to ask of them a stated  
amount of assessment for a period of ten  
years. There would be an outlay of about  
\$20,000 which would give employment to

a large number of people, and he hoped  
the council would take the matter into  
consideration.

The Mayor asked Mr. Barron to put his  
request into writing, so that it could be  
placed before the proper committee, also  
stating that the council would no doubt  
take the matter into their "most serious  
consideration."

A communication from Mr. Barron in  
reference to the proposed Opera House  
was read and referred to the finance and  
assessment committee.

On motion of Mr. Connolly, seconded  
by Mr. Kylie, the overseer's time book  
was handed over to the committee on  
streets and bridges.

Reeve Kylie gave notice that he would  
introduce at the next meeting a by-law to  
regulate the fire brigade.

On motion of Dr. Reeve Crandell,  
seconded by Reeve Kylie, a by-law to  
appoint a market clerk will be introduced  
at the next meeting.

### Great Demonstration of Joy and Grat- tude at a Russian Port.

LIBAN, March 19.—The American  
steamer Indiana, Capt. Sargeant, which  
brought to this port the gifts of flour and  
provisions sent by Americans for the relief  
of the Russian famine sufferers, has since  
her discharge been lying some distance off  
shore. Last night she was towed into the  
harbor by the steamers Concordia and  
Vorwaerts. Certainly unbounded popular  
enthusiasm is proof of appreciation, the  
officers and crew of the Indiana will carry  
from this country a lively recollection of  
the gratitude of the Russian people. When  
the Indiana passed the jetty she was  
greeted with loud and enthusiastic cheer-  
ing by the crowd that had assembled on  
the jetty. The steamer was received by  
the communal authorities and a large  
delegation of the leading merchants of the  
port. After she was moored a number of  
the orthodox Greek clergy proceeded  
aboard of her and held a thanksgiving  
service, which concluded with the formal  
and impressive ceremony of blessing the  
ship.

### A New Diocese said to Be One of the Probabilities of the Near Future in Montreal District.

MONTREAL, March 29.—News was re-  
ceived to-day from Rome to the effect that  
a new diocese will in the near future be  
formed on the north shore of the St. Law-  
rence, and it is generally understood in  
ecclesiastical circles that the flourishing town  
of Valleyfield, in the county Beauport,  
has been chosen as the headquarters of the  
new bishop, who will be appointed at an  
early day. The religious authorities have  
for a number of years felt the  
necessity of dividing the extensive and  
populous archdiocese of Montreal and of  
giving his grace Monseigneur Fabre one  
or two more suffragan bishops. The di-  
vision just mentioned is therefore the  
first move in this direction, and no one need  
be surprised if still another diocese is  
formed out of the Montreal district. Of  
course a great deal of conjecture is being  
indulged in by Montreal Catholics as to  
which of the many able priests of the arch-  
diocese will be called by the papal court  
to preside over the new and important  
episcopal see of Valleyfield, but it is not  
likely they will have very long to wait.  
It is known that as usual three names  
have been sent to Rome, viz., Rev. Canon  
Emard, chancellor of the archdiocese of  
Montreal; Rev. Mr. Proulx, vice rector  
of Laval University and Rev. Canon  
Raciot, also of the archbishop's palace.

### DEMING IN COURT.

His Murderous Career Further Shown  
Up—Excitement at Liverpool.

PERTH, West Australia, March 19.—  
Frederick Deming alias Williams who is  
under arrest here for the murder of his  
wife, and who is undoubtedly the mur-  
derer of his first wife and four children—the  
discovery of whose bodies in Liverpool has  
created such widespread horror—was  
arranged in court to-day. He was reman-  
ded until Tuesday next.

Perth, Australia, March 19.—Deming,  
the murderer, was again before the  
magistrate to-day. The court house was  
packed. The prisoner, who still persists  
in calling himself Swanton, entered the  
dock with a jaunty air, but became  
nervous and fidgety during the reading of  
the charges. After the giving of the  
formal evidence in regard to his arrest, he  
was remanded.

Deming's luggage has been fully exam-  
ined. Among the articles found were: A  
card certifying to the membership of  
Emily Mather in the Rainhill Band of  
Hope, a time table of trains belonging  
Liverpool, an autograph album addressed  
to Emily Mather, a book of addresses of  
persons in England, a pocketbook bearing  
the Monogram "B.F.D.," a Masonic apron  
and a similarly lettered, a silver card case and  
a prayer book containing the name "Emily."  
Among the addresses noted are "McDon-  
ald, Birkenhead," "Marshall, New York,"  
and others of persons in Hull, Liverpool,  
and Hartlepool, proving the identity of  
Williams, Deming, Lawson, etc.

It is rumored that Deming, who declar-  
ed his name is Swanton, has confessed  
to the police that he is the same man  
who lived at Windsor, a suburb of  
Melbourne, under the name of Williams.  
His past life appears to have been one of  
constant fraud and robbery, carried on  
under a pretence of wealth and high  
living.

SYDNEY, N.S.W., March 19.—The police  
here are excavating in the cellar of the  
house formerly occupied by Deming. It  
is thought they will find evidence of  
further crimes committed by him.

### Manitoba Matters.

WINNIPEG, March 20.—Nearly a thou-  
sand people arrived on the colonist trains  
yesterday from the east, comprising one of  
the finest parties that has come in many  
years, Mrs. Linklater, of Wingham, Ont.,  
gave birth to a female child when the  
train was near Port Arthur.

The Provincial Government received a  
cablegram yesterday from London, Eng-  
land, stating that leave to appeal had  
been granted by the Judicial Committee of  
the Privy Council in Manitoba's now  
celebrated school case. The cablegram  
stated that leave to appeal included both  
the Barrett and Logan cases. Sir Horace  
Davey appeared before the Judicial Com-  
mittee on behalf of the province.

A serious railway accident took place  
near Whitemouth this afternoon. A  
colonist train was wrecked. The reports  
in the city are contradictory, though it is  
believed that some passengers were killed.  
A broken wheel was the cause. After  
running nearly a mile four cars tumbled  
over a bridge.

### A Divinity Student of Victoria University Lost in Lake Ontario.

COBUREG, March 20.—A very sad ac-  
cident, unfortunately attended by loss of  
life, occurred here Saturday morning,  
which has cast a gloom over the whole  
town, and especially over the students of  
Victoria University. About 9 o'clock a  
young divinity student, H. E. Stoney,  
whose home is in the vicinity of Hamilton,  
Ont., went out in a skiff for a sail about  
the harbour. A very strong wind was  
blowing from the north-west at the time  
and whether the wind carried the boat  
out into the lake, or whether the young  
man directed the boat in a southerly direc-  
tion, will never be known. Suffice it to  
say that the boat and its occupant were  
soon a long way from shore, with a  
heavy sea rolling. The life-boat crew were  
notified at once, and set out to the rescue  
and were about a quarter of a mile from  
the drifting boat when a huge wave filled  
it and boat and occupant sank to rise no  
more. The life boat crew with difficulty  
made the Grafton harbor, and nearly  
perished after their experience. The boat  
swamped about three miles out of Grafton  
Owing to the heavy sea and cold weather  
no attempt has yet been made to find the  
body. Deceased was a very promising  
young man about 22 years of age, and  
was in his final year. He had been preach-  
ing on probation on several circuits. The  
poor young fellow had recently bought  
the boat, and his anxiety to test her sail-  
ing qualities led to his untimely death.  
The event was feelingly referred to in all  
the town churches to-day.

### A Domestic Tragedy.

HAZELTON, Pa., March 17.—John Tray-  
nor, a fire boss in one of the coal mines in  
Schuylkill, entered the mine about three  
o'clock one morning last week to examine  
the mine and to test the gas. That was  
the last seen of him alive. His young  
wife became alarmed at his absence, and  
besought her neighbors to search the mine.  
A party was organized and twelve miners  
made a thorough search of the works, but  
without finding any trace of him. When  
the news was broken to the wife she  
became distracted, and it was feared for a  
time she would go mad. She became  
strangely calm, however, in a short time,  
saying she was sure her husband would be  
found. A few days later Mrs. Traynor  
disappeared. Search throughout the  
village failed to discover any trace of her,  
and it was finally supposed that the loss of  
her husband had unbalanced her mind,  
and she had wandered off to the mount-  
ains. Her fate remained a mystery until  
Monday, when a party of mine sur-  
veyors stumbled on the solution. Enter-  
ing an old breast to the manway which  
forms the second opening of the mine,  
they heard the sound of a voice in the  
darkness some distance beyond. They  
listened intently, and were startled to  
recognize the voice as that of a woman  
crying softly the words of a love song.  
Summoning all their courage they crawled  
over the loose coal to the place whence the  
voice proceeded, and by the light of their  
lamps beheld a wild-eyed woman holding  
in her lap the head of a man apparently  
dead. She swayed gently from side to  
side while she sang. The awe struck men  
were about to retreat when one exclaimed,  
"My God, it's Mrs. Traynor!" Gently  
they lifted her up. Then she raised a  
cry of despair and fainted. She was  
brought to the surface at once and borne  
to her desolate home followed by the dead  
body of her young husband. She is now  
a raving maniac. It is supposed that when  
she disappeared she made directly for the  
manway and stumbled across the body of  
her husband, who had been caught by a  
fall of top coal on his way out, and the  
discovery turned her brain.

The Paris police continue their search  
for anarchists with much vigor.

The European money markets last week  
were characterized by dulness.

The Queen and party left Windsor on  
Saturday for the south of France.

The worst snowstorm of the winter or  
spring raged in Kansas yesterday.

Chancellor von Caprivi has not resigned  
but, rather, is trying to keep the Cabinet  
together.

### OUR CANADIAN WOODS.

Hon. J. R. Ward Speaks of Them From  
a Commercial Point of View.

The fourth of the series of the Somer-  
ville lectures was delivered last evening  
in the Natural History society rooms.  
Mr. J. S. Shearer presided, but the  
audience was not nearly so large as the  
excellence of the lecture deserved. The  
lecturer was Mr. J. K. Ward, M. L. C.,  
who discoursed in a very entertaining  
manner on "Canadian Woods: Their  
Economic Use." He pointed out that  
the trees indigenous to this country were  
divided into two classes—coniferous or  
evergreens, and deciduous or leaf-shed-  
ding trees. He then went on to speak of  
the principal trees of each class and from  
a commercial point of view and named  
the different uses to which they are put in  
the arts and manufactures. Speaking of  
white pine he said it was a tree that  
served more purposes than could be  
enumerated. Whenever a soft, easy work-  
ing wood was wanted in the arts, in the  
workshop or in the factory there it was to  
be found. An article of commerce it far  
surpassed any other wood. It gave more  
employment to the wage-earning man than  
any trade in the country except agricul-  
ture. The value of pine lumber in Cana-  
da alone was, at least, twenty-five millions  
of dollars a year, or two and a half times  
as much as that of any other manufactur-  
ing industry, and when it was borne in  
mind that 60 per cent. of this was paid for  
labor, &c., to men representing a large  
portion of the population, it would readily  
be seen how important it was, either by  
legislation or otherwise, to protect and  
conserve the sources of this greater factor  
in the country's trade to all posterity.—  
Montreal Gazette.

### PRINCE MICHAEL.

Converts Deserting Him—The Toronto  
Disciples Returning Home—The Delu-  
sion Wearing Itself Out—Statement of  
a Lady Member of the Church.

DETROIT, March 17.—Prince Michael  
lost some of his followers yesterday and  
others are preparing to leave for their  
former homes as soon as they can get funds  
to pay the railroad fare. The family of  
S. B. Radebaugh, who came from Urbana,  
Ills., six weeks ago to join Michael, left  
the city for Jacksonville, Ills., where Mrs.  
Radebaugh's people live, last night. Mr.  
Radebaugh is an intelligent man of about  
fifty years. He was quite a prominent  
man and lawyer in Urbana. His family  
consists of a grown up son, three grown  
up daughters, his wife, and several young  
children. He is the man who acted as  
attorney in the Richardson case, repre-  
senting Prince Michael during the trial. He  
for many years has been a liberal  
Presbyterian, and is still a member of a  
Presbyterian church in Illinois. It was  
stated last night that a Mr. Dawson and  
family, whose former home was in Rich-  
mond, Ind., will return to that place and  
bid adieu to Michael. J. C. Beman a  
young druggist of Toronto, gave up his  
position as manager of a store in that city  
and came to Detroit with his wife to join  
Michael and his followers. "We shall  
leave for Toronto in a day or two," said  
Mrs. Beman last night. "We were de-  
luded into this thing, and want to get out  
as soon as we can. Michael is a pretender.  
He speaks of his work as God's work. It  
is anything but that. My husband gave  
up a nice position in Toronto. Our com-  
ing here in connection with this moving  
here has got into the papers there, and it  
is very unpleasant for us to go back, but  
we have got to face the music. We were  
satisfied that Michael was not what he  
claimed to be soon after we came here. I  
shall be glad to get away from the long-  
haired people, and there are lots of other  
people who will be getting away soon. I  
don't know how many, but the Toronto  
people, I think, will most all go back."  
Mrs. Beman says that a very nice young  
lady came with them, and that thus far  
she seems to be entirely carried away by  
the belief of Prince Michael. "Her folks  
blame us," said Mrs. Beman, "for having  
her come here with us. We did not  
influence her to come; she came of her  
own free will. We are trying to convince  
her now that she had better give up  
Michael and come home with us, but thus  
far we have been unable to succeed. She  
gave him her money, about \$300, which  
he would return to her if she asked for it  
now, but now she won't do it. I am sorry  
for the poor deluded creatures who have  
been fooled by Michael." Several other  
followers of Michael are planning to leave  
for their homes, and it is evident the  
organization is beginning to lose strength.  
The members are very guarded in what  
they say, and even those who see their  
mistake will not, with one or two excep-  
tions, talk freely on the subject.

### NEWS ITEMS.

Mrs. Burke, a deserted wife in St.  
Louis, killed her child with rat poison on  
Saturday night.

Mr. Duncan Campbell, a well known  
and greatly respected pioneer, died in  
Simcoe on Saturday, aged 90 years.

Lord Salisbury's reply to the United  
States regarding the Berhing Sea has  
reached Washington, but the contents  
have not been divulged.

Mr. Dalton McCarthy gives notice of a  
resolution in the House of Commons pro-  
posing that a Canadian representative be  
attached to the British legation in Wash-  
ington.
