DR. TALMAGE'S EXPERIENCES.

Aye, there are great harvests to be reaped, and now I thrust in the sickle because the harvest is ripe. "Wisdom crieth without. She uttereth her voice in the streets." In the first place the street impresses

me with the fact that this life is a scene of toil and struggle. By 10 o'clock every day the city is jarring with wheels and shuffling with feet and humming with voices and covered with the breath of the children of God are on every street, smokestacks and a-rush with traffickers. Once in a while you find a man going along with folded arms and with leisurely step, as though he had nothing to do, but, for the most part, as you find men going down these streets on the way to ness, proving themselves the heroes of business, there is anxiety in their faces, as though they had some errand which must be executed at the first possible mighty shall be their triumph. moment. You are jostled by those who have bargains to make and notes to sell. Up this ladder with a hod of bricks, out of this bank with a roll of bills, on this dray with a load of goods, digging a cellar, or shingling a roof, or shoeing a horse, or building a wall, or mending a watch, or binding a book. your shoulders sting with the lash. Can it be that passing up and down these streets on your way to work and business you do not learn anything of the world's toil and anxiety and struggle? Oh how many drooping hearts, how many eyes on the watch, how many miles travelled, how many burdens carried, how many losses suffered, how THURSDAY, MARCH 23rd, 1899 many battles fought, how many victories gained, how many defeats suffered how many exasperations endured-what losses, what hunger, what wretchedness, what pallor, what disease, what agony, what despair! Again, the street impresses me with the fact that life is full of pretension and sham. What subterfuge, what double dealing, what two facedness! Do all people who wish you good morning really hope for you a happy day? Do all the people who shake hands love each othe? Are all those anxious about your health who inquire concerning it? Do all want the world know half as much as it pretends to know? Is there not many a wretched stock of goods with a brilliant show window? Passing up and down the streets to your business and your work, are you not impressed with the fact that society is hollow and that there are subthere are who swagger and strut and how few people who are natural and walk! While fops simper and fools chuckle and simpletons giggle, how few people are natural and laugh! The courtesan and the libertine go down the street in beautiful apparel, while within the heart there are volcanoes of passion consuming their life away. I say these things not to create in you incredulity or misanthropy, nor do I forget there are thousands of people a great deal better than they seem, but I do not think any man is prepared for the conflict of this life until he knows this particular peril. Ehud comes pretending to pay his tax to King Eglon, and while he stands in front of the king stabs him through with a dagger until the haft went in after the blade. Judas

Iscariot kissed Christ. Again, the street impresses me with the fact that it is a great field for Christian charity. There are hunger and suffering and want and wretchedness in the country, but these evils chiefly congregate in our great cities. On every street crime prowls and drunkenness staggers and shame winks and pauperism thrusts out its hand asking for alms. Here want is most squalid and hunger is most lean. A Christian man going along a street in New York saw a poor lad, and he stopped and said, "My boy, do you know how to read and write?" The boy made no answer. The man asked the question twice and thrice, "Can you read and write?" and then the boy answered with a tear splashing on the back of his hand. He nor write neither. -Mr. and Mrs. Jno. Beacock of Blackstock were surprised on Monday last by the invasion of a number of their friends who met to bid them farewell before their departure to their future home in Bowmanville.
