Editorial Notes.

The Ontario Legislature will evidently have a short life this session, as matters are moving along rapidly. The budget speech was delivered on Tuesday by the Hon. Mr. Harcourt. The surplus is placed at \$5,838,000 or a million less than that of 1885. Mr. Clancy replied for the opposition.

Nor satisfied with doing the horse out of his job of hauling street cars, electricity is now being applied to the work of moving canal boats, at a faster pace than a mule's walk. Thus modern improvements are rapidly and surely abolishing the market for heavy work horses. Farmers everywhere have practically made their last dollar out of a business that was for many years carried on with profit. The conditions under which Canadian horse raisers once worked have undergone a great change, not brought about by the McKinley bill, or other tariff laws, but by the operation of scientific forces. Politicians who tell another story to the agriculturists will hurt the farmer more than they will help themselves. The market for low grade horses that was closed by the enactment of the McKinley bill could never be re-opened by its repeal. It will be money in the pockets of the Canadian farmers if they realize this fact and start in raising the right kind of horses for the market that no hostile tariff laws can take from them.

LOCAL MATTERS.

Y. M. C. A. Notes.

A very enjoyable entertainment was given in the hall on Tuesday evening. Local talent furnished the programme and the attendance was very fair.

The monthly meeting of the board of directors was held on Friday evening last. There were five directors present. The usual business was transacted. The reports from the committees were interesting and satisfactory. A good deal of aggressive work is being done in connection with the meetings on Saturday evening and Sunday afternoon. The boys meeting is growing in members and interest. The financial needs of the association are urgent and friends of the work are asked to remember them, as they have the ability.

The young mens' meeting on Saturday, at 8.15 p.m., will be addressed by Mr. Jas. Low, on the topic, "Christ as a Student of Scripture."

The meeting on Sunday, at 4.15 p.m., promises to be very interesting. Rev. L. W. Hill, B.A., of Port Perry, has promised to deliver the address. A hearty invitation is extended to all young men to come on Sunday afternoon.

The Diamond.

Ball will boom in Lindsay this season and the prospects for a strong club are better than ever they were. All the old heads and many new ones are in it, and with the right men at the helm, the game is bound to become very popular. A meeting was held at the Simpson house parlors on Friday evening. In the absence of the President, the chair was occupied by Mr. Malcolmson. Committees were appointed to arrange for uniforms, grounds and to meet with a committee of the lacrosse club to make arrangements for a joint celebration on the Queen's birthday.

The secretary is in communication with an amateur pitcher, one of the slickest in the province, and expects to complete arrangements with him in a few days.

Another meeting of the members will be held some night this week to receive the reports of the committees, as the players are anxious to get to work at the earliest possible moment.

An effort will be made to have the first league game played here on the Queen's birthday. It would prove a big drawing card.

Mr. S. Malcolmson is the convener of the clubs forming the Midland League Oshawa, Cobourg, Peterboro, and Lindsay, and has called a meeting, to make a schedule arrangement for the season, to be held at Lindsay, next Thursday.

The Peterboro players are endeavoring to secure Stapleton, of Ernestown, as pitcher. Landers of last season's Edison team will probably be his backstop.

The Peterboro team will consist of McCabe, Poulfret, Duckworth, Sawers, Forster, Graham, Brennan, Landers and Stevenson, if he can be secured. They will wear the same style of uniform as the Edison did last season.

We notice by our exchanges that baseball is reviving all over the country, as far as Ontario is concerned at least.

The Modern Highway.

Mr. Smith, of Allendale, is relieving agent at the G.T.R. depot, pending the appointment of a permanent official.

The employees of the G.T.R. have intimated to the company that they have no intention of striking during the coming summer. They are quite satisfied with things as they are. The rumors of a railway strike in Chicago during the World's Fair are now discredited.

The Whitby Chronicle says:—On the 13th of March a consignment of butter was shipped from Orillia to Montreal per G.T.R. and arrived there on the 20th, taking exactly seven days, or about the time it takes from Liverpool to Portland or New York. This is at the rate of about two miles an hour. O, for the good old days of stage coaches!

It is doubtful after all if Orillia will have a new station as it is just about decided that Superintendent Webster and his staff will use the old Midland station for offices. There will be ten dispatchers, five for the Northern and five for the Midland division, and this will constitute probably the largest dispatch office on the G.T.R.

The News Letter says:—E. P. Hanford, chief engineer on the G.T.R., was at Orillia, on Tuesday, surveying the whole grounds belonging to the railroad company, with the object of enlarging the yards and erecting a round house and workshops here. It has been finally decided to move the Allendale and Lindsay workshop here as soon as arrangements can be completed. This means considerable of an increase to Orillia's population, and will be rather a death blow to the village of Allendale.

Geo. Scully, of the Michigan Central road, was in Toronto the other day, and to a Star reporter he spoke as follows:—"American railway men envy your Canadians. We are not afraid of cholera, but we are afraid of our employees. They hang over our heads like the sword of Damocles, not by a hair, but by a cobweb, and we don't know when it will drop. Fancy if you can the strength and courage that will give the Grand Trunk management. They can go to work and lay their plans with the satisfaction of knowing this. They will be carried out. Your train men are morally far better than ours."

"How do you account for that?" "Well you Canadians get a better education, and ninety-nine in a hundred of you can repeat the Lord's Prayer in a pinch and 80 per cent of you at least know the ten commandments by heart. More than that, there are no accused anarchists poisoning your moral atmosphere. The Grand Trunk is in luck."

Important to Horsemen.

Each succeeding number of Dunton's Spirit of the Turf since its change of proprietorship in December last, is better than its predecessor. It is the oldest turf journal published west of New York, and has long been a recognized authority on turf matters. It is printed on the finest toned paper, is beautifully illustrated, and the letter press is faultless, being printed from new, clear type throughout. The new proprietor, Mr. F. J. Berry, the famous horse dealer, evidently intends to spare no expense in making his journal the leading horse paper of the west. The subscription price is only two dollars per annum. The size is the same as the four dollar papers, and will be found a valuable advertising medium. Each subscriber has a chance of winning a cash prize of \$500. Send for sample copy to F. J. Berry, Union Stock Yards, Chicago, and find out all about it.

A sub-committee, who had charge of the works at the Forest house bridge, Bobcaygeon, and the Pigeon creek floating bridge, reported the total expenditure for repairing and re-building the first named bridge, as \$2124.32 and for the second as \$947.72. All the accounts were duly passed and the business relating to these two bridges closed. The proceeding throughout were harmonious and the best of good feeling prevailed.

Female Teachers.

In the inspector's department of the Ontario Teachers' Association H. Reazin, P. S. I., North Victoria, waded into the third-class female teachers who were flooding the province and by under bidding were supplanting the male teachers, the second-class teachers and the qualified teachers, much to the detriment of the schools. The high standard of the schools is being lowered by the influx of females. He thought that restrictions should be placed upon the females, and that a premium should be placed upon gentlemen teachers. This paper was heartily endorsed by all the inspectors.

Passed Away.

Port Hope Guide, April 10:—"Scarcely a week passes but it becomes our melancholy duty to write a notice of the death of some of our old friends and neighbors. Mr. Carveth was born in Cornwall, England, in 1809; came to Canada when a young man; lived a number of years in the town of Cobourg, where he was married to his late wife, Elizabeth Whitfield, who preceded him to the spirit land on the 23rd May last. Mr. and Mrs. Carveth and children settled in Port Hope in 1848, residing here ever since. He leaves three sons and three daughters and a large number of grand and great grand children, with other relatives to mourn his departure.
