STYLE-

.. WE AIM to keep in close touch with the style that

is the talk of the street, and enforce our position by offering reliable, up-to-date goods. As to the wear of an article, good quality will cover that requirement; as to its looks, its modern tone, our model stock, new, fresh and stylish, meets the problem exactly. This store will continue to set the pace for the latest. Another thing, we combine the essentials of fashion with decided advantages that give value par excellence. You can get style always by paying for it, but you can get style at this store by paying a modest, living price for it. "Season-able and reasonable" is our motto, and we live up to it strictly, and enable our customers to benefit by all it means.
