PRESENTATION .- On Tuesday evening of last week, a basket social was held in Lifford hall. When Mr. Wm. Hannah took the chair, some three hundred persons were present. Ample justice was done to the eatables provided by the ladies and "the feast of reason and flow of soul" commenced. The star of the evening was Mr. Jas. H. Wilson, reeve of Manvers, and his recent sweeping victory was the principal topic of conversation and congratulations were in order. Mr. Wilson has hosts of friends in the township and to show their good will and esteem, on their behalf Mr. Arthur Mc-Gill read the following address, while at the proper time Mr. Jackson Hannah, stepped to the front with a purse containing about \$100:-

### THE GERMAN ARMY BILL

VIOLENT POLITICAL CONTEST SEEMS IMMINENT.

Stirring Events Will Follow the Rejection of the Army Bill-Dissolution of the Reichstag and an Appeal to the Coun-

BERLIN, March 20. -Before the final vote on the Army bill in committee left the Government face to face with a definitely hostile majority Chancellor von Caprivi had conferences with Herren Huehne, Rickert, Bennigsen and Lieber, the c iefs of the parties represented by the committee. The negotiations left the Government and the committee more hostile than ever towards each other. Only the Conservative and Free Conservative members of the committee supported the bill. The Chancellor gave as resolute a rejection to Herr Bennigsen's compromise proposals, though they largely conceded the Government's demands, as he did to the proposal of Herr Lieber, which conceded nothing. Herr Lieber's proposal, about which much mystery has been maintained, showed that the Center party had no desire to further treat with the Government. His proposal was practically the submission of a new bill providing for the maintenance of the present peace effective with a reduced term of service, the Government having the option in the event of emergencies to retain in active service the men who had served their term. The report of the committee will be sub-

mitted to the Reichstag after Easter. Every indication now points to the Reichstag supporting the committee. The determined attitude of the Chancellor proves that Emperor directed to criticism of the bill than to attacks upon the Government.

Herr Richter declared the rejection of Herr Bennigsen's compromise was an event in the light of which the whole political situation was thrown into clear relief. It was proof that there was no possibility to deal with a Government behind which was an imperious will. All the parties, he said, might now combine in defence of constitutionalism against absolutism. Herr von Bennigsen denounced the stand has been a disagreeable surprise to conserva-

disregard of their offers of assistance and Then Freiherr von Buol-Berenberg, a Centrist, posed as an advocate of financial retrenchment, repeating all the old arguments on that question. Chancellor von Caprivi rightly character-

ized the Centrist proposals as the negation proposal he rejected on the ground that the Federal Governments must adhere to the complete scheme of reorganization submitted to the Reichstag. The Chancellor held that the reiterated appeal to the Government to consider the burdens upon the Empire was insulting, and he declined to reply to Herr Bennigsen's predictions about the results of the committee's refusal to pass the bill. Finally the Chancellor tried to defend the action of the Government as entirely constitutional. He resented Herr Richter's remarks about absolutism and suggested that he might yet obtain the support of the National Liberals. Nothing, however, seems to justify this suggestion unless the Government's policy is modified. The National Liberals would Herr Bennigsen, who is now Provisional President of Hanover, would have to resign his post. But the question is, is dissolution inevitable? The Emperor must first obtain the assent of the Bundesrath or Federal Council, the Bavarian and Saxon members of which are known to be absolutely hostile to an appeal to the country, preferring the withdrawal of the Army bill. If the Bundesrath refuses the Emperor's demand for the dissolution of the Re chstag, Chancellor von Caprivi must resign. If dissolution occurs the outlook for all parties is perplexing.

Herr von Kleist-Retzow at yesterday's meeting of the committee promised the Government the united support of the Conservatives. He spoke with too much assurance. Herren Mirbach, Manteuffel and other prominent Conservatives are already threatening to desert the Government unless the Chancellor's commercial treaty policy is abandoned.

Amid the complications of an electoral contest some of the Nationals would oppose while others would support the Government. Some of the Conservatives in the event of an appeal to the country will ask for the support of the electors mainly on the anti-Jewish platform. Others will stand as purely Government candidates. The Freisinnige, Centre and Socialist parties with their clearly defined platforms would probably reappear in the Reichstag so reinforced as to compei the Emperor to yield or raise a momentous contest between the monarch and Parliament. The last words of Heir Bennigsen pointed to these issues. If the Government, he said, persisted, Germany had reason to dread that she would be thrown into conflicts of such immeasurable consequences that it would be doubtful if the present generation would ever again see a settled condition of public life.

The Reichstag Commission to which the measure was referred has passed the bill relating to spies and to high treason. applies to spies upon fort works, arsenals, war ships, etc., and fixes the penalty upon conviction at from two to five years' imprisonment, to which may be added a fine of from 1500 to 5000 marks.

Owing to the political crisis Chancellor von Caprivi will not accompany Emperor William on his visit to Rome, where His Majesty will take part in the celebration of King Humbert's silver wedding.
