The reason is that the United States government exacted a return duty on the circus plant. This duty was so stiff that few shows could afford to leave the country and return again. It is a poor show that is not worth a couple of hundred thousand dollars. This would mean a duty of about \$70,000 to be paid on re-entering the country. This duty has been entirely removed, so that the coming season will no doubt be prolific of circuses.
