-The way broken glass lies about the streets leaves the impression among wheelmen that some juveniles throw it out for the fun of seeing tires punctured. Police Magistrate Steers tells us that if any of them are caught and brought before him they will spend several sunny days behind the bars.

-The workmen very thoughtfully put a fresh coat of paint on the new bridge last Saturday evening and some recreants who leaned on it while looking into the water on Sunday ruined the finish in places by rubbing the sleeves of their best coats in it. It was annoying for the painters. What the people with the coats said, we have not space to publish.

Surely this tide is waiting at the gates of Lindsay. Saw mills, veneer mills, cattle market, etc. are pleading for entrance. Let us hope that her citizens will seize the occasion. A cattle market once established would advertise itself. As for veneer mills and furniture shops, a large amount of Haliburton county hardwood is suitable for furniture. Let Lindsay flourish.

-Robert G. Galbraith of New Philadelphia, Ohio, nephew of Mr. Wm.Galbraith, caretaker of the postoffice here, met with a terrible death at Cleveland on April 28th. He was usher in the State Hospital, and during the afternoon entered the elevator for the purpose of going to an upper floor. A moment later the night watchman heard a grinding noise, and hurrying up stairs discovered Galbraith lying on the floor of the car, his head having been crushed between the carriage and the wall of the shaft. He died a half hour after the accident. He was 20 years of age.
