present difficulty will be overcome and a new in lustry established. We are not capitalists and have only got along by hard work and great care. We have had to look outside for capital, and the interest and other expenses will amount to a large increase in the cost of our business. We are opposed to bonusing and to any other itself be run to advantage, so that our are opposed to bonusing and to any other system by which industries are favored, but others get these things and if we are going to compete we cannot overlook the advantage of these favors. In view of this we ask the Board of of Trade to recommend the municipal council to grant us a fixed assessment for ten years. This favor will mean scmething to us financial-

Mr. Graham-I am glad to see our own citizens showing enterprise and also inde-pendence of bonuses or material aid. I certainly think we should rec mmend Mr. Horn's request to the favor of the town

The President and Mr. Edwards were appointed to present Mr. Horn's request to the council and convey the Board of Trade's recommendation that it be grant-

Sandwiched in between the forgoing and the next matter of public interest, was a letter from Mr. G. H. Hopkins relative to a balance of rent due him from the former Board. This letter was referred to a gen-

eral meeting. LET THE BOATS COME UP The other matter of importance was a

request to the town council, that it present a memorial to the Dominion government asking that the river channel be improved between the town wharf and the Parkin mill. So important did this work appear to the council of the Board that it was further recommended that if need be a deputation should be sent to press the memorial for its favorable consideration. Mr. Robt. Kennedy-I think we can get CPR a grant, if we apply early and vigorously. There is no question about the need for this work. Last year as formerly, there was a great inconvenience because the passenger boats could not get near the town wharf, owing to low water. Tow boats have also had great difficulty and CPR the channel is dangerous for any craft.

It makes very little odds to us what means CPR | may be taken so long as the end is attain ed. The mayor said the other night that CPR the leak in the locks at Bobcaygeon is to blame. Well, if stopping the leak will

work was done by Mr. Walters and that it was not completed is no fault of his. ment did make a grant but at that time | public issues throughout. the Ontario government undertook the work and the former grant was not expended. The river channel requires to be both widened and deepened. The jagged edges of rock remain near shore so that scows cannot lie in close and as a consequence the channel is blocked with boats. These sides should be cut back to near the shore line The depth too, must be increased. The boats always come up very timidly and in low water some of them cannot come up at all. A comparatively small outlay would render the channel navigable at the lowest water and allow the boats to come up at a fair rate of speed. The volume of our passenger and merchandise traffic is great enough to warrant the expenditure being made. The ceuncil ought to send a memorial and a deputation. I would be willing to go to Ottawa at my own expense to press this matter. Mr. J. A. Paddon-What would the cost

President Flavelle-The former grant

Mr. R. Kennedy-We want \$10,000. Mr. Jas. Graham-I think only part of the trouble could be remedied at Bobcay geon. If the river-bed is excavated suffi ciently here, it would hold the water at all seasons and the trouble will be at an end. I think that there are some complaints that the light-houses are not kept in good working order. As part of the Trent waters the Scugog should be in good condi-

tion clear to the lake. A resolution was carried recommending the town council to send a memorial and a deputation to Ottawa to ask for improvements on the river channel between the town wharf and the Parkin mill.

This was concurred in, and Secretary Sootheran will prepare the memorials. A joint deputation will probably go to Ottawa.

### HOW TO GET STRONG.

NATURE SHOULD BE ASSISTED TO THROW OFF THE POISONS THAT

in badly ventilated houses, shops and school rooms during the winter months makes people feel depressed, languid and

Nature must be assisted in throwing off the poison that has accumulated in the system during these months, else people fall an easy prey to disease. A tonic is needed and Dr. Williams' Pink Pills for Pale People is the greatest tonic medicine in the world. These pills make rich, red blood; strengthen tired nerves and make dull, listless men, women and

children feel bright, active and strong. Mr. John Siddons, London, Ont., says: 'I can speak most favorably of the virtue of Dr. Williams' Pink Pills. They prove invaluable in strengthening and toning up the system when debilitated. Having used them for some time past I can speak most favorably of their beneficial results. As an invigorator of the constitution they are

all that they claim to be.' But you must get the genuine Dr. Williams' Pink Pills for Pale People. Imitations never cured anyone, and there are numerous pink-colored imitations against deputation to Ottawa to ask for improvements on the river channel between the cown wharf and the Parkin mill.

THE BOARD OF TRADE ALSO

Mr. Sootheran—I think the Board itself and also the lumbermen should send a like of the lumbermen should

ANOTHER STEAMSHIP HORROR

SEVENTY LIVES LOST BY THE WRECK

OF THE STELLA-A HOLIDAY CATASTROPHE.

The passenger stesmer Stella, plying

between the Channel Islands and South-

ampton, crashed upon the dreaded Cas-

quet rocks, near the island of Alderney,

Thursday afternoon, in a dense fog, and

The Stella, which belongs to the London and Southwestern Railway Company, left

Southampton at noon Thursday, conveying the first daylight excursion of the

season to the Channel Islands. There

loomed up through the fog bank and the

steamer almost immediately afterwards

struck amidship. The captain, seeing that the Stella was fast sinking, ordered

the lifeboats to be launched. His instruc-

The last thing a survivor saw was the figure of the captain of the Stella standing
