DUNDAS & FLAVELLE BROS.

..THE.. RED BIRD

Is the best known Bicycle in Lindsay. It has a good reputation. For New and useful ideas it is not surpassed. Beautiful lines, superb finish, a wheel to stand wear and strain. The bearings have a patent device to remove friction. See it. More than a dozen samples in stock in our New Ware room.....

CULLON BROS.,

Livery and Salesroom Lindsay St., near the River. When you are down that way drop in.

The Buffalo all Steel Disc Harrow

This is the only Disc Harrow made or sold in Canada, having independent, adjustable spring pressure upon the inner ends of the gang discs, allowing any amount of pressure to be thrown upon the inner ends of the gangs, by the foot of the operator. By this means a perfectly flexible action is secured and the ground can be worked to a uniform depth. Examine this machine carefully and compare with others.

THE NO. 12 CULTIVATOR

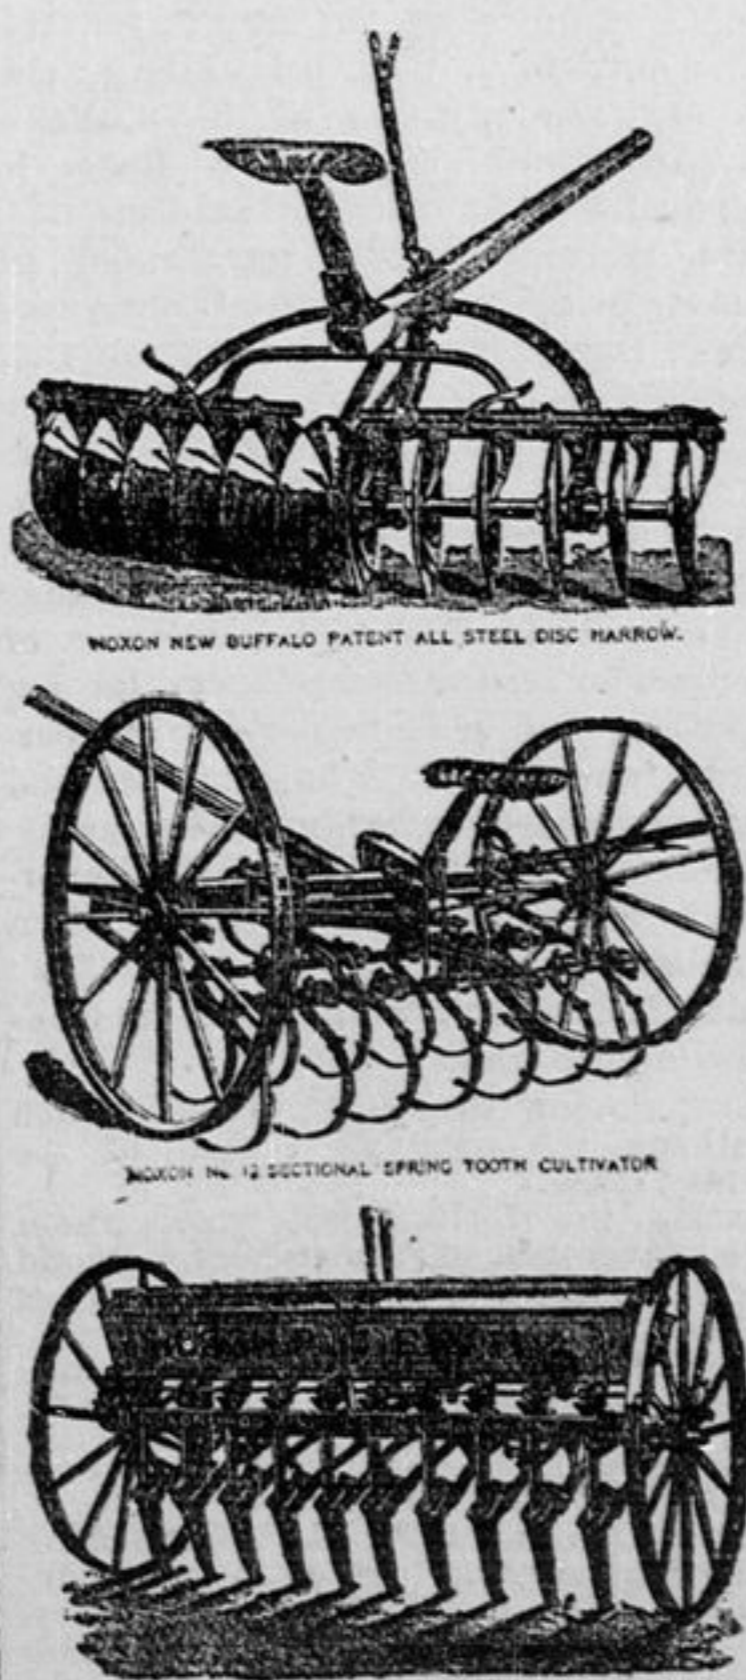

IS A MARVEL OF SUCCESS. The only cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only cultivator with a movable tooth set so that the angle of the teeth can be regulated to suit any conditions of the soil. Pressure can be regulated to act differently on every section requiring it. The teeth are carried between the wheels instead of trailing behind, as in other machines, thus securing lighter draft. This machine is furnished with grain and grass seed box when required. It has reversible diamond steel points for the teeth; also extra wide thistle-cutting points can be furnished. Examine it and you will buy no other.

THE BEST DRILL MADE

The Hoosier Needs No Introduction. Over 40,000 Drills and Seeders of our manufacture are in use in Canada. The only drill made with lever for instant, and perfect regulation of depth of hoe in all kinds of soil, while team is in motion. Sows absolutely correct to scale; saves seed, as every kernel is deposited at a proper depth, to grow. Purchase only the best and you will be satisfied. We also manufacture Binders, Reapers, Mowers, Rakes, Cultivators and Pumps, as good as the best. Send for illustrated catalogue.

NOXON BROS. MFC CO., (Limited) Ingersoll, Ont., Canada.

BRETHOUR & CONQUERGOD, Agents, Lindsay

CHRISTY'S HATS.

Men's Black, Green, Brown and Grey Fedora Soft Felt Hats, best quality and latest shapes, at \$2. DUNDAS & FLAVELLE BROS.

MARRIAGE LICENSES

Issued by BRITTON BROS., jewellers, Lindsay.—1 yr. FOR SALE

That brick house and one acre of land attached, situate on Adelaide-st. and adjoining the Collegiate Institute grounds. Fine young, bearing orchard and stable on the premises. For terms apply to C. Chittick.

WHAT J. D. HUTTON SAYS

In a personal letter recently received from Mr. J. D. Hutton, who has been in Edmonton, N.W.T., for several months, reference is made to Mr. Kyle's remarks regarding a carriage industry for this town. In the course of his letter Mr. Hutton says: "The sales of farm wagons here during last summer and fall were tremendous. A great many carriages were also sold. Both American and Canadian firms have agents on the spot, and I think the business at this point is about equally divided between them. The American wagon is no better than our makes, but it sells for more money. The reason is largely mentioned by Mr. Kyle, viz, that the American wagon is uniform in its parts. There are no repair shops and no wood to make parts of, at any rate. The convenience of getting repairs is the secret of the American wagon's sale. There is a great market here. If Lindsay gets a big manufacturing establishment and makes a uniform article in wagons and carriages it can, on account of its proximity to the raw material, command the biggest wholesale trade of any place in Canada. There is a growing demand in this vast and quickly settling portion of the Dominion."

VACCINATION ONCE MORE

At a meeting of the Board of Health on Thursday evening, Dr. McAlpine stated that the Provincial Board had issued orders for the vaccination of all children who have not already been treated. Some discussion followed, in which the mayor asked if vaccination was of any great value. "Yes, certainly, one of the greatest discoveries in our profession," said the doctor, and to a suggestion that it often does more harm than good, said: "No, not at all." A committee composed of the Mayor, Dr. McAlpine, Jas. Keith, Jos. Staples and Geo. Mills was appointed to meet the School Board and arrange about the time the vaccination should be done, and also whether it would be better to buy the vaccine or have the doctors provide it. There are two kinds, one made by Park Davis at \$6.75 per hundred quills, and another by Mullford at \$8 per hundred. If the doctors supply the vaccine they charge 50 cents, and if not 25 cents. The supply would cost the town \$30. The nuisance at the steamer wharf last summer is under consideration, and before another season some private drains, which are blamed for the trouble, will be looked after. The Board thinks the town sewer is not in fault.

LINEN TOWELS.

25 dozen Linen Huck Towels, red border, fringe on ends, size 23 x 42 inches, 25c per pair. 10 dozen half bleached Huck Towels, red border and hemmed ends, 30c per pair. DUNDAS & FLAVELLE BROS.

MILLINERY FOR EASTER.

Millinery Display on Wednesday and Thursday, March 29th and 30th DUNDAS & FLAVELLE BROS.

LOST OR STOLEN

A grey cutter robe was lost between Mauder's hotel, Lindsay, and Mr. Thos. Downey's, Reaboro, on Wednesday, the 8th inst., or stolen from his driving shed about that date. Finder please leave at the storehouse, Reaboro, or this office. Anyone found retaining the above robe after this notice will be prosecuted.

THE PUBLIC LIBRARY

The public library will open to-night (Thursday, March 22nd), at seven o'clock. Books will be given to night, only to those who have their tickets. Tickets may be secured on application to the librarian and filling out form provided for the purpose. The library will be at the library every Tuesday evening from seven to nine o'clock, and Tuesday, Thursday and Saturday from three to five o'clock. No tickets will be issued to-night.

COLLARS AND CUFFS.

Men's Collars, any shape, in best 4-ply quality, W.G. & R. make—the regular price is 20c., we make it 15c. Men's Cuffs at 20c., 25c. and 35c. per pair. DUNDAS & FLAVELLE BROS.

BICYCLE NOTES

—When making mention of the bicycle agencies in last week's issue we managed to omit the pioneer of the bicycle trade in this country—Mr. Jos. Riggs. Mr. Riggs' nearly twenty years experience with wheels puts every other dealer in town in the light of a novice when compared with him. When the trade was young, he had a high wheel to the beautiful chainless Crescent in his stock this season. There is one thing in favor of the Crescent wheels—they are far handsomer and complete than they are before. Both chain and chainless wheels are models of correct design and beautiful finish. More Crescents have been brought into this town from Toronto than there was no agent here than any other five kinds put together. The Crescent is strictly all right. Mr. Riggs handles the Alert and Tornado, wonderful values at \$25 and \$30. His shop is headquarters for sundries and repairs.

—Since our review of the bicycle trade in last week's issue Mr. Herb Little has secured an agency for a couple of fine wheels. They are made in Berlin, the high grade is named after the thriving town and its \$35 mate is christened the Canadian. It is a stunning mount with a single-piece fork, nickel-plated throughout. The handles have a patent adjuster, Watson seat-post and roller chain, narrow tread and D tubing, together with the Boston rim, dunlop tires, beautiful finish and \$35 price will make the Berlin a fast competitor in wheeldom this summer. There is nothing finer in town for the money. Mr. Little has already made a sale of two and has no fear for the future. He handled a good wheel last year and knows what he is talking about. If you are going to buy a cheap wheel see his Canadian.

LITTLE LOCAL LINES

—Thoroughbred fowl and eggs for sale, J. J. WETHERUP, Box 415, Lindsay.—10-5.

—There are fifty cases of diphtheria in Peterboro. It is generally of a mild type.

—Miss Bulliek, dress and mantle maker Kent-st., opposite Hurley's grocery store.

—Wanted—A domestic from the country for a family of three. Apply to Mrs. T. ARMSTRONG, north ward.

—Marriage licenses issued by Mr. THOS BEALL at his residence, Albert-st., also at G. W. BEALL'S store, Kent-st.—5-tf.

—To relieve the wood famine, Mr. Robt. Bryans brought down fifteen cars of hardwood from the north country yesterday.

—If you want to enjoy a hundred laughs in as many minutes hear "The Real Widow Brown" at the Academy of Music this (Thursday) evening.

—Mr. Lyman Minthorne has been appointed bailiff of the sixth division court, in the place of W. H. McLaughlin, who has resigned.

—Five cars of farm implements were shipped to the Northwest by the Sylvester firm on Wednesday. Heavy orders are in process of completion.

—A hot game of hockey—Union versus Separate schools—will be played in the rink to-night, 23rd. Everybody turn out and encourage the boys. Admission five cents.

—Messrs. Rider and Kitchener came to town on Monday morning and set about looking up a site for their new factory. They expect to be ready to begin manufacturing by the end of August.

—Dr. E. A. Totten will shortly move from his present dental rooms to those lately occupied by Geo. Wright, photographer, over Morgan's drug store. Carpenters are now at work overhauling the interior.

—"Arty" Robinson, the genial Kent-st. barber, is soon to move to a stand opposite the Benson House. He is having elegant quarters fitted up and will have a special parlor in which to do artistic hair-trimming for ladies and children.

—James Nicholls, driver of Dundas & Flavelle's big team, drew a 10-ton boiler to its place at Kennedy & Davis' new mill on Tuesday. It was a great piece of drawing and Jim thinks his team will get the money at the fall fair drawing contest.

—Rev. Dr. and Mrs. Kilborn will lecture in the Cambridge-st. Methodist church on the evening of Tuesday, 28th inst., on their mission work in China. Dr. and Mrs. Kilborn were in China during the recent riots, and will have something of interest to tell us. Silver collection.

—Tenders for town supplies have been called for to be in by the 30th inst. Seventy-five thousand feet of pine or hemlock plank, ten thousand feet of cedar scantling, five thousand feet of flatted cedar, and a quantity of tamarac plank are needed.

—The next Manitoba excursion will leave on March 28th. For tickets apply to T. C. MATCHETT, 60 Kent-st., Lindsay. Tickets purchased at the C.P.R. office in Lindsay are good to start from any railway station on the Midland Division of the G.T.R.—8-6.

—The idea prevails in some quarters that the creamery will operate only for a short time this season. That is a mistake. It will run as long as a supply of cream can be obtained. At present the demand for the butter is greater than the supply and the industry looks promising indeed. Send in your milk.

—Mr. L. Donaldson, an employee of Dundas & Flavelle Bros., who came here not long ago from Port Perry, is very ill. He strained himself while exercising in the Y.M.C.A. gymnasium and an internal abscess formed. On Tuesday evening Dr. Peters of Toronto performed a very successful operation, but as yet the result is in doubt.

—Messrs. Robinson & Ewart, our two enterprising young citizens who have opened a boot and shoe store next to Higginbotham's drug store, seem to have started right. Their store is a model of convenience and good taste. In addition to an elegant brand new stock they have put in the most modern appliances including a button machine and patcher.

—Mr. T. W. Evans of Yelverton left on Tuesday for Winnipeg, and expects to remain a couple of months in the prairie province. He took with him a couple of fine stallions, which he will sell there. His well-known stallion "Prince Edward" has come through the winter in fine fettle and is to-day heavier than ever. He will be placed on his old route again this season.

—On Wednesday Mr. Weldon Brown of the east ward received a telegram from Outremont, near Montreal, conveying the sad intelligence that his brother Thomas had been killed on the C.P.R. the day before. The unfortunate man was a brakeman and it is supposed he fell from the car. He is a son of Mr. Samuel Brown of the east ward. The body will be brought here and buried from the father's residence at 230 on Friday.

—After the regular meeting of the Westminster lodge S.O.E. the members went into committee of the whole, President in the chair, on the discussion of lawn sandwiches, coffee and Bro. Boxall's report of the recent session of the Grand Lodge at Ottawa. A brief but interesting outline was given and a later date of talk will be gone into when at the capital. Bro. Boxall attended the opening of parliament and got some pointers that will stand him in good stead when he goes down to take his seat at some future time.

CHURCH NOTES

—Rev. Thos. Manning, pastor, conducted both services in Cambridge-st. Methodist church. In the morning he discussed the character of Judas and suggested that he may have been the strongest character among the disciples. He at least was a good repenter and may have had no base motive in betraying Christ, since he doubtless believed Christ would free himself and the cause would be advanced". Mr. Stuebury of Toronto sang "Hosanna in Excelsis" after the sermon.

—Anniversary services were held at the Baptist church on Sunday and Monday. On the former day Rev. C. H. Schutt, B. A., E.Th., of Uxbridge conducted both services and preached instructive and forceful sermons. On Monday evening a tea was served in the school room, after which a platform meeting was held. Mr. Schutt spoke very interestingly of Henry Ward Beecher, and paid an eloquent tribute to the great preacher. Mr. Eva Rose York of Toronto followed in an evangelistic address on "Five Steps to the Heavenly Places." Mrs. York is a very pleasing speaker whose directness and sincerity are decidedly impressive.

—The curlers attended divine service at St. Paul's on Sunday evening. A few minutes before the hour they mustered in about one hundred strong and were given seats in the front of the church. The rector, Rev. C. H. Marsh, delivered the sermon. His text was, "Bodily exercise profitable a little, but godliness is profitable for the life that now is and for that which is to come." In an exposition of these words the rector spoke of the great advantage of taking proper exercise but uttered warnings against its abuse and the dissipation that often attends it. The reality and satisfaction of the future life were made a strong inducement to all to live with it in view. The simplicity and earnestness of Mr. Marsh's address had the effect of a personal appeal to a better life. It was a wholesome and timely life. It was a personal appeal to a better address and much appreciated by the large audience who heard it. During collection Miss Laura Russell sang a solo of rare beauty both in words and music.

LITTLE LOCAL LINES

—The Spring Assizes open at Lindsay on Monday next, March 27th.

—James Goslin sold his draught horse, Monday to Mr. John Hawthorne of Peterboro on Friday last, and also his two-year-old colt by Udon Var, purchased from Geo. Staples of Lifford.

—Harry Frampton, an employee at the printing office, slipped from a plank Friday afternoon and fell a distance of three feet, but broke his left arm or the elbow in the fall.

—Mr. Albert Anderson of Brandon, recently shipped a carload of horses here to the west and was so successful that he has just completed another which comprises some excellent animals. He paid good prices.

—On Monday while Mr. Alf. Brown of Peterboro was chopping down a tree he was struck on the head by a falling limb. The blow knocked him senseless and inflicted a severe scalp wound on the right side of his head. It was a narrow escape.

—Mr. F. K. Reesor, brother of Mr. B. F. Reesor of this town, had his mill-dam at Markham washed away in the freshet that followed the heavy rain of Wednesday, 15th. Other structures in that locality were also washed away.

—The prospects for getting cream to the country from a distance are good. Mr. Fee of Barry's Green sent down 150 pounds on Friday. Skimming stations should be established at some points before the season opens.

—Mr. F. W. Barrett of Toronto, chairman of the Burleigh Falls Electric Syndicate and an expert in flooding companies says that there will be no difficulty in carrying the capital to carry the project through.

—Maudie Drew, the 16 months old daughter of Mr. John Drew of Peterboro, was fatally poisoned on Friday morning by eating "rough on rats." The package was left on a shelf, while playing with the little one got it with the above results.

—Mr. Robt. Baldwin, the genial Cambridge-st. blacksmith had his first finger badly lacerated on Tuesday. He was carrying a heavy plank up a stairway when he slipped and tore the flesh of his finger to the bone. He will be laid up for several days.

—A district Y.M.C.A. convention will be held at Port Hope on Good Friday. A number of prominent Lindsay Y.M.C.A. members will be present, and Dr. W. H. H. will occupy the chair for at least the sessions. The musical part will be under the direction of Mr. W. Robson.

—Spring and Summer Millinery opening at Miss Mitchell's on Thursday, Friday and Saturday, March 24th and 25th, and following days. Grand display Thursday evening.

—An amusing incident occurred in Lindsay on St. Patrick's day. A gentleman paid fifty cents in a restaurant for a bunch of shamrocks, which he hading companion to take to pinning it on his coat. While his back was turned a half intoxicated man entered and mistaking the shamrocks for water cress, sprinkled it with pepper and salt and swallowed it.

—It is reported that owners of some of the duck preserves are trying to obtain legislation that will curtail the privileges of the general shooting public. The secretary of the Rod and Gun Club, Toronto, and secretaries of similar organizations to send him their addresses that united action may be taken to prevent this partial legislation and maintain their rights. Our local sports will no doubt continue.

—Thoughts far from religious and language to match were common to church-goers on Sunday morning and evening. The snow-plow people are chiefly to blame. Their pretense at cleaning the sidewalks in the late storm was too much for the patience of even good folks. Everyone whose walk was not cleaned should make complaint to the council and proper submission should be made from the salary of the snow-plow people just as is done with the Light Co. for lights out.

—The social and lecture at the Queen-st. Methodist church on Thursday was well attended. The waiters were all married men whose skill indicated good home discipline and lots of experience. Rev. E. S. O'Rourke delivered a lecture on "The Sinner" that contained some useful suggestions, especially to young people. Miss Mabel Armstrong, Miss Gertrude Lee and Mr. W. Musselman rendered several instrumental and vocal selections. The water brigade contributed a chorus.

—The worst wood famine of years struck the town early this week. On Monday no hardwood could be got in either of the yards and tamarac was \$3.50 per cord. The absence of snow last week followed by the blizzard of Saturday, is to blame. People who have wood can get money for it now if they bring it in. If you owe a bill that you have promised to pay with wood as soon as the snow melts, now is your chance, fetch it in; your creditor is waiting to see if your word is any good.

—A couple of our merchants took in the recent cheap excursion to the city and combined business with pleasure. A part of the business was to make a tour of the departmental stores, asking prices, examining goods and observing others buyers. Some gentlemen discovered that some things, usually trifles, are cheaper there than here. Many goods are as cheap in Lindsay as there, and some are considerably cheaper here. Coming home on the train they were afforded considerable diversion by the conversation of ladies who had made purchases and were talking them over. In one case they were appealed to for help in trying up an imposing bundle of departmental purchases, that evidently did not give satisfaction.

—A good crowd of spectators attended the carnival at the rink on Friday night. The ice was in perfect condition and some of the best performances ever done by local people were presented. In the single contest between local speeds, W. Henders took first, P. McDonald second, John Massaw third, S. Soanes and Geo. Brady did not finish. In the double event the Henders-McDonald combination arrived first, and Messrs. Massaw and Scott second. William LePage gave a capital exhibition of fancy skating. Some of our sporting people could make no mistake in taking that youth in hand. He is the makings of a good one. His performance on the ice was also creditable. He went around the rink twice on 26 inch wheels. The spectators prize was won by ticket 300 and Miss Lily Dickson of Manilla was the lucky holder.

—Science is gradually removing life's discomforts. Formerly if the winter pipes got frozen during a cold snap, a lot of inconvenience and profanity was the only thing for it till late in the spring. Now that is all done away. Electricity searches out the frost and removes the trouble. Two illustrations were given in town last week. The pipes at St. Andrew's and St. Mary's churches were frozen. Mr. Reesor attached a wire to the hydrant on the street and another to the pipe inside the wall. Then the current was turned on—a good strong current that turned light from 15 to 20 arc lamps. There was a hissing noise and a sound as of splitting ice. In 16 minutes at the former place and longer time at the latter the pipes were as clear as in the summer. This will prove a discovery of the highest importance in our climate. Mr. Reesor explains that the copper wire is a better conductor than the iron pipe so that when the current strikes the latter, electricity is generated and hence the ice is melted. It is a sure remedy.
