School Improvements. The management committee of the Board of Education visited the several ward schools yesterday for the purpose of deciding what improvements both in the interior of the buildings and in connection with the grounds are required to make our public schools more pleasant and comfortable. A small sum is to be expended each year for this purpose, and the idea is one that will be commended by the public generally.

Organ Recital. We call the attention of our readers to the organ recital to be given in the Cambridge Street Methodist Church on Monday, May 20th, at 8 p. m., by Mr. J. S. Parker, of St. Paul's Church, Peterboro, assisted by some of the best local talent. Tickets 15 cents.

A Good Day's Sport. Do you want a good day's sport? If you do, don't fail to go to Lindsay for the Queen's Birthday celebration. If you want to see horse racing, Highland dancing, pipe playing, boxing, wrestling, and a full programme of Caledonian games, why come to Lindsay May 24th.

Destructive Youths. We do not know whether the residents of the other Wards of the town in the vicinity of the schools are annoyed by the destructive propensities of the pupils attending, but we can speak for the North Ward. There is hardly a shrub or tree grown in the neighborhood of the schools, but shows signs of being hacked or broken by the young vandals, in many cases stealing into lawns and gardens to commit their depredations. Teachers will please enquire into the matter.

Bedsteads, Mattresses, spring stables, chairs, lounges, sideboards and bureaus at the Auction Mart.—14-4t

Base Ball. A very good four inning game of base ball was played between the Lindsay and Collegiate Institute base ball teams last Friday night resulting in a victory for the Lindsay team. Some very good play was made by both teams. The following is the score:—Lindsay 2; Collegiate Institute 1. A good game may be expected on the 24th when a club from Oswego, N. Y. will visit Lindsay. The home team are practicing hard and no doubt will make a good showing.

Informal Meeting of Town Council. Last Friday night was the occasion of an informal meeting of the Town Council to consider a proposal by Mr. R. Freeman, travelling manager of the Moffett, Hodgkins and Clark water works company, of Watertown, N. Y. After a short discussion on the proposed railway extension from Irontdale to Ottawa, by Mr. Barron M. P. and others, the Mayor called upon Mr. Freeman to address the meeting, consisting of the council and leading business men of the town. He referred to his last visit to this town when he made a number of examinations of the different sources of water supply and finally decided upon taking it from a point on Scougog River above the cemetery. He maintained that only a limited supply can be obtained from the proposed wells which only furnish enough to fill a 3 inch main whereas it requires a sufficient quantity to fill a 12 inch main in order to meet the future demands of the town. He also holds that the wells are objectionable owing to their central position in town. He proposes to construct a pump house for the accommodation of two 80 horse power boilers and two Worthington steam pumps of 15 million gallons capacity each day and provide a home for the engineer in charge of the pump house; to lay 7 miles of pipe with 70 hydrants to cover the principal portion of the town of Lindsay extending and terminating in a circular stand pipe upwards of one hundred feet in height and 16 feet in diameter made of boiler plate iron to be located somewhere at the west end of Kent Street near the Collegiate Institute. He proposes to do all the above, provide the town with water for fire purposes, street watering, to put water faucets in the offices of the town, to locate goose necks in different places and water founts for the use of the public, all for an annual rental of \$3,500, the contract to extend over a period of ten years, the town to have the privilege of buying out the whole system by giving six months notice at a figure arrived at by arbitration as provided by the revised Statutes of Ontario, or to renew the contract after the expiration of the said term. On motion of Deputy Reeve Ray, seconded by Councillor Flurey, a committee composed of the Mayor, Reeve Crandell, Deputy Reeves, Williams and Ray and Councillor Flurey was appointed to confer with the following citizens: Messrs. Hudspeh, Barron, Sadler, Dobson, J. D. Flavell, J. Kennedy, A. F. D. MacGahen and Drs. Poole and Burrows, and report on the proposal at an early date. By request of Mr. Barron, M. P., a committee composed of Reeve Ray and the Mayor was delegated to accompany to Toronto other delegations of different municipalities interested in the proposed Irontdale and Ottawa extension of the G. T. R. The Council then adjourned.

Brechin Mineral Water for sale at Higinbotham's drug store.—15-3t

New Patent Roller. A gentleman in the north ward has fallen heir to a discovery which may enable him to dispense with the ordinary garden roller in future. Having raked and re-raked the beds until they were as level as a board, the stable door was left unlocked, and a favorite horse during the watches of the night calmly walked out and rolled himself upon those beds until they presented the appearance of a picture upon a large horse-bill. A neighbor's garden was also worked at the same time. It is now being seriously considered the patenting of a new garden roller.

Presentation. On Monday evening last, the Young People's Circle, Sunday school teachers and choir of St. Andrew's church met at the residence of Mr. Jackson for the purpose of saying farewell to Mr. R. M. Anderson, who has been an active and zealous worker for the welfare of St. Andrew's. During the evening Mr. Murdoch in a short but pointed address presented Mr. Anderson with a beautiful silver tankard and goblet, 18 inches high. Mr. Anderson, taken complete by surprise, made a suitable reply. Messrs. Jackson, McLennan, and Utley also made short speeches. The evening was spent in songs, games, &c., and was a most enjoyable one.

Personal. Reuben C. Garret, Esq., of Minden, was in town this week.

Mrs. R. Easton returned home last Tuesday evening after a four month's visit to her daughter at West Selkirk. From the Algoma Gossip we clip the following paragraph, which speaks well for the enterprise of our fellow townsman: "Dr. Herriman arrived here in the early part of the week bringing with him two settlers, two teams, a lot of agricultural implements, and a blacksmith outfit. The doctor is placing the settlers on some of his farms near West Bay. We wish we had a few more gentlemen of his description who would take as much interest in our Island as he does."
