An Unusual List of Names.

The Cosmopolitan begins its thirteenth volume May issue, under the joint editorship of Mr. W. D. Howells and Mr. Walker with a table of contents which will attract attention. James Russell Lowell, Frank R. Stockton, Theodore Roosevelt, Edmund Clarence Stedman, Henry James, Prof. H. H. Boyesen, Hamlin Garland, John Hay, Sarah Orne Jewett, Prof. Langley of the Smithsonian, Thomas Wentworth Higginson, and W. D. Howells himself are among the contributors. The illustrations in this issue are by such well-known artists as E. W. Kemble, Frederic Remington, F. S. Church, Walter Crane, William M. Chase, C. S. Reinhart, Dan Beard, George Wharton Edwards, Wilson de Meza, etc.

Death of an Old Resident.

The Fullerton Journal, of Orange Co., California announces the death on Saturday, April 9th, of Mr. John Hunter, formerly a resident of this county, and the Barrie Examiner, the editor of which paper is a nephew of the deceased, contains the following obituary notice: "John Hunter, was born in Dumfriesshire, Scotland, and came to this country in 1845. He lived in Canada for about 26 years, mostly at Kilmount, Victoria County, and while there he sat in the County Council for some time as Reeve of Somerville township. He owned a gristmill and a sawmill at Kilmount, and was postmaster and justice of the peace there, for many years. In earlier times his name was familiar in Bobcaygeon and the townships north of that place. He left Canada for California with his family in 1871, thinking that a milder climate would improve his health, as he suffered from rheumatism."

Deceased was 67 years of age, and leaves a wife, three sons and three daughters to mourn his loss.

East Victoria Teachers' Association.

The work of this association opened on Thursday, 5th April, at 10 a.m. with a full attendance, the president, W. H. Stevens, in the chair. After roll call by Mr. Knight, the president addressed the convention at the same length on "Science in the Public Schools." Mr. Houston, of Toronto, was then introduced. He based his address on the subject of "English," and during an hour was listened to with the keenest interest. His treatment of the subject partook more of the nature of a pleasant conversation than of a lecture. The afternoon session was commenced by the introduction of the subject of "Phonic Reading" by Mr. Broderick. After the speaker had briefly laid down the principles underlying the subject, Miss Stephenson, with the aid of a class, illustrated her methods of dealing with the subject in practice. The next feature of the program was a kindergarten song by a class of girls from the separate school, conducted by Miss Corkery. Mr. Houston then continued his subject till the close of the session. A pleasant evening was spent by the teachers and students with their friends, in Convocation Hall of the Collegiate Institute. Mr. Houston delivered an instructive address, taking for his subject the "Aesthetic Treatment of English." Friday, April 6th.—After some remarks by the president, Dr. Herriman read

paper on "Hygiene," showing the necessity of attention to sanitary matters in schools. He showed the importance of pure air, pure water and good light, illustrating his remarks by some simple experiments. The doctor received the thanks of the convention for his instructive lecture.

Miss Whitesides then recited the "Relief of Bergenz," after which Mr. Knight presented the report of the committee on nominations recommending the following names:—

President, Mr. O'Brien; 1st Vice-President, Miss Marty; 2nd Vice-President, Mr. Cook; Sec.-Treasurer, Mr. Head; Librarian, Mr. Armour; Committee of management, Messrs. Knight, Broderick, White, Young, O'Boyle, Hickson, and Misses Fitzgerald and Pattison. The report was adopted. Mr. Hickson then read his report of the last Provincial Teachers' Association.

At 1.30 Mr. Houston resumed his lecture on "English" making application of the principles discussed during previous sessions. After singing by a class of girls, Mr. Hardy read a paper on the "Ideal Teacher," and then some discussion ensued on the report of the committee on Uniform Promotion examinations, which, after some amendments, was adopted.

After votes of thanks, usual on such occasions, the convention adjourned.

LINDSAY MARKETS

OFFICE OF THE LINDSAY WATCHMAN. LINDSAY, ONT., May 11th, 1892. Fall Wheat per bushel, old. \$0 77 to 0 00. Rye do do. 0 00 to 0 82. Spring do. 0 00 to 0 77. Goose do do. 0 00 to 0 67. Toronto Markets.

May 11. Cable quotations showed no change today, and markets would appear to have been quiet. In the States they were generally steady. The local market was decidedly dull and inactive.

Flour—No movement reported; we hear that there was some little enquiry for export, but at prices too low to suit holders.

Wheat—There seemed to be scarcely any inclination either to buy or sell, and the feeling was easier. Fall lying west was offered at 85c which price buyers held off; spring seems to have sold at 80c on the Northern. Manitoban was weak today.

Oats—Quiet, but to all appearance steady with offerings on the spot small; we should think that mixed would have found buyers at 32c, and white at 33c on track.

Barley—Apparently inactive and unchanged with prices, or values, much as before; there seemed to be none of any consequence either offered or wanted.

Peas—Buyers holding off and holders holding on to the grain at previous prices or about 50 to 60c for cars at points north and west.

Butter—Rolls still coming in freely and fully sufficient; prices easy and unchanged at 13 to 15c; nothing doing in tubs.

Eggs—In fairly good supply, but in good demand and steady, usually at 11c for choice in cases.

Trade in London.

We take the following from the correspondence of the Montreal Trade Bulletin: CHEESE.

Notwithstanding that some late makes of Canadian cheese have been allowed to go at easier figures, the really fine parcels held by some houses here are still kept for extreme figures, and 58c to 62c is the firm rate of quotation, while unless the opening of the season has been supplied with too much first-class stuff, a consummation hardly to be expected, I should not be surprised to see rates go even higher, though it is to the interest of the shippers the margin should not be too great just now.

EGGS.

Eggs have been quiet, and with a steady consumptive demand prices have undergone no alteration. Taking the cost price of eggs in Montreal and Ontario just now, it would seem that the export basis is not anywhere near reached; and if shippers send too freely in the present state of the market, they are likely to get nipped, as it will be difficult to get cost price from now until June, when the shipments from Ireland fall off. The novelty of the Canadian shipments has worn off to some extent, and the recklessness of some shippers in mixing their consignments and sending along lined eggs to a market sick of them has not been forgotten by those who have sufferers here at the end of the season a few months back. It is a great pity to spoil a good trade by mistakes like this, and it is to be hoped that in the season now opening—which will be one of anxiety and care to every shipper in the Dominion, no matter in what department owing to the hard competition that will have to be faced—every care will be taken to keep up the reputation some brands of Canadian eggs deservedly enjoy, while no effort should be spared to retrieve the character of such as have suffered by the errors of the past. I am speaking now in the interests of this trade, which should grow to be one of considerable value to the Dominion, and which I have every confidence that, with judicious handling and fair dealing, it is bound to go on in-

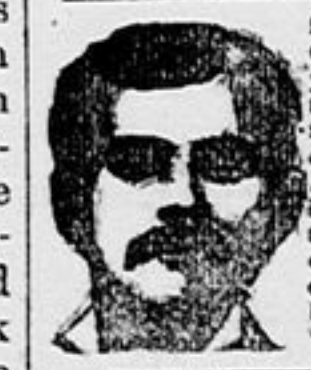

creasing and augmenting in profit to the exporter. I certainly think it necessary to strike a note of warning to those who may be heedless of the danger of extinction they bring on the whole trade by their, perhaps, thoughtlessness. We can take a reliable, sound article, we don't want stale or inferior stuff. There is plenty of that ex-Continent every day. Irish eggs are quoted from 5s 4d to 6s. It should be noted by Canadian exporters that it is with these eggs they will chiefly come into competition, especially at Liverpool, and the rate given leaves very little margin.

Didn't Know Latin.

"The Boston Saturday Evening Gazette" tells a story showing that an ignorance of Latin is sometimes a disadvantage. A young business man of Boston had a sore throat early in the winter, and meeting his cousin a physician (and also something of a wag), he asked him what to do for it. "Oh, I'll write a prescription for you," was the answer. He wrote it, and the gentleman glanced at it before taking it into the druggist. It read something like this: "Aqua Pura—ounces; Chloride Sodium—ounces. Shake before using; and gargle with it every half hour." "How much is it?" queried the patient, as the druggist handed him the bottle. "Two dollars," was the reply. Last week another sore throat asserted itself; and, remembering the efficacy of his first treatment, he took in the bottle to be filled again. Another clerk waited on him, and when he inquired the price he was astonished by the cheerful answer: "Oh, we don't charge anything for salt and water!" He had paid two dollars before for a bottle of water with two tablespoonful of salt dissolved in it.

MONEY TO LOAN.

Money lent on mortgage, and mortgages and notes negotiated. Straight loans at 6 per cent. MOORE & JACKSON.

Don't fail to call on GROSS at his office, ney's store Kent Street, and see specimen work.

NOTICE TO CREDITORS

In the Matter of Thomas Green, Township of Laxton, in the County of Victoria, Insolvent.

NOTICE IS HEREBY GIVEN that the above named Insolvent has made an Assignment to me, under Provisions of the Revised Statutes of Ontario, 1887, Cap. 124, of all his effects for the benefit of his creditors.

A meeting of the creditors of the Estate is hereby convened and held at the Law Office of Messrs. Barron & McLaughlin, Kent street, Lindsay, Friday, the Eighth day of April, 1892, at Two o'clock in the afternoon, for the purpose of appointing Inspectors, and for the purpose of directing with reference to the affairs of the said estate.

All creditors of the said Estate hereby required to file their claims with Messrs. Barron & McLaughlin, Town of Lindsay, Solicitors for the said Estate, as directed by the said Statute, or before the day of such meeting, the First day of May, 1892. I shall proceed to distribute the said Estate, and I shall not be responsible for the assets of the said estate, or for the claims of any person or persons whose claim or claims shall not be so filed.

JOSEPH V. STARR By his Solicitors Barron & McLaughlin Dated at Lindsay this 25th March, 1892.
