THE POWER OF TRIFLES.

A pebble dropped in ocean, A word let loose in air, May give a ripple motion That breaks-we know not where.

A look may sink a spirit; A word may save a soul; A single act may ne'er permit. Some heart to reach a goal.

'Tis trifles sap the heart joys Whence sweetest hopes should flow. 'Tis constant trust in earthly toys That causes half our woe.

THAT FRIEND.

Where I go, he shall lead me, With his loving tender care, If my path be dark with tempests, Or if sunshine linger there.

When I sleep he shall keep me, Watching o'er me every night; If my soul pass through the valley, He will be my guiding light.

I may meet with dire misfortune, I may suffer every loss, He will never once forsake me, But will lead me to the Cross.

I feel his unseen power, And I know the day will dawn, When this frail and mortal vision Will forever be withdrawn.

For now we see but darkly, But then as tace to face; We shall see him as he is, With Heaven our resting-place. _N. S. B. Brooklyn, N.Y.,

A Tree Growing from a Tomb The story has often been told of the seedling which forced its way out of a grave, displaying the heavy granite slab, which had been placed there by order of the person interred beneath it, who, having been a blatant infidel declared that he would be buried so securely that no power in creation should be able to make his grave give up its dead. A traveller who has recently visited England states that a similar event has occurred there. He visited a church at Watford in Hertfordshire, and while wandering in the graveyard surrounding it, noticed a tree fifteen feet high growing out of a grave. The vertical stones which formed the sides of the monument were still standing, but the heavy horizontal stone which had once covered it had dancing hall When they overtook us, repaired reputation. been lifted and had slipped off by its own weight. The visitor made inquiries about the tomb and was referred to the history of Watford. He looked lady who was buried there was a noted unbeliever who had expressed a wish similar to that of the infidel in the well-known story, and, as the visitor saw, with a like result.
